

THE EMERGING REPUBLICAN MAJORITY

by
KEVIN P. PHILLIPS

Emerging Republican Majority 1st Edition

Jerry F. Hough

Emerging Republican Majority 1st Edition:

Taking Matters into Our Own Hands Christopher Signil, 2016-06-30 Taking Matters into Our Own Hands is the decision of activists leaders politicians clergy and concerned citizens to use their influence to its highest potential in both conventional and nonconventional measures to shine a light on unjust beatings and homicides of unarmed African Americans Violence permeates our society but when that violence comes at the hands of those charged with protecting us and upholding the law public trust is shattered and the rights to which every citizen is entitled are called into question We must let the perpetrators of these unjust beatings and homicides know that a foundation built on lies and cover ups cannot stand This is not the idea of engaging in unlawful divisive forms of protest or rhetoric but rather coming to the conclusion that you are the agent of change that you want to see that all individuals are qualified to use their voices their cell phones their social media their music their resources their legal minds their political connections their creative ability their God given talents whatever they may be to let the world know that this unjust killing must come to an end **Party of the People** Patrick Ruffini, 2023-11-07 An eye opening must read Ben Shapiro founder of The Daily Wire about the future of the Republican party as they unite working class voters in a multi racial cross generational populist coalition Donald Trump s victory in the 2016 presidential election shocked the world Yet his defeat in 2020 may have been even more surprising he received 12 million more votes in 2020 than in 2016 and his unexpectedly diverse coalition included millions of nonwhite voters a rarity for the modern Republican party In 2020 Trump defied expectations and few journalists strategists or politicians could explain why Trump had nearly won reelection Patrick Ruffini a Republican pollster and one of the country s leading experts on political targeting technology and demography has the answers and the explanation may surprise you For all his apparent divisiveness Trump assembled the most diverse Republican presidential coalition in history and rode political trends that will prove significant for decades to come The shift is profound seven in ten American voters belong to groups that have shifted right in the last two presidential elections while under three in ten whites with a college degree belong to votes groups that are trending left Together this super majority of right trending voters forms a colorblind populist coalition largely united by its working class roots moderate to conservative views on policy strong religious beliefs and indifference to or outright rejection of the identity politics practice by the left Not all these voters are Republican and in certain corners of the coalition only a small minority are But recent elections are pointing us towards a future where party allegiances have been utterly upended The Party of the People demonstrates this data Ruffini was as wrong as every pollster in 2016 and spent the intervening years figuring out why and developing better methods of analyzing voters in the digital age Using robust data he shifts you away from the complacent widespread narrative that the Republican party is a party of white rural voters It is but more importantly for its longevity it s a party of non college educated voters And as fewer voters attend college the Republican party shows no signs of stagnation With rich data and clear analysis Party of the People is a deeply researched

book Amy Walter editor in chief of The Cook Political Report that explains the present and future of the Republican party and American elections **Donald Trump and the Prospect for American Democracy** Arthur Paulson, 2020-07-06 This book goes beyond examining Donald Trump as a unique and controversial President to place his election in a historical and systematic perspective It offers an analysis of the 2016 presidential nominations and election the economic and demographic foundations of the election of Mr Trump the realignment of the party system ideological polarization in American politics the realities of a postindustrial society locked in a global economy and the outlook for American democracy in the twenty first century The End of Realignment? Byron E. Shafer, 1991 This collection of essays questions whether the theory of electoral realignment referring originally to a major shift in party preference within the general public can explain electoral developments in the USA both of the post 1968 period and of earlier political eras **Realigners** Timothy Shenk, 2022-10-18 One of The Wall Street Journal s best political books of 2022 An eye opening new history of American political conflict from Alexander Hamilton to Alexandria Ocasio Cortez These days it seems that nobody is satisfied with American democracy Critics across the ideological spectrum warn that the country is heading toward catastrophe but also complain that nothing seems to change At the same time many have begun to wonder if the gulf between elites and ordinary people has turned democracy itself into a myth The urges to defend the country s foundations and to dismantle them coexist often within the same people How did we get here Why does it feel like the country is both grinding to a halt and falling to pieces In *Realigners* the historian Timothy Shenk offers an eye opening new biography of the American political tradition In a history that runs from the drafting of the Constitution to the storming of the Capitol Shenk offers sharp pen portraits of signal characters from James Madison and Charles Sumner to Phyllis Schlafly and Barack Obama The result is an entertaining and provocative reassessment of the people who built the electoral coalitions that defined American democracy and a guide for a time when figures ranging from Alexandria Ocasio Cortez to MAGA minded nationalists seek to turn radical dreams into political realities In an era when it seems democracy is caught in perpetual crisis *Realigners* looks at earlier moments in which popular majorities transformed American life We ve had those moments before And if there s an escape from the doom loop that American politics has become it s because we might have one again Politics in America , 1979 *The Republican Right since 1945* David W. Reinhard, 2014-07-15 In 1981 a Right Wing Republican at long last resided in the White House presiding over what may prove to be the most fundamental restructuring of American political life since the days of Franklin D Roosevelt Fortunately *The Republican Right since 1945* now provides us with the necessary historical understanding of conservative Republicans David Reinhard s dispassionate yet lively book recounts the Republican Right s political struggles from the death of FDR in 1945 to the inauguration of Ronald Reagan Younger readers will discover that Right Wing Republicans are older than Ronald Reagan or Barry Goldwater and that some conservative Republicans once feared the overextension of American power abroad and the rise of the garrison state at home Those old enough to remember

