maintains that our society has substituted self esteem for self respect and in the process we've lost our manners. In this inspirational and practical book she tells parents how to instill character and purpose in their children without erecting walls of rebellion. In an effort to raise children with a healthy view of themselves, parents have focused on self esteem rather than self respect. And author Jill Rigby says there's a big difference. It's the difference between self-centered and others-centered children, the difference between performance-driven and purpose-focused teenagers. This book also examines three different styles of parenting: parent-centered, child-centered, and character-centered. Parent-centered parents are more concerned with their own agenda than their child's best interest. Child-centered parents are more concerned with their child's approval than their child's well-being. Character-centered parents are more concerned with their child's character than their child's comfort. A chapter on the School of Respect gives guidance for tots to teens and what the goal for each age group is and what training is necessary to reach that goal. This chapter also includes thirty-six ways to cultivate a house of respect. Drawing a distinction between performance and purpose, this book maintains that rather than asking what you want your child to do, you ask what you want your child to become. In delineating the difference between being a coach to your child vs being a cheerleader, the author teaches parents the difference in offering false and genuine praise and applauding mediocrity vs engendering excellence. With wisdom and insight, Jill Rigby shares age-appropriate ways to set boundaries with children without building walls of separation. Finally, she calls for parents to discipline, teach their children rather than punish them.

How and How Not to Be Happy J. Budziszewski, 2022-03-01 It's Time to Start Asking the Right Questions About Happiness. The West is facing a happiness crisis. Today less than a quarter of American adults rate themselves as very happy, a record low. False views of happiness abound, and the explosion in happiness studies has done little to dispel them. Why is true happiness so elusive, and why is it so hard to define? In *How and How Not to Be Happy*, internationally renowned philosopher and happiness theorist J. Budziszewski draws on decades of study to dispel the myths and wishful thinking that blind people from uncovering lasting fulfillment. Could happiness lie in health, wealth, responsibility, or pleasure? Should we settle for imperfect happiness? What would it even mean to attain perfect fulfillment? Budziszewski separates the wheat from the chaff, exploring how to attain happiness and just as importantly, how not to.
