Hunt, 1990 William J Burns 1880 1930 was the immediate succor of J Edgar Hoover at the Federal Bureau of Investigation He had taken the director's job when Warren Harding was elected and appointed Burns friend Harry Daugherty as Attorney General Both Daugherty and Burns misused their offices and were forced to resign Front-Page Girls Jean Marie Lutes, 2018-09-05 The first study of the role of the newspaperwoman in American literary culture at the turn of the twentieth century this book recaptures the imaginative exchange between real life reporters like Nellie Bly and Ida B Wells and fictional characters like Henrietta Stackpole the lady correspondent in Henry James's Portrait of a Lady It chronicles the exploits of a neglected group of American women writers and uncovers an alternative reporter novelist tradition that runs counter to the more familiar story of gritty realism generated in male dominated newsrooms Taking up actual newspaper accounts written by women fictional portrayals of female journalists and the work of reporters turned novelists such as Willa Cather and Djuna Barnes Jean Marie Lutes finds in women's journalism a rich and complex source for modern American fiction Female journalists cast as both standard bearers and scapegoats of an emergent mass culture created fictions of themselves that far outlasted the fleeting news value of the stories they covered Front Page Girls revives the spectacular stories of now forgotten newspaperwomen who were not afraid of becoming the news themselves the defiant few who wrote for the city desks of mainstream

newspapers and resisted the growing demand to fill women's columns with fashion news and household hints. It also examines for the first time how women's journalism shaped the path from news to novels for women writers. **Front Page Economics** Gerald D. Suttles, Mark D. Jacobs, 2011-02-15 In an age when pundits constantly decry overt political bias in the media we have naturally become skeptical of the news. But the bluntness of such critiques masks the highly sophisticated ways in which the media frame important stories. In *Front Page Economics* Gerald Suttles delves deep into the archives to examine coverage of two major economic crashes in 1929 and 1987 in order to systematically break down the way newspapers normalize crises. Poring over the articles generated by the crashes as well as the people in them the writers who wrote them and the cartoons that ran alongside them Suttles uncovers dramatic changes between the ways the first and second crashes were reported. In the intervening half century an entire new economic language had arisen and the practice of business journalism had been completely altered. Both of these transformations Suttles demonstrates allowed journalists to describe the 1987 crash in a vocabulary that was normal and familiar to readers rendering it routine. A subtle and probing look at how ideologies are packaged and transmitted to the casual newspaper reader *Front Page Economics* brims with important insights that shed light on our own economically tumultuous times. **Get On Google Front Page** Jason Matthews, 2011 Get on Google front page Read the latest collection of SEO tips for 2011 You'll learn to pick the very best keywords short tail and long tail add meta tags with meta description to page source optimize the text and images within website pages get your URL backlinks out to thousands of sites monitor visitors trends build online platform increase visibility and so much more. **Front Page Affair** Jennifer Morey, 2013-07-01 Romance and danger worth the hype Arizona Ivy won't stop until she gets her story. Passion could be a deadly distraction. **Front Page Physics** A.J. Meadows, M.M. British daily newspaper strip It considers such strips within their political commercial and societal contexts and fills in a crucial section of publishing history that has been largely overlooked by both comics and newspaper studies to date Beginning with an examination of the role of the image within British publishing in the final decades of the nineteenth century the book moves on to explore the arrival and development of the first daily strips It considers the links that bound these strips to surrounding cultural forms their relationship to their host newspapers and their position within the wider structures of the emerging popular press Subsequent chapters cover a range of topics including the impact of the world wars the anti comics campaigns of the 1940s and 50s and how changes to British publishing and wider society shaped the newspaper strips of the final decades of the twentieth century Culminating with a discussion of the way in which strips became established within the broadsheet press from the 1960s the book builds to provide a detailed overview of the twentieth century development of this most neglected cultural form **Jack Hammer, Famous Detective of the Cosmos, and the Case of the Big Why** Steve Volz, 2000-06-30

construction process of the fictional minds the degree their functioning is impacted by their experiences and the way their mental aspect controls their behavior and relationships is critical to the stories Relying on insights and methods from cognitive narratology this study follows two purposes It firstly analyzes the function of fictional minds and their operational modes in these narratives Secondly it explores the impact of the characters experiences on both their mental functioning and their behavior especially with view of their relationships Nayeypour reveals that the plot structure of these narratives highly depends on the lack of a sound balance between the two aspects of the represented minds intermental joint thought and intramental individual thought as well as on the dominance of the intramental one The tragic atmosphere in these narratives Nayeypour argues is the result of this imbalance