when the Republican Right was called the Old Guard will rediscover the events and personalities of those earlier years thanks to Reinhard's use of more than thirty five manuscript collections and the most recent historical writing Not content to let this history end where traditional manuscript sources run thin Reinhard has brought the story of the Republican Right Wing forward to President Ronald Reagan's inauguration placing Right Wing Republican reaction to the Johnson and the Nixon Ford years within the context of the earlier period and chronicling the electoral triumph of Ronald Reagan and the Republican Right Students of the past and observers of the present will appreciate Reinhard's treatment of the always troubled Nixon Republican Right association challenger Ronald Reagan's battle against President Gerald Ford in 1976 the decline of GOP moderation and the rise of the New Right Moral Majority forces and their relationship to the now ascendant Republican Right Reinhard illuminates the conservative Republican past and thereby makes the current political scene more understandable Thoroughly researched and brilliantly written *The Republican Right since 1945* will fascinate scholars and general readers alike *Red Fighting Blue* David A. Hopkins, 2017-09-25 Democrats and Republicans have become geographically divided along regional lines which has furthered the ideological polarization of American politics

Realignment and Party Revival Arthur Paulson, 2000-06-30 Are American political parties really in decay Have American voters really given up on the major parties Taking issue with widely accepted theories of dealignment and party decay Paulson argues that the most profound realignment in American history occurred in the 1960s and he presents an alternative theory of realignment and party revival In the 1964-1972 period factional struggles within the major American political parties were resolved with conservative Republicans and liberal Democrats emerging as the majority factions within their parties The result was a critical realignment in Presidential elections in which the decisive realignment involved the movement of white voters in the south toward the Republican coalition The impression of dealignment came from the fact that electoral change in Congressional elections moved at a much slower rate The south continued to vote Democratic for congress usually for incumbent conservative Democrats The result was an electoral environment which produced divided government Secular realignment in congressional elections produced the Republican majorities of 1994 Now the conservative Democrats who were the swing voters since the 1960s were voting Republican The result is that the coalitions for yet another realignment are in place at the turn of the twenty first century After three decades in which the swing voters were relatively conservative the new swing voter is a genuine centrist an independent who is ideologically moderate The coming realignment Paulson asserts will consummate the birth of a new ideologically polarized party system with a greater potential for party government which would be a fundamental change for American democracy A major resource for scholars students and other researchers interested in American parties and elections **The State of Disunion** Nicole Mellow, 2008-05-05 This important book spans American history economics and culture to explain why the nation splits into blue versus red states James A Morone Brown University Why are some eras of American politics characterized by broad

