Marriage in Ireland, 1660-1925 Maria Luddy, Mary O'Dowd, 2020-06-25 Explores how marriage in Ireland was perceived negotiated and controlled by church and state as well as by individuals across three centuries

After the Famine Edward J. Hedican, 2020-04-02 The Irish Famine saw hapless Irish citizens starve to death and die of disease while the population of a neighbouring country England lived in relative bounty and apparent disinterest After the Famine investigates the subsequent emigration of many surviving Irish to Eastern Ontario and tells the story of how despite hardships the Irish in Canada managed to survive and prosper after fleeing tragedy The author explains how the Irish adapted to their new land and how we might account for their triumph as farmers under somewhat less than favourable environmental conditions Examining their successful farming life in rural Ontario through their agricultural performance changing family structures and farming adaptations this book is a must read for anyone interested in the fate of the Irish after their greatest calamity

The Great Irish Famine Cormac Ó'Gráda, Economic History Society, 1995-09-28 The Irish Famine of 1846-50 was one of the great disasters of the nineteenth century whose notoriety spreads as far as the mass emigration which followed it Cormac Ó'Gráda's concise survey suggests that a proper understanding of the disaster requires an analysis of the Irish economy before the invasion of the potato killing fungus *Phytophthora infestans* highlighting Irish poverty and the importance of the potato but also finding signs of economic progress before the Famine Despite the massive decline in availability of food the huge death toll of one million from a population of 8.5 million was hardly inevitable there are grounds for supporting the view that a less doctrinaire attitude to famine relief would have saved many lives This book provides an up to date introduction by a leading expert to an event of major importance in the history of nineteenth century Ireland and Britain

Ireland's Great Famine and Popular Politics Enda Delaney, Breandán Mac Suibhne, 2015-11-19 Ireland's Great Famine of 1845-52 was among the most devastating food crises in modern history A country of some eight and a half million people lost one million to hunger and disease and another million to emigration According to land activist Michael Davitt the starving made little or no effort to assert the animal's right to existence passively accepting their fate But the poor did resist In word and deed they defied landlords merchants and agents of the state they rioted for food opposed rent and

rate collection challenged the decisions of those controlling relief works and scorned clergymen who attributed their suffering to the Almighty The essays collected here examine the full range of resistance in the Great Famine and illuminate how the crisis itself transformed popular politics Contributors include distinguished scholars of modern Ireland and emerging historians and critics This book is essential reading for students of modern Ireland and the global history of collective action

A New History of Ireland Theodore William Moody, Francis X. Martin, Francis John Byrne, 1976 A New History of Ireland in nine volumes provides a comprehensive new synthesis of modern scholarship on every aspect of Irish history and prehistory from the earliest geological and archaeological evidence through the middleages down to the present day Back cover

The Death Census of Black '47: Eyewitness Accounts of Ireland's Great Famine Liam Kennedy, Donald M. MacRaild, Lewis Darwen, Brian Gurrin, 2023-01-10 The Great Irish Famine claimed the lives of one million people mainly from the lower classes More than a million others fled the stricken land between 1845 and 1851 In recent decades its history has become the focus of considerable scholarly and popular attention but much remains to be retrieved and reconstructed particularly at the level of the rural poor This book fills that gap It is based on a large volume of reports on social conditions in the Irish localities emanating from within those localities that has never been used systematically by historians It bears the compelling title of the Death Census Most historians are simply unaware of its existence The outstanding feature of the Death Census is that it was authored by local clergymen who lived among the people they served and were intimately involved with their lives This book brings the Death Census together in composite form for the first time and provides a detailed examination of its contents The result is new understanding of the Great Famine as it was experienced on the ground

Land and Popular Politics in Ireland Donald E. Jordan, 1994 A study of the Irish county of Mayo from Elizabethan times to the late nineteenth century

Ireland and Irish America Kerby A. Miller, 2008 Between 1600 and 1929 perhaps seven million men and women left Ireland and crossed the Atlantic Ireland and Irish America is concerned with Catholics and Protestants rural and urban dwellers men and women on both sides of that vast ocean Drawing on over thirty years of research in sources as disparate as emigrants letters and demographic data it recovers the experiences and opinions of emigrants as varied as the Rev James McGregor who in 1718 led the first major settlement of Presbyterians from Ulster to the New World Mary Rush a desperate refugee from the Great Famine in County Sligo and Tom Brick an Irish speaking Kerryman on the American prairie in the early 1900s Above all Ireland and Irish America offers a trenchant analysis of mass migration s causes its consequences and its popular and political interpretations In the process it challenges the conventional two traditions Protestant versus Catholic paradigm of Irish and Irish diasporan history and it illuminates the hegemonic forces and relationships that governed the Irish and Irish American worlds created and linked by transatlantic capitalism

