Emerging From Poverty The Economics That Really Matters:

Emerging From Poverty Gerald M. Meier, 1984 *W. Arthur Lewis and the Birth of Development Economics* Robert L. Tignor, 2020-06-23

W Arthur Lewis was one of the foremost intellectuals economists and political activists of the twentieth century In this book the first intellectual biography of Lewis Robert Tignor traces Lewis s life from its beginnings on the small island of St Lucia to Lewis s arrival at Princeton University in the early 1960s A chronicle of Lewis s unflinching efforts to promote racial justice and decolonization it provides a history of development economics as seen through the life of one of its most important founders If there were a record for the number of firsts achieved by one man during his lifetime Lewis would be a contender He was the first black professor in a British university and also at Princeton University and the first person of African descent to win a Nobel Prize in a field other than literature or peace His writings which included his book *The Theory of Economic Growth* were among the first to describe the field of development economics Quickly gaining the attention of the leadership of colonized territories he helped develop blueprints for the changing relationship between the former colonies and their former rulers He made significant contributions to Ghana s quest for economic growth and the West Indies desire to create a first class institution of higher learning serving all of the Anglophone territories in the Caribbean This book based on Lewis s personal papers provides a new view of this renowned economist and his impact on economic growth in the twentieth century It will intrigue not only students of development economics but also anyone interested in colonialism and decolonization and justice for the poor in third world countries

[The Conversation of Economic Development: Historical Voices, Interpretations and Reality](#) Wilfred L. David, 2019-07-23

This book investigates the belief patterns that underly alternative perspectives of development thought and policy It discusses the differing theories and models of development in a discursive manner to highlight the importance of interaction between academic discourse and everyday life experiences Utilizing insights drawn from the history of ideas economic history philosophy and political economy the author shows how the field of development economics has evolved

Asian Development William E. James, Seiji Naya, Gerald M. Meier, 1989

While the world s attention has been focused on the spectacular economic success of Japan and Korea the less developed countries of Asia have often been neglected Asian Development closes the gap In nontechnical style and with minimal mathematics it presents an in depth perspective on the economic development of fourteen countries in East Southeast and South Asia Asian Development is mainly a story of success Though some problems remain Asian countries have shown remarkable resilience in responding to sharp changes in the international economy oil shocks world recession and inflation exchange rate and interest rate fluctuations and rapid technological change The authors conclude that their ability to adjust to changing external conditions is closely related to intelligent governmental policies Looking back they comment In the past growth of the United States and Japan pulled up the growth rates of the smaller economies in the region Looking forward they predict In the future increasingly it will be the growth of the Asian developing countries that acts as a catalyst to growth

in the more advanced economies

The Future of Economics M. Umer Chapra, 2016-07-04 This profound book is a powerful yet balanced critique of mainstream economics that makes a forceful plea for taking economics out of its secular and occident centred cocoon It presents an innovative and formidable case to re link economics with moral and egalitarian concerns so as to harness the discipline in the service of humanity M Umer Chapra is ranked amongst the Top 50 Global Leaders in Islamic economics ISLAMICA 500 2015 and has been awarded with two prestigious awards for his contributions to the field Islamic Development Bank Award for Islamic Economics 1989 and the King Faisal International Prize for Islamic Studies 1989

The Economics of Sustainability John C.V. Pezzey, Michael A. Toman, 2017-09-08 Before the late 1980s when the ideas of sustainability and sustainable development to the forefront of public debate conventional neo classical economic thinking about development and growth had rarely given any consideration to the needs of future generations or the sustainability of natural resource use Defining sustainability broadly as intergenerational fairness in the long term decision making of a whole society and using established economic concepts this selection of refereed journal articles brings a famously ill defined concept into sharp focus providing academics at all levels with a formidable research tool Spanning thirty years of the most important philosophical theoretical and empirical contributions from both critics and defenders of neo classical assumptions and methods of economic analysis this focused collection of papers constitutes a unique balanced resource on the full range of intellectual debates surrounding the economics of sustainability

Mubarak's Egypt Robert Springborg, 2019-09-10 The starting point for the investigation outlined in this text is the relationship between political authority and economic change in Egypt and will be the presidency and the highest level of the political elite The bulk of the field research on which this book is based was conducted in Egypt in 1986

