Family Guide To Symptoms 130 Symptoms Their Causes And Treatment:

The Essential Family Guide to Caring for Older People Deborah Stone, 2019-11-14 No one wants to think about getting older. It's true. At any age when things are moving along normally day to day and everyone seems fit and well there seems no reason to think about future problems that your friends and relatives might and probably will come across as they age. In fact it might even seem a little morbid to think such thoughts or possibly even tempting fate. Yet there will come a time when you must raise these issues and ideally this should be before any problems arise. The Essential Family Guide to Caring for Older People is the ultimate source of information and help for families with care responsibilities. Deborah Stone draws on her extensive experience working in elder care to offer practical advice on every aspect of the field in depth. Topics range from how to get help immediately, legal information, care funding options, a guide to useful technology and advice on the main physical and mental health issues that affect older people. Plus guidance is given on dealing with social services and ensuring you choose the right care for your situations. Crucially the book also offers help on how to cope as a carer with practical advice on juggling family work and your caring responsibilities while looking after yourself. The Family Guide to Preventing and Treating 100 Infectious Illnesses Phyllis Stoffman, 1995-07-26 Quick, friendly and easy to use, this indispensable addition to every family medical bookshelf answers all your questions about 100 increasingly common infections from Lyme disease, flu and strep to ear infections, chicken pox, meningitis and TB. The book explains symptoms, incubation periods, home nursing care, necessary treatment and how to protect your family from illness. You can look up any infection by its common or medical name, the age of the patient or the circumstances under which it is transmitted. This comprehensive, detailed reference will give you facts on over-the-counter drugs and effective home remedies. Advice on why and when your children need immunizations. Information on the important differences in treating infants, children and adults with the same infections. Guidance on caring for family members with chronic illnesses who catch an infectious disease. Phone numbers to call regarding specific diseases and their prevention. Recommendations for protection during international travel and adoptions. The facts you need to prevent infections and care for those who have them. Ronald Gold M D M P H
