Social Work with Families Carlton E. Munson, 1980 Up to now family practice books have focused almost exclusively on therapy in their approach to the complex problems facing the contemporary family This up to date collection of 32 articles on social work with families goes beyond any available book in its examination of the dynamics of family behavior It takes a comprehensive view of the American family using developmental theory to organize and illuminate the various aspects of family life and its relation to society Social Work with Families touches every facet of family dynamics that the social worker is likely to encounter in practice It begins with an overview of the major components of developmental theory the societal institutional group interactional and individual psychological aspects The following sections apply this analytic framework Thus in Part II the family is analyzed as an institution in relation to other institutions governmental economic educational and religious The third section focuses on the family experiencing problems as a unit e g marital difficult ties parent child conflict problems of indebtedness and other aspects of coping The final part considers the family in which an individual has been identified as the primary focus of concern because of retardation various physical malfunctions alcoholism emotional difficulties or terminal illness Because the developmental approach takes both institutional and individual elements of human behavior into account it offers a uniquely insightful means for viewing ethnic minority issues Social Work with Families makes a major contribution to the establishment of a logical integrated scheme for analyzing the family providing student and practitioner alike with a realistic framework for diagnosing and treating the American family in strife

Addressing Issues of Mental Health in Schools through the Arts Nick Clough, Jane Tarr, 2021-09-30 This book outlines how teachers music arts therapists and teacher trainers have engaged in participatory action research to facilitate regular group music listening and improvisational music making with children and young people in their classrooms highlighting its impact in addressing issues of mental health and providing social and emotional access to learning The book includes examples of classroom practice evidencing how safe inclusive and interactive music making can stimulate experiences that alter children and young people s

moods enhance their social skills and enable their connectivity with each other and with learning. It describes participatory action research approaches that support inter professional learning between teachers and music arts therapists. Five narrative accounts of classroom episodes provide a basis for continuing reflection and critical theorising about young people's relational health and sensory engagement. The book explores outcomes from non verbal dialogic interaction and attachment focussed practices. It advocates new forms of rights respecting professionalism. Providing new frameworks with which to enhance the wellbeing of vulnerable children and young people in classroom settings the book will be important reading for researchers and students in the fields of inclusive education music arts therapy and teacher training. The contents are significant for practitioners looking to support children and young people's recovery and reconnections in the classroom.
