Family In Past Time:

Household and Family in Past Times Peter Laslett, R. Wall, 1972-11-09 Comparative studies in the size and structure of the domestic group over the last three centuries in England France Serbia Japan and colonial North America with further materials from Western Europe This is an extremely important collection of essays in historical social structure The volume represents the first attempt to examine in historical and comparative terms the general belief that in the past all families were larger than they are today that the nuclear family of man wife and children living alone is particularly characteristic of the present time and came into being with the arrival of industry publisher description *Family Forms in Historic Europe* Cambridge Group for the History of Population and Social Structure, 1983-03-10 The family forms of historic Europe have been fascinating in their variety Their importance for the historical development of our continent would be difficult to exaggerate for our relationship with the peoples of the other continents of the world as well This book is an attempt to recover the different familial systems and compare them with one another The studies range from Russia Poland Hungary and Austria to Scandinavia Flanders and Britain All the influences which have affected the character and composition of European households are taken into account The analysis covers their function as productive work groups in the procreation and bringing up of children and in the support of the elderly and their relationship with the wider society and its norms along with its political organization central and local Claims that inheritance customs and inheritance practice and the occupation of the household head exerted a powerful influence on the size and composition of households are subjected to rigorous and systematic investigation

Historical Anthropology of the Family Martine Segalen, 1986-11-28 Over the past decade or so the social scientific sociological analysis of the family has been obliged to reconsider its traditional view that industrialisation triggered a shift within society from the large family which fulfilled all social functions from socialising the children to caring for the sick and the old to the modern nuclear family which was regarded solely as being the locus for emotional relationships Historians have shown that in the past there was a variety of family structures within a range of varying demographic economic and cultural frameworks distinctive for each society At the same time the interaction between sociology and social anthropology has led to a clearer conceptual analysis of that vague polysemic term family and notions of dwelling place descent marriage the relative roles of husband and wife and parent child relations as well as the more general relations between generations have in a variety of past and present social contexts been taken apart and analysed In this book the author synthesises European and North American historical and social anthropological material on the family that shows the reversal of the frequently held view of the family as an institution in decline showing it instead to be both dynamic and resistant

Old Age and the Search for Security Carole Haber, Brian Gratton, 1993-12-22 Haber and Gratton lay to rest many conventional assumptions concerning the place of older persons in American history Choice Haber and Gratton's meaty

little book does more than provide an intelligent synthesis of existing old age history its new interpretations insights and shifts of emphasis will provoke responses and help move historians work away from the now threadbare original disputes in the field toward new questions and approaches American Historical Review Indeed Haber and Gratton give us a refreshingly multidimensional history of the shift in old age security from work assets or children to government annuities Contemporary Sociology the history of old age has finally come of age The authors successfully synthesize the best of the earlier social and cultural studies with new empirical evidence and recent findings of economic historians Journal of Economic History A truly revisionary interpretation of the cultural and structural forces that shaped the elderly s lives from the colonial period to the present Lucid and controversial it is bound to be widely cited and hotly contested W Andrew Achenbaum This social history of the American elderly offers a provocative new view of aging in the United States It revises traditional assumptions about the economic status of the old and challenges the long held contention that industrialization destroyed family relationships

National Past Time Jude Morgan, 2013-04-22 For Peter Fox being a bowling alley proprietor was a calling Right from the beginning the Upstate New York village of Koopersville embraced Peters glistening new bowling alley with its modern automatic pinsetters and Koopersville Bowl quickly became the heart and soul of the village Peters dream business opened in 1962 and year after year the bowling alley was the place where the trials and tribulations of growing up in a small New England town were transformed into the dreams and hopes of the future Anything was possible at Koopersville Bowl But one day Peter Fox died and the village stopped breathing The moral fabric of the entire community broke yet Peters extended family tried to adjust to their loss As Peters eldest son Paul Fox knew it was his duty to help his mother carry on whats more it was what his father would have wanted And thats exactly what he did Even so sometimes unexpected things do happen In the game of bowling there is only one way to salvage your score and that is to throw strikes Perfect games are hard to come by But in life as Paul soon finds out there are always new beginnings new games to be played and old memories that can never be taken away Household and Family in Past Time Richard T. Vann, *The Family In Postindustrial America*

David P. Snyder, 2019-06-21 Traditional public policy toward the family the authors of this book argue has produced an array of fragmented mechanical programs in response to specific perceived dysfunctions in family performance Policy has been biased by a restrictive perception that families unlike the nuclear two parent household are either ailing or aberrant In response to these observations the authors portray the family as a natural ongoing and dynamically adaptive element of Western civilization They suggest that legislators and policy analysts should view the household as a tangible social and economic asset and an appropriate technology with which a number of tasks such as child care education health disability and unemployment insurance social security and the welfare of the aged now performed by more complex and costly formal institutions may be better accomplished Everyday People in Early Modern Kyoto Mary Louise Nagata, 2025-07-21 This social history explores the lives of urban commoners in early modern Kyoto during the dramatic political shift from famine to

revolution in the final decades of the Tokugawa regime through an extensive survey of the detailed record changes from 1843 in response to these crises The study focuses on three aspects of urban life beginning with individual and household relations with the neighborhood communities that comprised the institutional framework of urban administration and provided financial and legal resources for residents It then moves to the lives of ordinary people taking a life course approach to analyze life cycle work marriage divorce blended families fertility adoption migration mobility and mortality The final theme discusses households people lived in headship succession and devolution of property family business as a network of household shops and workshops and the roles women played while testing the patriarchy theories commonly used in this field and finding new explanations Written for all levels of expertise and including many stories of everyday people this book will appeal to undergraduate students and general readers interested in historical Kyoto Public Sociology John
