Family Of The Church:

Church, State, and Family John Witte (Jr.), 2019-04-11 Presents a robust defence of the essential place of stable marital families in modern liberal societies Family Ministry Charles M. Sell, 1981 The success of the church's mission lies in large part with the well being of its families In *Family Ministry* Charles Sell addresses the multiple means by which a congregation can create and sustain healthy family life In survey after survey people say that family takes priority yet family ministries remain scarce in the church and family disintegration is a significant problem even in evangelical congregations *Family Ministry* offers the theoretical theological and practical resources for developing needed ministries This edition reflects the changes that have taken place in both society and church since the first edition was published in 1981 **Church is Family** Graeme C. Young, 2022-10-27 *CHURCH IS FAMILY* *Becoming More of Who We Are* is an in depth New Testament study by Graeme C Young In the introductory section the author outlines the importance of this subject and its implications for the life and ministry of the church today He looks at present day thinking about the meaning of church and how that is expressed in the variety of church structures relationships and leadership styles He then takes his readers on a detailed examination of church relationships in the New Testament In the section *Church is Family in the Gospels* he looks at the inter relationships of Father Jesus and Jesus followers and also at what we can learn from the example of how Jesus talked with his Father In *Church is Family in Acts* there is shown the clear definition of church as family in how they addressed one another and in how they lived The leadership and decision making in the New Testament church family is seen to not involve any hierarchical structure but rather a wide variety of ways of reaching decisions The terms used to describe people with particular responsibilities are examined and compared in meaning and function with the names and titles that different parts of today's church family use In *Church is Family in the Letters* the writers are shown to be writing to fellow family members This is seen firstly in how they describe themselves and other Christians and in how they address the people they are writing to secondly in what they say about their relationship with Father and Jesus and also in the instructions they give for church family life The purpose and practice of the various family gatherings of the church are described with reference back to the church gatherings described in Acts The book concludes with *Church is Family in My Experience* This section demonstrates that although the denominational structures and organisation which are adopted by churches do not always clearly represent church as family yet in all sorts of churches *Church is Family* finds expression The author shares his happy personal experiences of how what he calls familiness has been evident in the many varied churches and Christian groups he has been in throughout his life *The Church as the Family of God and the Care for Creation* Khisi, Maximian, 2019-02-19 Of late there has grown in African Catholicism the concept of Church as the Family of God *Familia Dei* which has enhanced greater social cohesion among the members of the Church and strengthened interpersonal relationships among them This book is an endeavour to offer a path towards the solution of the problem of environmental crisis through the theological discipline of

ecclesiology Using the Catholic Archdiocese of Lilongwe's understanding of Church as the Family of God the book concludes that the application of the concept of Church as family of God while bringing great social cohesion among the people failed to extend to human relationships with the natural world in fact It has broadened the human feeling of superiority over the natural environment The book provides an ecclesiological complementarity which promotes a universal fraternity among people and the natural world and recommends an ecclesiological concept of Church as New Creation Nova creatio This would serve as a call for human beings to make a new ecological conversion leading new lifestyles change in their models of nature worldviews and change in the models of production and consumption
