*Family Values* Kelly Oliver, 1997 First Published in 1997 Routledge is an imprint of Taylor Francis an informa company

*Family Values* Kelly Oliver, 2018-05-11 *Family Values* shows how the various contradictions at the heart of Western conceptions of maternity and paternity problematize our relationships with ourselves and with others Using philosophical texts psychoanalytic theory studies in biology and popular culture Kelly Oliver challenges our traditional concepts of maternity which are associated with nature and our conceptions of paternity which are embedded in culture Oliver's intervention calls into question the traditional image of the oppositional relationship between nature and culture maternal and paternal *Family Values* also undercuts recent returns to the rhetoric of a battle between the sexes by analyzing the conceptual basis of these descriptions in biological research and the presuppositions of such suggestions in philosophy and psychoanalysis By developing a reconception of maternity and paternity *Family Values* offers hope for peace in the battle of the sexes

**Revolutionary Time** Fanny Söderbäck, 2019-12-01 Examines the relationship between time and sexual difference in the work of French feminists Julia Kristeva and Luce Irigaray This book is the first to examine the relationship between time and sexual difference in the work of Julia Kristeva and Luce Irigaray Because of their association with reproduction embodiment and the survival of the species women have been confined to the cyclical time of nature a temporal model that is said to merely repeat itself Men on the other hand have been seen as bearers of linear time and as capable of change and progress Fanny Söderbäck argues that both these temporal models make change impossible because they either repeat or repress the past The model of time developed here revolutionary time aims at returning to and revitalizing the past so as to make possible a dynamic embodied present and a future pregnant with change Söderbäck stages an unprecedented conversation between Kristeva and Irigaray on issues of both time and difference and engages thinkers such as Simone de Beauvoir Jacques Derrida Sigmund Freud Judith Butler Hannah Arendt and Plato along the way

Revolutionary Time makes a distinctive contribution to contemporary feminist and continental philosophical thought By engaging Kristeva and Irigaray in depth alongside one another and making time the guiding thread for reading their work the author generates insights that are not to be found elsewhere in the existing literature Through its development of the concept of revolutionary time the book offers rich resources for thinking about temporalization in its existential ontological and political dimensions in ways that are particularly valuable for feminist projects of change and political transformation

**Intertwinings** Gail Weiss, 2008-11-05 Intertwinings presents exciting

interdisciplinary scholarship on twentieth century French philosopher Maurice Merleau Ponty The contributors break new ground by bringing Merleau Ponty s work into conversation with literary theory architecture cultural studies critical race studies and current feminist theory and practice Spanning Merleau Ponty s early and late thought this volume focuses on the ontological ethical and political implications of his unique emphasis on the constitutive intertwinings of inside and outside self and other language and gesture body and world and identity and difference Intertwinings affirms Merleau Ponty s insight that we should not eradicate but rather celebrate the corporeal differences that make our encounters with both human and nonhuman others a source of inexplicable richness and endless fascination      Psychoanalysis, Aesthetics, and Politics in the Work of Julia Kristeva Kelly Oliver,S. K. Keltner,2009-06-02 The social and political relevance of Julia Kristeva s work is perhaps the central question in Kristeva studies and the essays in this collection provide a sustained interrogation of this complicated problematic from a variety of perspectives and across the various contexts and moments of Kristeva s forty year writing career Presenting Kristeva s thought as the sustained interrogation of a political problematic the contributors argue that her use of psychoanalysis and aesthetics offers significant insight into social and political issues that would otherwise remain concealed The collection addresses the entirety of Kristeva s oeuvre from her earliest work on poetic language to her most recent work on female genius and it includes two previously untranslated essays by Kristeva as well as original contributions from scholars working in several countries and a variety of disciplines      *The Gift of the Other* Lisa Guenther,2006-08-10 A philosophical exploration of birth maternity and reproduction Winner of the 2007 Symposium Book Award presented by Symposium Canadian Journal of Continental Philosophy      **Mad Mothers, Bad Mothers, and What a "Good" Mother Would Do** Sarah LaChance Adams,2014-04-29 When a mother kills her child we call her a bad mother but as this book shows even mothers who intend to do their children harm are not easily categorized as mad or bad Maternal love is a complex emotion rich with contradictory impulses and desires and motherhood is a conflicted state in which women constantly renegotiate the needs mother and child the self and the other Applying care ethics philosophy and the work of Emmanuel Levinas Maurice Merleau Ponty and Simone de Beauvoir to real world experiences of motherhood Sarah LaChance Adams throws the inherent tensions of motherhood into sharp relief drawing a more nuanced portrait of the mother and child relationship than previously conceived The maternal example is particularly instructive for ethical theory highlighting the dynamics of human interdependence while also affirming separate interests LaChance Adams particularly focuses on maternal ambivalence and its morally productive role in reinforcing the divergence between oneself and others helping to recognize the particularities of situation and negotiating the difference between one s own needs and the desires of others She ultimately argues maternal filicide is a social problem requiring a collective solution that ethical philosophy and philosophies of care can inform      **Key Writers on Art: The Twentieth Century** Chris Murray,2005-06-27 Key Writers on Art The Twentieth Century offers a unique and authoritative guide to modern responses to art Featuring 48 essays on the