Melancholy Accidents Carolyn Conley, 1999-01-01 While most scholarly attention on violence in post famine Ireland has focused on political crimes this book examines non political violence which made up the vast majority of incidents in that

period Ireland's overall crime rate was below that of England and Wales but the proportion of violent offenses to non violent ones was significantly higher in Ireland In *Melancholy Accidents* Carolyn Conley decries the commonly held belief that recreational and domestic violence was generally the result of understandable emotions Conley demonstrates that the meaning of violence in post famine Ireland was complex personal and often deeply traditional and idiosyncratic This unique book will be valuable to a wide variety of scholars including those who study women's history European history and social problems

Farming to Halves E. Griffiths, M. Overton, 2009-07-07 Farming to halves is the English version of sharefarming a system of letting land familiar in Europe and the New World but thought to never have existed in England This book reveals its hidden history in England overturning traditional accounts of the relationship between landlords and tenants in the course of English Agrarian development

Canadian History: Beginnings to Confederation Martin Brook Taylor, Doug Owram, 1994-01-01 In these two volumes which replace the Reader's Guide to Canadian History experts provide a select and critical guide to historical writing about pre and post Confederation Canada with an emphasis on the most recent scholarship

Cover **Historical Dictionary of Ireland** Frank A. Biletz, 2013-11-14 All places undergo change but in few has this change been quite as sweeping as Ireland both the independent Republic of Ireland and dependent Northern Ireland so it is good to see where it is heading at present Obviously that has to be judged on the background of where it is coming from not only over the past decade or so but over centuries and indeed millennia This new edition of Historical Dictionary of Ireland is an excellent resource for discovering the history of Ireland This is done through a chronology an introductory essay and an extensive bibliography The cross referenced dictionary section has over 600 entries on significant persons places and events political parties and institutions including the Catholic church with period forays into literature music and the arts This book is an excellent resource for students researchers and anyone wanting to know more about Ireland

New Lease on Life Catharine Anne Wilson, 1994 A New Lease on Life is a study of two sets of individuals landlords and tenants whose aspirations opportunities and destinies spanned the Atlantic In this richly detailed history of migration and adaptation in the nineteenth century Catharine Wi

Small Differences Donald Harman Akenson, 1988-04-01 The assumption that Irish Protestants and Irish Catholics are fundamentally different is central to modern Irish history There are hundreds of books and thousands of articles that either presuppose the existence of Irish Catholic Protestant differences

Ourselves Alone Janet A. Nolan, 2021-10-21 In early April of 1888 sixteen year old Mary Ann Donovan stood alone on the quays of Queenstown in county Cork waiting to board a ship for Boston in far off America She was but one of almost 700 000 young usually unmarried women traveling alone who left their homes in Ireland during the late nineteenth and early twentieth centuries in a move unprecedented in the annals of European emigration Using a wide variety of sources many of which appear here for the first time including personal reminiscences interviews oral histories letter and autobiographies as well as data from Irish and American census and emigration reports Janet Nolan makes a sustained analysis of this migration of a generation of

young women that puts a new light on Irish social and economic history By the late nineteenth century changes in Irish life combined to make many young women unneeded in their households and communities rather than accept a marginal existence they elected to seek a better life in a new world often with the encouragement and help of a female relative who had already emigrated Mary Ann Donovan s journey was representative of thousands of journeys made by Irish women who could truly claim that they had seized control over their lives by themselves alone This book tells their story **Era of Emancipation** Brian Jenkins,1988-09-01 The conduct of the central government was often reactive rather than deliberate While its lack of a coherent policy was not remarkable given the period under consideration the government s failure to develop such a policy was disastrous in dealing with the fundamental issue of Catholic emancipation The final surrender of Peel and Wellington was bitter and the 1829 Catholic relief act contained insults to Irish Catholics The nature of the act coupled with continued Protestant ascendancy and landlordism and Catholic mass poverty and insecurity meant that Catholic emancipation was not a prelude to Ireland s assimilation into the United Kingdom but instead the beginning of the process of modern Irish nationalism The Vanishing Irish Timothy W. Guinnane,2015-12-08 In the years between the Great Famine of the 1840s and the First World War Ireland experienced a drastic drop in population the percentage of adults who never married soared from 10 percent to 25 percent while the overall population decreased by one third What accounted for this For many social analysts the history of post Famine Irish depopulation was a Malthusian morality tale where declining living standards led young people to postpone marriage out of concern for their ability to support a family The problem here argues Timothy Guinnane is that living standards in post Famine Ireland did not decline Rather other more subtle economic changes influenced the decision to delay marriage or not marry at all In this engaging inquiry into the vanishing Irish Guinnane explores the options that presented themselves to Ireland s younger generations taking into account household structure inheritance religion cultural influences on marriage and family life and especially emigration Guinnane focuses on rural Ireland where the population changes were most profound and explores the way the demographic patterns reflect the rural Irish economy Ireland s place as a small part in a much larger English speaking world and the influence of earlier Irish history and culture Particular effort is made to compare Irish demographic behavior to similar patterns elsewhere in Europe revealing an Ireland anchored in European tradition and yet a distinctive society in its own right Originally published in 1997 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Ireland since 1800* K.Theodore Hoppen,2013-12-02 The second edition of this bestselling survey of modern Irish history covers social religious as well as political history and offers a distinctive

combination of chronological and thematic approaches
