Encyclopedia of Family Health Martha Craft-Rosenberg, Shelley-Rae Pehler, 2011-01-20. What is unique about the process in the discussion of healthcare and interventions to use when working with families? What assessment tools provide guidance for healthcare providers as they determine interventions for families in their care? What are the changing dimensions of contemporary family life and what impact do those dimensions have on health promotion for families? How is family healthcare changing in terms of practices, delivery systems, costs, and insurance coverage? Students are able to explore these questions and more in the Encyclopedia of Family Health. Approximately 350 signed articles written by experts from such varied fields as health and nursing, social and behavioral sciences, and policy provide authoritative, cross-disciplinary coverage. Entries examine theory, research, and policy as they relate to family practice in a manner that is accessible and jargon-free. From Adolescent Suicide and Alternative Therapies to Visitation during Hospitalization and Weight Problems and Genetics, this work provides coverage of a variety of issues within a family context. The Encyclopedia of Family Health provides a comprehensive summary of theory, research, practice, and policy on family health and wellness promotion for students and researchers.

Handbook of Family Resilience Dorothy S. Becvar, 2012-08-24. Resilience is a topic that is currently receiving increased attention. In general, resilience refers to the capacity of those who, even under the most stressful circumstances, are able to cope, to rebound, and to go on and thrive. Resilient families are able to regain their balance following crises that arise as a function of either nature or nurture and to continue to encourage and support their members as they deal with the necessary requirements for accommodation, adaptation, and ultimately healthy survival. Handbook of Family Resilience provides a broad body of knowledge regarding the traits and patterns found to characterize resilient individuals and well-functioning families, including those with diverse structures, various ethnic backgrounds, and a variety of non-traditional forms. This Handbook brings together a variety of perspectives aimed at understanding and helping to facilitate resilience in families relative to a full range of challenges.

Family Stress Pauline Boss, Carol Mulligan, 2003. Why do some families rebound from stress with seeming ease while others seem to struggle? This anthology, comprised of 23 major articles from the family stress literature, addresses questions such as the increasingly diverse and complex family situations of stress and crisis. This volume provides the family stress community with an accessible, coherent compilation of writings by past, present, and emerging family stress scholars. The reader includes classic and current writings from multi-disciplinary streams of work in family social science, social work, nursing, family sociology, family therapy, and family psychology.

Key Features: Culture and Context. With an eye toward more culturally inclusive theories, the selected readings address how culture and context both aid and impede family resilience. Clarity. An overall introduction and section

introductions by Pauline Boss provide context for each individual reading and coherence for the book as a whole Critical Thought A critical thinking focus outlined in chapter introductions encourages students researchers and practitioners to expand their own thinking about the concepts and models of family stress and coping to guide the development of future work in this field Crossover Coverage Designed to parallel coverage in Pauline Boss's best selling text Family Stress Management Second Edition this collection of readings should nonetheless serve as a valuable resource on its own and in tandem with other texts in this area Recommended for upper division undergraduate and master's students in departments of or courses related to Sociology Marriage Family Therapy and Family Studies Also suggested for professionals and practitioners working with families in social work nursing family therapy and family psychology settings
