#### Reviews

"*Family Matters*, provides a refreshing alternative to other family texts currently on the market. The critical and feminist approaches and the inclusion of well-grounded, new research, along with the in-depth coverage of a broad range of issues that many mainstream texts shy away from and Mitchell's engaging, approachable writing style, offer a Canadian Sociology of Families text that is unparalleled. Anyone interested in studying contemporary family issues in Canada should read this book."— Vicki L. Nygaard, Department of Sociology, Thompson Rivers University.

**Family Change and Family Policies in Great Britain, Canada, New Zealand, and the United States** Sheila B. Kamerman, Alfred J. Kahn, 1997 This is the first volume in a series reporting on the evolution of family policies in twenty Western welfare states and comparing current provisions. The developments are presented in the context of a report on family change for each of the countries and with a view of the economic, political, and institutional contexts in which they occurred. Each of the country reports in the present volume has been prepared as a team collaboration by internationally recognized experts. The co-editors have prepared an analytic introduction which discussed the methodology for the series as well as the hypotheses that emerge from these first case studies. The topics include family formation and current structural patterns, families and the division of labour, the income of families, earnings, taxation, transfer programmes, as well as the political and institutional context for family policy. An extensive bibliography is provided. About the series: A series of country studies and comparative analyses examining major changes in the family and the broad spectrum of family policies in Western industrial society in the second half of the twentieth century. Vol 2: The Consociational Democracies: Belgium, Switzerland, and the Netherlands. Vol 3: France and Southern Europe.