bipartisan harmony and others by rancorous partisanship In *The State of Disunion* Nicole Mellow argues that these oscillations are a product of how politicians respond to the demands of regional constituents According to Mellow regions remain a vital consideration in electoral battles because they fuse material and ideological expectations of voters This wide ranging analysis of congressional battles over trade welfare and abortion since the 1960s demonstrates how regional economic racial and cultural divisions have configured national party building and today's legislative conflicts and how these divisions will continue to shape American politics for years to come *The State of Disunion* broadens our understanding of American politics by displaying the conceptual insights of political geography combined with the rich tapestry of political history Mellow offers a new way to comprehend the meaning and significance of American partisanship in our time *Our Separate Ways* Dana H Allin, Steven N Simon, 2016-06-07 Anger and distrust have strained the U S Israeli alliance as the Obama administration and Netanyahu government have clashed over Israeli settlements convulsions in the Arab world and negotiating with Iran *Our Separate Ways* is an urgent examination of why the alliance has deteriorated and the dangers of its neglect Powerful demographic cultural and strategic currents in Israel and the United States are driving the two countries apart In America the once solid pro Israel consensus is being corroded by partisan rancor which also pits conservative Jews against the more liberal Jewish majority In Israel surveys of young Jewish citizens reveal a disdain for democracy and in some cases a readiness to curb the civil liberties of non Jews Prospects for preserving a liberal Zionism against the pressures for Greater Israel are dimming as hopes for a two state solution fade The acrimony between President Barack Obama and Prime Minister Benjamin Netanyahu has been a symptom not cause of the deeper crisis If the alliance becomes just a transactional arrangement then the moral emotional and largely intangible bonds that have long tied the two countries together will continue to weaken Going separate ways at a time of Middle East chaos and despite profound historical commitment would be an immense tragedy The partnership must restore the shared vision that created it *Changing Party Coalitions* Jerry F. Hough, 2006 Exploring the causes of the unnatural red state blue state dichotomy in America Hough a professor of comparative politics ponders the likely effects of the next economic crisis and what it will take to create new party coalitions

Governing America Tim Hames, Nicol C. Rae, 1996 The first section gives an overview of American political history and focuses on the incidents which have shaped the nation's political culture The second examines the major political institutions the Presidency Congress the Supreme Court and state and local government Other vital elements in the governmental system the federal bureaucracy mass media political parties and interest groups are then fully discussed **Richard Nixon and the Quest for a New Majority** Robert Mason, 2005-10-12 In recent years historians have paid substantial attention to the origins of modern political conservatism and the record of the Nixon administration in building a Republican majority in the late twentieth century In *Richard Nixon and the Quest for a New Majority* Robert Mason analyzes Nixon's response to the developing conservative climate and challenges revisionist claims about the activist nature of the Nixon administration Nixon

was an activist in intent Mason contends but not in deed Nixon's silent majority speech of 1969 not only undermined the growth of the antiwar movement Mason shows but also identified a constituency for Nixon to cultivate in order to secure reelection However the implementation of his new majority project was hindered by the resort to dirty tricks against political opponents and the ineffectual pursuit of a policy agenda Although some Nixon initiatives were enacted says Mason they were not substantial enough to rival the Democrats bread and butter issues While Nixon built Republican strength at the presidential level Mason argues that he did not succeed in mobilizing popular support for broad based political conservatism

Encyclopedia of African-American Politics, Third Edition Robert Smith, 2021-05-01 This A to Z volume examines the role of African Americans in the political process from the early days of the American Revolution to the present Focusing on basic political ideas court cases laws concepts ideologies institutions and political processes this book covers all facets of African Americans in American government Written by a nationally renowned scholar in the field the Encyclopedia of African American Politics Third Edition will enlighten readers to the struggles and triumphs of African Americans in the American political system Entries include Abolitionist Movement African immigrants Barack Obama Black Lives Matter Black Panther Party Civil Rights Act of 1964 Emancipation Proclamation Forty Acres and a Mule Freedmen's Bureau Hurricane Katrina Institutional racism Integrationism Juneteenth Lynching Malcolm X Million Man March Raphael Warnock The New Majority Stanley B. Greenberg, Theda Skocpol, 1997-01-01 The contributors to this volume argue that America is ready for progressive politics and that embarking on a popular progressive course the Democratic Party can become the moral voice of all American families striving for a better life **Inventing the Silent Majority in Western Europe and the United States** Anna von der Goltz, Britta Waldschmidt-Nelson, 2019-03-28 For historians of social movements this text explores 1960s and 1970s conservative political activism in the US and Western Europe The Lost Majority Sean

