Women and the Family in Rural Taiwan Margery Wolf, 1972-06 Studies of Chinese society commonly emphasize men's roles and functions a not unreasonable approach to a society with patrilineal kinship structure But this emphasis has left many important gaps in our knowledge of Chinese life This study seeks to fill some of these gaps by examining the ways rural Taiwanese women manipulate men and each other in the pursuit of their personal goals The source of a woman's power her home in a social structure dominated by men is what the author calls the uterine family a de facto social unity consisting of a mother and her children The first four chapters are devoted to general background material a brief historical sketch of Taiwan and a description of the settings in which the author's observations were made the history of a particular family the relation of Chinese women to the Chinese kinship system and the interrelationships among women in the community The remaining ten chapters take up in detail the successive stages of the Taiwanese woman's life cycle infancy childhood engagement marriage motherhood and old age Throughout the book the author presents detailed information on such topics as marriage negotiations childbirth child training practices and the organization of women's groups

**The Family and Social Change in Chinese Societies** Dudley L. Poston, Jr., Wen Shan Yang, Demetrea Nicole Farris, 2013-11-26 This book focuses on families and their changes in Taiwan and China Traditional notions of what constitutes a family have been changing in China Taiwan and other Asian countries

The chapters in this book provide interesting methodological and substantive contributions to the discourse on family and social change in Chinese societies. They also underscore the implications of the various social changes in Chinese families. Written by Chinese and Western scholars, they provide an unprecedented overview of what is known about the effects of social change on Chinese families. One might think that defining a family is an easy task because the family is so significant to society and is universal. The family is the first place we learn culture, norms, values, and gender roles. Families exist in all societies throughout the world, but their constitution differs. In the past several decades, there have been many changes in the family in Taiwan and China. For instance, whereas in the West we use a bilineal system of descent in which descent is traced through both the mother's side and the father's side of the family, in many parts of China descent is patrilineal, although this is changing, and China and Taiwan are starting to assume a family constitution similar to that in the West. This and other issues are discussed in great detail in this book. Indeed, it is the very nature of the differences that motivated the writing of this book on changing families in Taiwan and China. The chapters in Part I, *The Family in Taiwan and China*, focus on the basic family issues in Taiwan and China that provide the groundwork for many of the chapters that follow. Chapter 1 is about the distribution of resources in the family in Taiwan. Chapter 2 focuses on filial piety and the autonomous development of adolescents in the Taiwanese family, and Chapter 3 explores the important issue of family poverty in Taiwan. Chapter 4 moves away from Taiwan and looks at several issues of family growth and change in Hong Kong, noting the interesting similarities and differences between Hong Kong and China. Part II, *Issues of Marriage, the Family, and Fertility in Taiwan and China*, focuses specifically on marriage, family, and fertility. In Chapter 5, the authors discuss the relationships between marital status, socioeconomic status, and the subjective well-being among women in Hong Kong and Taiwan. Chapter 6 describes patterns of sexual activity in China and the United States. Chapter 7 considers gender imbalances in Taiwan and their impact on the marriage market. Chapter 8 also focuses on Taiwan and examines the effects of mothers' attitudes on daughters' interaction with their mothers-in-law. Chapter 9 compares female and male fertility trends and changes in Taiwan. Part III, *Children and the Family in East Asia and in Western Countries*, consists of comparative studies of the family and children. Chapter 10 examines the dynamics of grandparents caring for children in China. Chapter 11 explores family values and parent-child interaction in Taiwan. Chapter 12 examines the significant amount of diversity among families in contemporary Taiwan. Chapter 13 describes adolescent development in Taiwan. Chapter 14 examines the impact of son preference on fertility in China, South Korea, and the United States. And Chapter 15 explores the determinants of intergenerational support in Taiwan. The final chapter in our book, the only chapter in Part IV, *The Family and the Future in Taiwan*, examines the future of the family in Taiwan with respect, especially, to the marriage market and aged dependency.

*Family Planning on Taiwan* Robert W. Gillespie,1965 **The Taiwanese Americans** Bloomsbury Publishing,1998-05-26 Despite the relatively short history of the Taiwanese in the United States they have been a significant presence in America Since 1965 immigration law changes have led to a dramatic increase in the Asian population in the United States Taiwanese Americans the immigrants from Taiwan and their descendants are a prominent group in this increasing Asian population This is the first book length study about the Taiwanese American community in the United States While most articles have discussed the economic impact of their immigration this study focuses on their community organization information networks religious practices cultural observances and the growing second generation Finally it concludes with an assessment of the contributions of Taiwanese Americans to U S society Biographical sketches of noted Taiwanese Americans complete the text The identity of the Taiwanese American community is complex and evolving because it is partly determined by the politics between Taiwan and China As relations between Taiwan and China change so will the identity of Taiwanese Americans Other variables affecting their identity include the relations between mainlanders and native Taiwanese in Taiwan political liberalization within Taiwan the role of U S policy towards Taiwan and China and the nurturing of a Taiwanese consciousness

An increasingly important variable is the orientation of the second generation American born Taiwanese Americans. They have the options of being simultaneously Taiwanese American, Chinese American, Asian American, and American Taiwanese. Americans are helping to reinvent America by transforming the economic and cultural landscape of the U S as have previous waves of immigrants.
