Schuckit, 2013-05-24 The science of the etiology and treatment of alcohol has made notable progress in recent years Since the early 1970s there have been growing in roads made concerning the relevance of hereditary factors in alcoholism This has led to the presentation of various innovative hypotheses in this field In conjunction

with this there has been much discussion and study of the alcoholic personality and its possible characteristics These may be considered the longitudinal aspects linked to the transmission of alcoholism

Alcohol Abuse and Its Implications for Families United States. Congress. House. Select Committee on Children, Youth, and Families,1985 *Handbook of Behavioural Family Therapy* Ian R.H. Falloon,2015-07-30 First published in 1988 behavioural family therapists worked in an area that had greatly changed since its inception over 20 years before Growing out of the pioneering work of Gerald Patterson Robert Paul Liberman and Richard Stuart whose backgrounds vary from psychology to psychiatry to social work behavioural family therapy BFT had evolved to encompass systems theory considerations of the therapeutic alliance as well as approaches to accounting for and restructuring family members subjective experiences through cognitive strategies As BFT had not been the brain child of any one charismatic innovator but rather of a wide array of clinicians and researchers developing and rigorously testing hypotheses it is fitting that this much needed summation of the field was a collaborative product of an array of well established practitioners of the time They discuss in Part 1 of the book the theoretical parameters of BFT focusing on modular behavioural strategies the indications for therapy assessment of family problems pertinent issues arising in clinical practice and approaches to the problem of resistance to change Contributors to Part 2 then apply theory to such clinical situations as parent training and helping families cope with patients suffering from developmental disabilities alcoholism schizophrenia senile dementia as well as anxiety obsessive compulsive and depressive disorders Specific attention is also given to acute inpatient and primary health care settings While BFT had already proved quite effective in treating a great number of family problems it was only in its infancy at the time of writing As Falloon says in his overview all exponents of the method are constantly involved with the process of refinement each clinician is a researcher each family member is a research subject and each researcher is contributing to clinical advancement This openness in combination with a willingness to modify sacred tenets of behaviourism while adapting proven techniques from other family therapies made this title a landmark in its field As such it was not only of interest to all clinicians and researchers with a behavioural slant but also to all family therapists who wished to challenge themselves to develop an integrative approach

Alcohol Health and Research World, 1977 Treatment and Rehabilitation of the Chronic Alcoholic Benjamin

Kissin, 2012-12-06 The present volume contains a large variety of treatment approaches to the long term rehabilitation of the alcoholic ranging from the biological to the physiological to the psychological to the social The multiplicity of proposed therapies each of which has its strong proponents suggests that alcoholism is either a complex medical social disease syndrome requiring a multipronged treatment approach or a very simple illness for which we have not yet discovered the remedy The latter may indeed be true but we cannot use what we do not know and must use what we do know We do however have the obligation to be responsible in our treatment to provide the best that is known at this time and to be discriminating in our prescription of appropriate treatment for individual patients If there is one conclusion we would like to offer in our preface it is that alcoholics constitute a markedly heterogeneous population with widely disparate needs for whom at least at our present level of knowledge a broad spectrum of treatment modalities is necessary If this is true then probably most of this book has validity With this volume on the treatment and rehabilitation of the chronic alcoholic we bring to completion our five volume series *The Biology of Alcoholism* As the title of the present volume indicates we have departed from our original intention to deal solely with biological aspects of the syndrome and have attempted rather to produce a more comprehensive work *The Family in Medical Practice* Michael A. Crouch, Leonard Roberts, 2012-12-06 My practice life has spanned 36 years and during that time I have been involved in untangling countless mysterious maladies or at least trying to do so All of these efforts were without the benefit of any formal training about family systems I am greatly encouraged by this book because it first draws attention to the intricate web that mankind has woven for itself The family physician has often been caught up in this web and therefore rendered impotent Efforts to understand all of this are to be applauded It has been my good fortune to know the editors Leonard Roberts and Michael Crouch and as a family physician I feel that their hearts are in the right place They have grown up medically speaking in an era when society has become more complex where life is not easy Birth and its medical participants are suspect childhood is complicated by divorce and loneliness adolescence is a time of aimless searching young adults are hard pressed to earn a living the quality of life is being threatened somewhat by the overgrowth of high technology dying with dignity is at a premium The editors are to be commended for helping us clarify the role of the family physician in all of this Annual Progress in Child Psychiatry and Child Development, 1988 Stella Chess, Alexander Thomas, Margaret E.