The Political Economy of the Family Farm Sue Headlee, 1991-11-30 Agriculture played an important role in the transition to capitalism in the United States in the mid nineteenth century In her study Sue Headlee argues that the family farm system with its progressive nature and egalitarian class structure revolutionized this transition to capitalism The family farm is examined in light of its economic and political implications showing the relationship between the family farm and fledgling industrial capitalism a relationship that fostered the simultaneous industrial and agricultural revolutions and the creation of an agro industrial complex Headlee focuses on the adoption of the horse drawn mechanical reaper to harvest wheat by family farmers in the 1850s The neoclassical economic explanation with its emphasis on the farm as a profit maximizing firm is criticized for its lack of recognition of the role of the family farm s egalitarian class structure This look at the economic history of the United States has lessons for the Third World today agricultural development is vital to the transition to capitalism the agrarian class structures of Third World countries may be holding back that transition and a family farm land reform approach would lead to increases in productivity and in the material well being of society Headlee s analysis supports three important debates in political economy thus providing the historical and theoretical context for understanding the role of agriculture in the transition to

capitalism in general and in the particular case of the United States Her findings conclude that agrarian class structures can explain the differential patterns of development in pre industrial Europe Further evidence is presented that the internal class structure of agrarian society is the crucial causal factor in the transition to capitalism and that market developments alone are not sufficient Lastly and most controversially Headlee acknowledges the importance of the Civil War in propelling the triumph of American capitalism allowing the Republican Party an alliance of family farmers and industrial capitalists to take control of the state from the Democratic Party of the southern plantation owners This book will be of interest to scholars in political economy economic history agrarian economics and development economics

China's Education Aid to Africa Wei Ye,2023-05-31 China s rise as an aid provider in Africa has caught global attention with China s activity being viewed as the projection of soft power of a neo colonialist kind in an international relations context This book which focuses on China s education aid government scholarships training Confucius Institutes dispatched teachers etc reveals a much more complicated picture It outlines how the divide between the Chinese Ministry of Commerce and the Ministry of Education hinders China s soft power projection how much of China s aid is bound up with an education for economic growth outlook mirroring China s own recent experiences of economic development and how China s aid prioritized to reflect the commercial sector s interests is out of step with most international development aid which is dominated by education agendas and the campaigns of international organizations and traditional donors this leaves China easily exposed to the charge of neo colonialism This situation also reveals insufficient knowledge production of China and in South South Cooperation Substantial production of Southern knowledge should recognize the international development cooperation architecture as an open system by which both traditional donors and Southern countries transform

Evaluation, Learning and Caribbean Development Deryck R. Brown,1998 A significant development for the Consortium Graduate School these papers represent the first results of a programme of training in multidisciplinary policy oriented research provided to graduate professionals from Caribbean countries through the MSc Development Studies degree

Development in the Third World: From Policy Failure to Policy Reform Kempe Ronald Hope, Sr.,2016-09-16 This book is a study of Third World economic development and the factors which have made development so elusive It discusses the policy reform necessary to spur development as well as the relationship

between development theory and policy The author argues that the key to successful development policy is through reduced state intervention and that to the extent state intervention is necessary it should be through rather than against the market mechanism

Leading Issues in Economic Development Gerald M. Meier, 1984 Now in its seventh edition *Leading Issues in Economic Development* introduces a new co author James E Rauch Maintaining the unique structure that the book has established over the last 35 years Rauch has revised and updated this seventh edition to strengthen the analytical and quantitative dimensions and to clarify contemporary and future problems of development policy The co authors integrate the most insightful materials in this wide ranging field offering students the opportunity to experience a variety of perspectives while helping them to keep sight of overarching themes This edition adds two new chapters *Income Distribution and Development* and *the Environment* It also now consolidates several chapters and increases the number of selections from leading professional journals In this edition both the selections and the authors own overviews notes comments and exhibits make greater use of empirical analysis as well as modern economic theory In all *Leading Issues in Economic Development* provides fresh and serious attention to the interplay between development experience changing views of economists and policy

Food, Agriculture, and Rural Development Kostas G. Stamoulis, 2001-01-01 This publication is not intended to sketch a research agenda for FAO rather the paper contributes to the overall objective of identification of reserach priorities among the scientific community and those more directly involved

in development policy It contains in depth reviews on current and emerging issues in the economic analysis of food agriculture and rural development written by well know scholars in the field The selection of the issues for in depth review was the result of a survey conducted among FAO staff involved in policy assistance activities in the main developing regions Thus the choice reflects their and by extension the policy makers s perception as to the main research priorities in the economic analysis of agriculture rural development poverty and food security A systhesis of the survey results is included as a chapter

The Micro-politics of Microcredit Mohammad Jasim Uddin,2015-05-01 Microcredit has been seen in recent decades as having great potential for aiding development in poor developing countries with Bangladesh being one of the countries which has pioneered microcredit and implemented it most widely This book based on extensive original research explores how microcredit works in practice and assesses its effectiveness It discusses how microcredit usually channelled through women is often passed to the men of the family a practice disapproved of by some but regarded as acceptable by borrowers who have a communal approach to debt rather than viewing debt as something held by single individuals The book demonstrates how the rules around microcredit are often seem as irksome by the borrowers how lenders often charge high rates of interest and work primarily to preserve their institutions thereby going against the spirit of the microcredit movement and how borrowers often end up on a downward spiral deeper and deeper in debt Overall the book argues that although microcredit does much good it also has many drawbacks
