Emerging Stock Markets Factbook 1998:

The Chinese Economy in the 1990s J. Ma, 1999-09-20 This book provides a comprehensive overview and some economic analysis of China's economic reform experiences particularly those since the late 1980s It covers many institutional details of key aspects of the Chinese economy including fiscal and monetary management financial sector development state enterprise reform international trade foreign investment decentralization and regional development It is argued that while China has achieved a spectacular growth record over the past twenty years and its reform efforts have successfully laid the foundation of a market based economic management system the country continues to face major challenges in sustaining its growth performance

The Egyptian Stock Market Mr. Mauro Mecagni, Maged Sawky Sourial, 1999-04-01 The paper examines the behavior of stock returns in the Egyptian stock exchange the efficiency of the market in pricing securities and the relationship between returns and conditional volatility GARCH p q M models estimated for the four best known daily indices indicate significant departures from the efficient market hypothesis the tendency for returns to exhibit volatility clustering and a significant positive link between risk and returns which was significantly affected during the market downturn that followed the introduction of circuit breakers in the form of symmetric price limits on individual shares

Ethics and Governance Timothy L. Fort, 2001-07-19 This book argues that ethical business behavior can be enhanced by taking fuller account of human nature particularly with respect to the need for creating relatively small communities within the corporation Timothy Fort discusses this premise in relation to the three predominant theories of business ethics stakeholder virtue and contract Drawing heavily from philosophy he analyzes traditional business ethics and legal theory Overall his work provides a good example of how to integrate normative and empirical studies in business ethics a task that often receives substantial discussion in academic journals

Debt Management and Government Securities Markets in the 21st Century OECD, 2002-09-05 This book reviews recent trends in the structure of OECD government securities markets and public debt management operations and highlights the generic structural policy issues in emerging debt markets

East Asia's Financial Systems Seiichi Masuyama, Donna Vandenbrink, Siow Yue Chia, 1999 Financial systems in the East Asian region are commanding worldwide attention Japan's financial sector with an ailing banking system in the aftermath of a bubble economy is undergoing a Big Bang deregulation liberalization and securitization At the same time the rehabilitation of Southeast Asian and Korean economies in the wake of the Asian financial crisis awaits restoration of their banking sectors The region's bank dominated and development finance oriented financial systems are coming into friction with global capital markets that lack adequate architecture In this volume researchers from ten East Asian think tanks analyse the financial systems in their respective economies They survey the financial sector deregulation and liberalization that took place in the midst of economic booms and they evaluate the role of the financial systems in the region's current economic misfortunes Together the pieces in this volume lay the groundwork for understanding how financial systems in East Asia have evolved as

the economies have grown more complex and capital markets have globalized and how these systems must adapt to move beyond today's crisis to serve the region's economies in the future

Global Challenges - Local Responses Daniel Fleming, 2006 *Asia-Pacific Financial Deregulation* Gordon De Brouwer, Wisarn Pupphavesa, 2002-03-11 Recent events in East Asia have highlighted the risks of volatility and contagion in a financially integrated world. Countries in the region had been at the forefront of the movement towards increased integration but the crisis that struck Thailand in July 1997 and the rapidity with which it spread to other East Asian nations suggested that all was not well. Weaknesses in domestic financial intermediation, poor corporate governance and deficient government responses to large capital inflows all played a role in the build up of vulnerability. *Asia Pacific Financial Deregulation* provides an insight into financial liberalisation and structural reform in the region generally and as illustrated by a number of countries.

Global Instability John Grieve-Smith, Jonathan Michie, 1999-04-22 In *Global Instability* internationally renowned contributors examine the key problems besetting the world economy in the era of globalisation and outline possible solutions. They reject the current orthodoxy in mainstream economics challenging the fatalistic belief that the new globalised economy resists any change of course. The book reviews international economic institutions, the linked crises which recently hit Asian economies, the implications of globalisation, the role of multinational investment, the IMF and the World Bank. *Global Instability* is a comprehensive and much needed analysis of the contemporary economy written by leading authorities in the field and will be vital reading for anyone in management, business or economics.

