## *Interdisciplinary Essays*

Edited by Theodore K. Rabb and Robert I. Rotberg

*"In recent years a variety of subjects largely ignored by earlier generations has captured the attention of historians.*

*One of the most fruitful has been the life of ordinary men and women, whose habits and beliefs were virtually unknown until, during the last two decades, scholars brought to light information about social groups who previously had been considered too obscure (or unimportant) to merit exploration....*

*"The history of the family, a relative newcomer even to so young a body of literature, epitomizes the particular quality of these seemingly mundane subjects. Nowhere can one perceive more clearly that, as our knowledge of prosaic, everyday activities increases, we gain a far richer and more thorough understanding of human behavior in bygone ages.... Perhaps the happiest result of the rise of this new genre has been its illumination of the single most neglected historical subject — women. In the family their importance cannot be ignored, and this book shows them taking decisive roles in places as distinct as ninth-century France and twentieth-century Buffalo.*

*"...The essays which follow, drawn from the Journal of Interdisciplinary History, indicate both the range and the novelty of this field of inquiry, whose impact on the methods and goals of historical scholarship is already strikingly apparent." — from the Preface*