**The Making and Mirroring of Masculine Subjectivities** Susan Mooney, 2022-08-09 This book shows how diverse critical modern world narratives in prose fiction and film emphasize masculine subjectivities through affects and ethics Highlighting diverse affects and mental states in subjective voices and modes modern narratives reveal men as feeling intersubjective beings and not as detached masters of master narratives Modern novels and films suggest that masculine subjectivities originate paradoxically from a combination of copying and negation surplus and lack sameness and alterity among fathers and sons siblings and others In this comparative study of more than 30 diverse world narratives Mooney deftly uses psychoanalytic thought narrative theories of first and third person narrators and Levinasian and feminist ethics of care creativity honor and proximity We gain a nuanced picture of diverse postpaternal postgentlemen emerging out of older character structures of the knight and gentleman

*Women and Children First* Sharon M. Meagher, Patrice DiQuinzio, 2012-02-01 This diverse collection explores the rhetoric of a wide range of public policies that propose to put women and children first including homeland security school violence gun control medical intervention of intersex infants and policies that aim to distinguish good from bad mothers Using various feminist philosophical analyses the contributors uncover a logic of paternalistic treatment of women and children that purports to protect them but almost always also disempowers them and sometimes harms them This logic is widespread in contemporary popular policy discourse and affects the way that people understand and respond to social and political issues Contributors rethink basic philosophical assumptions concerning subjectivity difference and dualistic logic in order to read the rhetoric of contemporary public policy discourse and develop new ways of talking and acting in the policy domain

**Women as Weapons of War** Kelly Oliver, 2007 Ever since Eve tempted Adam with her apple women have been regarded as a corrupting and destructive force The very idea that women can be used as interrogation tools as evidenced in the infamous Abu Ghraib torture photos plays on age old fears of women as sexually threatening weapons and therefore the literal explosion of women onto the war scene should come as no surprise From the female soldiers involved in Abu Ghraib to Palestinian women suicide bombers women and their bodies have become powerful weapons in the Afghanistan and Iraq wars In Women as Weapons of War Kelly Oliver reveals how the media and the administration frequently use metaphors of weaponry to describe women and female sexuality and forge a deliberate link between notions of vulnerability and images of violence Focusing specifically on the U S campaigns in Afghanistan and Iraq Oliver analyzes contemporary discourse surrounding women sex and gender and the use of women to justify America's decision to go to war For example the administration's call to liberate women of cover suggesting a woman's right to bare arms is a sign of freedom and progress Oliver also considers what forms of cultural meaning or lack of meaning could cause both the guiltlessness demonstrated by female soldiers at Abu Ghraib and the profound commitment to death made by suicide bombers She examines the pleasure

taken in violence and the passion for death exhibited by these women and what kind of contexts created them In conclusion Oliver diagnoses our cultural fascination with sex violence and death and its relationship with live news coverage and embedded reporting which naturalizes horrific events and stymies critical reflection This process she argues further compromises the borders between fantasy and reality fueling a kind of paranoid patriotism that results in extreme forms of violence
