**Children's Rights and Traditional Values** Gillian Douglas, Leslie Sebba, 2016-12-05 This book of essays by legal scholars from the United Kingdom, Eire, Israel and Palestine explores the extent to which the recognition of the concept of children's rights is affected by adherence to religious, cultural and ethnic traditions. The aim is twofold: first to illuminate the interface between internationally agreed norms of conduct regarding children and national and cultural determination to preserve traditional approaches; and secondly to reflect upon the conflicts within societies between different cultural and religious groups in their attempts to determine whether liberal, secular or conservative religious norms predominate in attitudes to children's upbringing. This is the first collection of papers covering and comparing the UK and Israeli/Palestinian jurisdictions. The particular blends of social, religious and cultural diversity in both regions mingled with the political factors operating as well render these jurisdictions of special interest as case studies in the reception of western liberal norms and values. Moreover, Israel and Palestine, despite their manifestly different cultures as compared with Britain, have been influenced by the colonial legacy of the common law, rendering this particular east-west comparison of special interest.

Looking for Love in the Legal Discourse of Marriage Renata Grossi, 2014-09-01 This book examines the invisibility of romantic love in the legal discourse surrounding modern Australian marriage. It looks at how romantic love has become a core part of modernity and a dominant part of the Western marriage discourse and considers how the ideologies of romantic love are or are not replicated in the legal meaning of marriage. This examination raises two key issues. If love has become central to people's understanding of marriage, then it is important for the legitimacy of law that love is reflected in both the content and application of the law. More fundamentally, it requires us to reconsider how we understand law and to ask whether it is engaged with emotions or separate from them. Along the way, this book also considers the meaning of love itself in contemporary society and asks whether love is a radical force capable of breaking down conservative meanings embedded in institutions like marriage or whether it simply mirrors them. This book will be of interest to everyone working on love, marriage and sexuality in the disciplines of law, sociology and philosophy.
