defense policy and touches upon the main controversies and challenges that still lie ahead      **Patterns of Disintegration.**

**The EU and the Emerging European Order** Federico Nicolaci, 2012-08-15 Paraphrasing Marx one could say that a spectre is hunting Europe the spectre of disintegration The crisis of the Monetary Union the pinnacle of European integration seems to call into question the core assumption of more than half a century of Europe's integration history the functionalist idea that economic integration would be self sustaining and would ultimately lead to the emergence of a political community This book presents evidence suggesting that the current crisis is not an accidental snag but the collapse of the ideological architecture of Europe showing that the disintegrating dynamics threatening the EU are structurally determined      The Cambridge History of the European Union: Volume 2, European Integration Inside-Out Mathieu Segers, Steven Van Hecke, 2023-11-09 Volume II examines the history of the European Union from an inside out perspective focusing on the internal developments that shaped the European integration process Split into three parts Part I covers the principles that have defined European integration exploring the treaties and their changes through time with Brexit being a core milestone Part II considers the different instruments within the architecture of European integration with special focus on the development of policies the euro and enlargement Part III concentrates on the various narratives surrounding European integration in particular the concepts goals and ideas that both spoke and failed to speak to the hearts and minds of Europeans This includes the *longue durée* concept peace European culture the absence of religion prosperity and a lack of solidarity and democracy      The New Politics of Energy Security in the European Union and Beyond Andrea Prontera, 2017-05-18 Combining theoretical reflections and empirical insights from paradigmatic case studies in the area of external energy governance pipeline politics Liquefied Natural Gas development and offshore petroleum policy and politics this ground breaking study demonstrates that a distinctive and new politics of energy security is definitively emerging in the European Union Innovative not only in regard to the case studies presented which include the Caspian region the Baltic Mediterranean countries Central Asia and EU Russia relations but also in regard to the analytical framework adopted an International Political Economy approach informed by an historical institutional perspective the book challenges the common view of the depoliticisation of energy security supported by the mainstream market approach and the power politics and zero sum game view supported by the geopolitical perspective This book places the study of EU energy politics in the broader evolving context of global energy markets and explores the complex interactions between EU and national political dynamics and between energy security and environmental concerns at the local level      **Subregional Cooperation in the New Europe** Andrew Cottey, 1999-04-12 Based on a major international research project undertaken by The Institute for East West Studies this book provides the first comprehensive analysis of an important but little explored feature of post Cold War Europe the emergence of subregional cooperation in areas such as the Barents the Baltic Sea Central Europe and the Black Sea It analyses the role of subregional cooperation in the new Europe provides detailed case studies of the new subregional

groups and examines their relations with NATO and the European Union

**The A to Z of the European Union** Joaquín Roy, Aimee Kanner, 2009-09-17 Over half a century old and continuing to grow in strength and authority the European Union consists of 25 member states with more on the waiting list and a population of 450 million people Its influence in foreign and domestic affairs and human rights and law reaches far beyond its earlier fields of trade and politics From the initial ideas about integration leading to the Treaty of Paris and the creation of the European Coal and Steel Community to the current reflection on the Treaty establishing a Constitution for Europe The A to Z of the European Union encompasses the most basic elements of the EU and the components that have emerged as a result of them Through the use of maps photographs a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on topics such as leaders personalities institutions enlargements member states internal policies external relations basic theories treaties and law this dictionary tells a clear and complete story about the European Union that will assist those with greater interest in understanding it

**New Trends in Intra-European Union Mobilities** Anastasia Bermudez, Laura Oso, 2021-09-05

Mobilities within the European Union EU have changed significantly since the classical intra regional migrations of the 1950s 1970s After a period of reduced less visible flows in the 21st century mobilities increased again first linked to EU expansion towards the East and from 2008 with renewed South North flows following the impact of the Great Recession on Southern European countries It is in this context that the current volume explores how these recent migrations reflect new and more complex patterns of mobility increasingly uncertain and unstable involving both natives and naturalised migrants It also seeks to unpack the multiple connections between these new migration systems and other systems affecting social protection gender and citizenship and how these intersect with other factors such as class age race and ethnicity The different chapters of the book examine this covering a wide variety of cases including intra EU flows from Portugal and Spain recent Spanish and Latin American migrants in London Paris and Brussels and Romanian migration to the UK and France thus adding to its richness This book will be of interest to academics researchers and advanced students of Sociology Anthropology Geography Gender Studies Public Policy and Politics It was originally published as a special issue of Ethnic and Racial Studies

*Debating Political Identity and Legitimacy in the European Union* Sonia Lucarelli, Furio Cerutti, Vivien Ann Schmidt, 2011

The European Union and Conflict Prevention Emma J. Stewart, 2006 The book examines the evolution of EU conflict prevention as an internal EU process and as an area of external cooperation with the UN OSCE and NATO Conflict prevention has emerged as a prominent EU policy in the post Cold War era Yet how suited is the organisation to practice conflict prevention and what does the record of cooperation with other key European organisations tell us about the EU s external priorities The book critically analyses the EU s policy and outcomes to date concluding that conflict prevention is underdeveloped by the EU and is in danger of being marginalised in favour of shorter term crisis management Moreover EU external cooperation reinforces this the priority is cooperation in crisis management with the UN and NATO rather than

longer term cooperation with the OSCE
