## **Family And Population In Nineteenth Century America Quantitative Studies In History:**

**Family and Population in 19th Century America** Tamara K. Hareven, Maris A. Vinovskis, 2015-03-08 Representing new approaches to the study of the family and historical demography this collection of essays analyzes the relationships of demographic processes in different population groups to household structure and family organization and their implications for family behavior Emphasizing dynamic rather than structural factors the essays thus move beyond earlier studies of family history Essays by the editors Richard Easterlin George Alter Gretchen Condran and Stanley Engerman focus on patterns of fertility in relation to urban and industrial development economic opportunity and the availability of land and race and ethnic origin The remaining essays by Laurence Glasco Howard Chudacoff and John Modell deal with family organization over time as affected by such factors as the practice of boarding the role of kin family budgeting strategy and migration The authors not only challenge the prevailing assumption that rapid urbanization is responsible for the decline in the fertility rate they also contend that contrary to the prevailing theories of social change the emergence of nuclear households was not a consequence of industrialization Originally published in 1978 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Family and Population in Nineteenth-century America Tamara K. Hareven, George Alter, Mathematical Social Science Board, 1978 This volume is the result of an advanced seminar on the family in the process of urbanization which was organized by Tamara K Hareven under the sponsorship of the Mathematics Social Science Board of the National Science Foundation This seminar was held at Williams College in July 1974 Pref **Literacy** United States. *Journal of Women's History Guide to Periodical Literature* ,1992 Gayle V Fischer has produced a terrifically useful volume that no research library should be without The Journal of American History an indispensable resource to finding material on women s history throughout the world Journal of World History the work is recommended for its currency depth of coverage and scope Ethnic Forum As part of its mission to disseminate feminist scholarship and serve as the journal of record for the new area of women s history the Journal of Women s History began a compilation of periodical literature dealing with women s history This volume is drawn from more than 750 journals and includes material published from 1980 through 1990 There are forty subject categories and numerous subcategories The guide lists more than 5 500 articles all are extensively cross listed      **The Family in Question** Diana Gittins,2017-03-01 After a decade of Thatcherism rising illegitimacy and the moral panic over child sexual abuse the family is more of a political issue than ever But is it the family that is in crisis or family ideology In this revised edition of an important and controversial book Diana Gittins adds to a broad range of historical anthropological and feminist evidence a new chapter on child sexual abuse      The Future of Economic History Alexander J. Field,2012-12-06 This collection represents a modest attempt to chart a new course for the intellectual discipline known as economic history The book is not about productivity growth in the 1990s lest the title give rise to any confusion As a group these essays suggest new and potentially fruitful areas or approaches for research and at the same time address weaknesses in past efforts One important audience will be graduate students attempting to decide whether to write a dissertation in economic history or trying to select or refine dissertation topics in the area and determine how to approach them Some of the essays will most certainly be appropriate additions to the or semester courses in economic history that remain a fixture in quarter graduate economics training programs A second audience should be established scholars who are now or have in the past done research in economic history and are interested in the perspectives of a relatively younger group of scholars The term younger is used here advisedly to describe a group of scholars born between 1943 and 1954 Nevertheless the authors of these essays can on at least one dimension be distinguished from the pathbreaking new economic historians who established their academic reputations in the early 1960s Indeed the contributors to this volume include students of such

pioneers as Richard Easterlin Albert Fishlow William Parker and Jeffrey Williamson      **Ensuring Inequality** Donna L. Franklin, 2015-04-01 There is a crisis today in the American family and this crisis has been particularly severe in the African American community Black women are more likely than ever to bear children as teenagers to remain single and to raise their children in poverty As a result a staggering number of African American children are growing up without fathers and living in destitution In this insightful new book Donna L Franklin offers an in depth account of the history and development of the African American family revealing why the marriage and family experiences of African Americans differs from those of white America and highlighting the cultural and governmental forces that have combined to create this divide and to push the black family to the edge of catastrophe In Ensuring Inequality Franklin traces the evolution of the black family from slavery to the present showing the cumulative effects of centuries of historical change She begins with a richly researched account of the impact of slavery on the black family finding that slavery not only caused extreme instability and suffering for families but established a lasting pattern of poverty which made the economic advantages of marriage unattainable She provides a sharp critique of the policies of the Freedmen s Bureau during Reconstruction and demonstrates the mixed impact of the new pattern of sharecropping On one hand tenant farming allowed greater autonomy than the older gang labor system and tended to consolidate two parent families on the other hand it reinforced male authority and bound African Americans in debt peonage The twentieth century brought a host of changes for black families and Franklin incisively examines their effects First black women began to move to cities in search of jobs as domestic servants while men stayed behind to work the fields dividing the families Then two world wars sparked the great migration north as African Americans pursued employment in booming factories When the white soldiers returned home however many blacks found themselves out of work shunted to the least desirable lowest paying jobs Roosevelt s New Deal offered limited help in the North it tolerated the red lining of urban neighborhoods making it difficult for blacks to obtain home mortgages in the South blacks found that as agricultural laborers they were exempted from most labor laws while agricultural subsidies were administered in favor of white farmers And the distinction made between programs paid for by beneficiaries such as social security and those based on need such as Aid to Families with Dependent Children stigmatized the poor Most blacks found themselves living an ever more tenuous socially isolated existence Franklin brings her comprehensive nuanced study right up to the present showing the impact on the urban poor of changes in the economy and society from the dramatically shrinking pool of good jobs to the rise of the new right The increasing reliance on welfare by young black mothers she writes corresponded to the erosion of opportunities for young black males More important she offers new approaches to solving the crisis Not only does she recommend federal intervention to create new economic opportunity in urban ghettos but she also stresses the importance of black self help and proposes a plan of action In addition she outlines social interventions that can stabilize and strengthen poor mother only families living in ghetto neighborhoods Exhaustively researched and insightfully written Ensuring Inequality makes an