Trende, 2025-06-25 In today's fraught political climate one thing is indisputable the dream of the emerging Democratic majority is dead How did the Democrats who seemed unstoppable only two short years ago lose their momentum so quickly and what does it mean for the future of our two party system Here RealClearPolitics senior analyst Sean Trende explores the underlying weaknesses of the Democratic promise of recent years and shows how unlikely a new era of liberal values always was as demonstrated by the current backlash against unions and other Democratic pillars Persuasively arguing that both Republicans and Democrats are failing to connect with the real values of the American people and that long held theories of cyclical political realignments are baseless Trende shows how elusive a true and lasting majority is in today's climate how Democrats can make up for the ground they've lost and how Republicans can regain power and credibility Trende's surprising insights include The South didn't shift toward the Republicans because of racism but because of economics Barack Obama's 2008 win wasn't grounded in a new transformative coalition but in a narrower version of Bill Clinton's coalition The Latino vote is not a given for the Democrats as they move up the economic ladder they will start voting Republican Even

before the recent fights about the public sector Democratic strongholds like unions were no longer relevant political entities With important critiques of the possible Republican presidential nominations in 2012 this is a timely inspiring look at the next era of American politics

The Seventies Bruce J. Schulman, 2001-08-07 Most of us think of the 1970s as an in between decade the uninspiring years that happened to fall between the excitement of the 1960s and the Reagan Revolution A kitschy period summed up as the Me Decade it was the time of Watergate and the end of Vietnam of malaise and gas lines but of nothing revolutionary nothing with long lasting significance In the first full history of the period Bruce Schulman a rising young cultural and political historian sweeps away misconception after misconception about the 1970s In a fast paced wide ranging and brilliant reexamination of the decade s politics culture and social and religious upheaval he argues that the Seventies were one of the most important of the postwar twentieth century decades The Seventies witnessed a profound shift in the balance of power in American politics economics and culture all driven by the vast growth of the Sunbelt Country music a southern silent majority a boom in enthusiastic religion and southern California New Age movements were just a few of the products of the new demographics Others were even more profound among them public life as we knew it died a swift death The Seventies offers a masterly reconstruction of high and low culture of public events and private lives of Jonathan Livingston Seagull Evel Knievel est Nixon Carter and Reagan From The Godfather and Network to the Ramones and Jimmy Buffett from Billie Jean King and Bobby Riggs to Phyllis Schlafly and NOW from Proposition 13 to the Energy Crisis here are all the names faces and movements that once filled our airwaves and now live again The Seventies is powerfully argued compulsively readable and deeply provocative

The Real World of Texas Politics Robert Locander, Richard Shaw, Kevin Bailey, 2022-09-20 You may think you know Texas but which one Texas is a land shrouded in myths and so is its politics The Real World of Texas Politics pulls back the veil on those myths and reveals the secrets the elites don t want you to know It lays bare the dual worlds of the Lone Star State the one for the elites and the one for the masses Inspired by the works of political scientist James Lamare the authors argue that the privileged few have used their superior resources to dominate all aspects of the Texas political system from voting and elections to government institutions and policymaking This dominance by the elites has resulted in a subsistence life and limited future for millions of people living in twenty first century Texas The authors are insiders Locander a political scientist Shaw a union leader and Bailey a state representative with a combined ten decade involvement in Texas politics and government But they re also outsiders holding views that don t align with the people in power Rather than placate they seek to scrutinize with a skeptical eye the most pressing issues facing one of America s most important and most populous states They lay bare the crass influence of money and power and provide a roadmap for what Texas can do to get state government working for average Texans The Real World of Texas Politics challenges the economic and political status quo It peels back the myths to expose how the state s leaders both Democrats and Republicans have forsaken the masses to cater to the rich and powerful Reversing this trend takes knowledge and this

book offers a hefty dose by taking a hard look at how politics and power really work in the Lone Star State

Decoding **Emerging Republican Majority 1st Edition**: Revealing the Captivating Potential of Verbal Expression
