Family In Australia Social Demographic And Psychological Aspects:

The Family in Australia, 1974 *The Making and Breaking of the Australian Family* Michael Gilding, 2020-07-31 Once everyone knew what the family was It was something natural and without a history mum dad and the kids Divorce women in the workforce de facto relationships and the sexual liberation movements have fractured the old certainties Nowadays there is more talk about the family than ever even if no one is quite sure what it is anymore The making and breaking of the Australian family looks at the family in history It traces the shift from the household economy of the late nineteenth century to the child centred nuclear family of the mid twentieth century to the recent proliferation of households The book argues that the so called traditional family was a quite recent creation and that its fragmentation is obscured by new redefinitions of the family The making and breaking of the Australian family addresses the changing experiences of childhood parenting home neighbourhood work birth and sexuality It examines the expansion of the market and the state patterns of class mobilisation the reconstruction of masculinity and femininity and the creative strategies of ordinary people in everyday life This is a lively and accessible book which will prove a valuable reference for students of history sociology women s studies and Australian studies and will generate wide discussion amongst people concerned with family policy welfare and contemporary social issues **The Family in Australia** Jerzy Krupinski, 1978 Article by D Barwick annotated separately

South Asian Diaspora Narratives Amit Sarwal, 2017-05-03 This book analyses the metaphysical and poetical notions and the processes of rooting into a culture and routing out of a culture in the context of South Asian diaspora in Australia These diasporic narratives are often characterised by bifurcated and dislocated identities that exist in a liminal space in between two identities two cultures and two histories Yet home remains through acts of imagination remembering and re creation an important reference point The author argues that a clearer notion of politics of location is required to distinguish between the different kinds of dislocation the immigrants suffer both psychologically and sociologically The diaspora is Australia is an under studied topic and this book fills a lacuna in South Asian diaspora studies by analysing and calling upon a wide range of works in this field from historical anthropological sociological cultural and literary studies *Social Anthropology and Australian Aboriginal Studies* Ronald Murray Berndt, Robert Tonkinson, 1988 Shifts of emphasis from 1961 1986 in the study of Aboriginal economy kinship gender issues religion law and social anthropology papers by C Anderson J A Barnes R M Berndt and R Tonkinson I Keen F Merlan H Morphy and N M Williams annotated separately **Social Policy and Its Administration** Joanna Monie, Adrienne Wise, 2013-10-22 Social Policy and Its Administration contains an index of literature that defines the output created by social scientists for the welfare of human beings This literary survey originates out of the need to present a comprehensive bibliographic work The book covers areas that encompass the concept social policy Topics such as the standards in social welfare services are also the focus of the book The book traces the beginning of social science and the major proponents of the subject The improvements made on the field are also enumerated and the

countries that contributed to the progress of society are named in the book Social revolutions such as the liberation of women and the abolishment of servitude as well as the transition from colonial status to political independence are discussed in the book The text will be a useful tool for sociologists historians students and researchers in the field of political science

Aboriginal Family and the State Sally Babidge, 2016-03-23 Aboriginal Family and the State examines the contemporary relations and history of Indigenous families in Australia specifically referencing issues of government control and recent official recognition of Aboriginal traditional owners Drawing on detailed empirical research it develops a discussion of the anthropological issues of kinship and relatedness within colonial and postcolonial contexts This volume explores the conditions affecting the formation of family among indigenous people in rural northern Australia as well as the contingencies of family in the legal and political context of contemporary indigenous claims to land With a rich discussion of the production practice and inscription of social relations this volume examines everyday expressions of family and events such as meetings and funerals demonstrating that kinship is formed and reformed through a complicated social practice of competing demands on identity

Social Suffering in the Neoliberal Age Karen Soldatic, Louise St Guillaume, 2022-04-27 This book provides a rich synthesis of research and theory of nascent and emergent critically engaged work examining changing welfare structures regimes and technologies and the social suffering that is generated in everyday lives By rigorously examining social security restructuring with the turn to austerity governance and its daily practices of managing regulating and subordinating individuals peoples and communities this collection delineates the machinery of state power and logics designed to manage contain and control the lives of some of the most poorest and marginalised citizens who are reliant on social welfare income payments A core strength of the book is first its unpacking of austerity governance across diverse communities and second the elevation of community resistance and mobilisation against the very measures of austerity Combined the work maps out the logics of state power and everyday practices of embedded contestation and confrontation Using the case study of Australia to discuss sociolegal recategorisations automation of welfare governance technologies of policy design and delivery conditionality and systems of penalisation this book will be of interest to all scholars and students of sociology critical theory social policy social work and disability studies Indigenous studies and settler colonialism

The Aging Experience Cherry Russell, 2024-05-10 Local writing on the subject of old age had tended to a fairly uniform approach focusing on empirical studies of old age as a social problem using census and survey type data Little attention had been paid to theory development Originally published in 1981 this book provides an in depth study of how old age was experienced in contemporary Australian society at the time It was the first major piece of original research on aging to be published in Australia and in several important senses represented a clear departure from the mainstream of Australian gerontology The Aging Experience links original in depth data to a broad theoretical framework Working from the premise that old age is a devalued status it examines the implications of this for the personal experience and interpersonal

relations of elderly people Through detailed case studies of elderly Australians their interaction with family age peers and welfare services are described The analysis concentrates less on the overt characteristics of these relationships and their material functions than on their symbolic content and meaning for the participants Thus the study moves beyond conventional statistical documentation of the problems of old age to a sharper delineation of aging as a lived experience It is an approach which offers new perspectives and challenges many of the assumptions underlying previous research