important contribution to the central debate in American politics today      *A Population History of the United States* Herbert S. Klein, 2012-05-28 The first full scale one volume survey of the demographic history of the United States has been fully updated here From the arrival of humans in the Western Hemisphere to the current century Klein analyses the basic demographic trends in the growth of the pre conquest colonial and national populations From the origin and distribution of the Native Americans to late twentieth century changes in family structure fertility and mortality this updated edition incorporates recent research including data from the 2010 census In this definitive study Klein explores regional patterns of fertility and mortality trends in births deaths and international and internal migrations comparing them with contemporary European developments The profound impact of historic declines in disease and mortality rates on the population structure of the late twentieth century is explained while the more recent urbanisation and rise of suburbia are examined within the context of new massive international migrations on North American society      **Immigrant and Native Families** Hilda H. Golden, 1994 This book provides precise information on historical demographic patterns which are highly relevant to the issue of how immigration affected major demographic changes in the United States during the time of massive industrialization Contents The Significance of Nativity and Ethnic Origin Sources Data and Methods The Impact of Immigration on Household Sizes and Components 1850 1900 The Impact of Immigration on Household Types 1850 1900 Immigration and Fertility Change in Western Massachusetts 1850 1900 Nativity and Ethnic Differences in Marital Fertility in 1900 Childbearing Patterns and Fertility Limitations Mortality Levels and Trends in Western Massachusetts 1850 1900 Rethinking Demographic Change Western Massachusetts as a Case Study      Controlling Reproduction Andrea Tone, 1997 This title discusses the history of reproduction in the USA As reproduction has been construed chiefly as a female responsibility the volume stresses the centrality of gender to its history examining why reproduction as a biological social and economic function became a gendered construct      **The Making of Urban America** Raymond A. Mohl, 1997-06 This second edition is designed to introduce students of urban history to recent interpretive literature in this field Its goal is to provide a coherent framework for understanding the pattern of American urbanization while at the same time offering specific examples of the work of historians in the field      **Bibliography of European Economic and Social History** Derek Howard Aldcroft, Richard Rodger, 1993 This bibliographical guide contains 10 000 references to the economic and social history of 30 European countries during the period 1700 1939 More than 3000 periodicals have been consulted to obtain references as well as books edited collections and conference proceedings The information is listed in categories such as industry agriculture finance migration labour conditions urban communities and organizations Full publication details are included so that references may be located easily      *Current Catalog* National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70      **Brought to Bed** Judith Walzer Leavitt, 2016-11-01 This classic work reveals how childbirth has changed from colonial times to the present including a new preface that discusses writings on the subject over

the past three decades      United States History James Warren Oberly, 1995      **Writing History** Stefan Berger, Heiko Feldner, Kevin Passmore, 2020-02-20 The third edition of Writing History provides students and teachers with a comprehensive overview of how the study of history is informed by a broader intellectual and analytical framework exploring the emergence and development of history as a discipline and the major theoretical developments that have informed historical writing Instead of focusing on theory this book offers succinct explanations of key concepts that illuminate the study of history and practical writing and demonstrates the ways they have informed practical work This fully revised new edition comprehensively rewrites and updates original chapters but also includes new features such as new chapters on postcolonial environmental and transnational history chapter introductions setting them within the context of historiography a new substantive introduction from the editors providing a useful road map for students an expanded glossary In its new incarnation Writing History is more than ever an invaluable introduction to the central debates that have shaped history