The Limits of Convergence Mauro F. Guillén, 2010-07-01 This book challenges the widely accepted notion that globalization encourages economic convergence and by extension cultural homogenization across national borders A systematic comparison of organizational change in Argentina South Korea and Spain since 1950 finds that global competition forces countries to exploit their distinctive strengths resulting in unique development trajectories Analyzing the social political and economic conditions underpinning the rise of various organizational forms Guillén shows that business groups small enterprises and foreign multinationals play different economic roles depending on a country's path to development Business groups thrive when there is foreign trade and investment protectionism and are best suited to undertake large scale capital intensive activities such as automobile assembly and construction Their growth and diversification come at the expense of smaller firms and foreign multinationals In contrast small and medium enterprises are best fitted to compete in knowledge intensive activities such as component manufacturing and branded consumer goods They prosper in the absence of restrictions on export oriented multinationals The book ends on an optimistic note by presenting evidence that it is possible though not easy for countries to break through the glass ceiling separating poor from rich It concludes that globalization encourages economic diversity and that democracy is the form of government best suited to deal

with globalization's contingencies Against those who contend that the transition to markets must come before the transition to ballots Guill n argues that democratization can and should precede economic modernization This is applied economic sociology at its best broad topical full of interesting political implications and critical of the conventional wisdom

Geopolitics at the End of the Twentieth Century Nurit Kliot, David Newman, 2013-11-05 An excellent examination of how the collapse of the Soviet Union and the impact of globalization have brought about changes not only to the territorial configuration sovereignty of states and their boundaries but also to traditional notions of state boundaries sovereignty and social order These essays focus on the key regional and geopolitical characteristics of this global reordering with an emphasis on Eastern Europe and South Asia They discuss the territorial reordering which is taking place at the level of the state as boundaries are redemarcated in line with ethno territorial demands as borders are transversed by the movement of peoples information and finance and as the lines of territorial demarcation are perceived not only in terms of their fixed characteristics but as part of a process through which regional and ethnic identities continue to be formed and reformed Each section ends with articles which focus on literature on geopolitics and boundaries This is an invaluable addition to our understanding of contemporary world affairs

Social Security Reform Jason Z. Yin, Shuanglin Lin, David F. Gates, 2000 This is the first ever book to provide a comprehensive analysis of Chinese social security reforms with a variety of views It addresses issues such as what kind of social security system China should establish how this system should be managed and financed and how the transition from the old system to the new system can best be accomplished The authors of the papers in this book include internationally renowned Chinese and Western social security experts such as Martin Feldstein and Henry Aaron Chinese policy makers and scholars who have worked on Chinese social security for years

Malaysia Mr. Yougesh Khatri, Mr. Il Houn Lee, Mrs. O. Liu, Ms. Kanitta Meesook, Ms. Natalia T. Tamirisa, 2001-08-27 This paper discusses how Malaysia can better protect itself from future shocks and avoid another crisis while it seeks to regain its position as one of the fastest growing economies in the world To these ends its strategy should include continued structural reforms to achieve healthy balance sheets of the banking and corporate sectors further deregulation to promote competition and efficiency and consistent macroeconomic policies to maintain financial stability and sustainable fiscal and external positions Malaysia's economic structure and performance were relatively strong prior to the crisis Malaysia's initial low level of short term external debt enabled it to maintain foreign reserves at a reasonably high level and this contributed to relatively robust external and domestic confidence early on in the crisis As a consequence of financial vigilance exercised through prudential regulation of capital movements the exposure of the financial and corporate systems was contained Stock market capitalization in Malaysia grew to an extremely high level prior to the crisis reflecting both the fast expansion of the capital market and liberal capital account regime

Financial Liberalization and the Economic Crisis in Asia Chung H. Lee, 2003-08-29 What brought about a financial crisis in the miracle economies of Asia What went wrong with financial

reform in Asia What can the developing countries of the world learn from the reform experiences in Asia Financial Liberalization and the Economic Crisis in Asia analyses how financial liberalization was undertaken in eight Asian countries and how it might be linked to the subsequent crises The country studies focus on China India Indonesia Japan Malaysia the Philippines South Korea and Thailand
