*Adivasi Rights and Exclusion in India* V. Srinivasa Rao, 2018-09-03 This volume examines the processes and impacts of exclusion on the Adivasis tribal or indigenous people in India and what repercussions these have for their constitutional rights The chapters explore a wide range of issues connected to the idea of exclusion land and forest resources habitats and livelihoods health and disease management gender relations language and schooling water resources poverty governance markets and technology and development challenges through case studies from different parts of the country The book argues that any laws intended to safeguard the fundamental rights of Adivasis must acknowledge the fact that their diverse and complex identities are not homogenous and that uniform laws have failed to address their systemic marginalisation since the colonial era This work appeals for a serious and meaningful political intervention towards tribal development The volume will be useful to scholars and researchers of tribal and Third World studies sociology and social anthropology exclusion studies and development studies

**The Silenced Drums** K. G. Karmakar, 2002 Review of tribal economic development with special reference to Orissa and India in general

Hindu Fundamentalism and the Spirit of Capitalism in India Bhabani Shankar Nayak, 2017-10-11 The book makes serious theoretical contribution to the field of political economy in indigenous development public policy sociology and development studies It further establishes the relationship between Hinduisation of indigenous communities and rise of Hindu fundamentalism with a mining led industrial capital while evaluating the impact on the new economic reforms on tribals and their social cultural and religious identities in Orissa

**Images of the Post-Soviet Kazakhstan** Suchandana Chatterjee, 2019-10-28 The study revolves round the relationship between space and transitional identity in Kazakhstan in the post Soviet period Emergent discourses about cosmopolitanism suggest multiple interactions in a transitional space The cosmopolitanism of our times implies the dynamic responses of communities in transition The diversities and heterogeneities instead of the specifics the encounters the networks the challenges the ways of living the multitude of fates need to be considered The picture is far bigger as there are infinite ways of being and belonging The images are of the many and as suggested here relate to the Kazakh conscience The Kazakh conscience represents a repertoire of diverse opinions regarding Eurasianism intellectuals reformist agenda zhuz legacy people s histories What stands out is the wider milieu of a cosmopolitan Almaty which is the home of a cultural elite or a citified Astana that has been showcased as the appropriate site of the Kazakhs steppe identity The variety is also seen in the case of Uyghur neighbourhoods of Almaty in the frontiers of Akmolinsk oblast reminiscent of Tsarist Russia s Cossack military fortresses in gulag memorials near Astana and in the Caspian hub Atyrau that is iconised as the oil fountain of the present century Kazakh

borderlands have a completely different profile that of shared spaces The Kazakhs attachment to their homeland is a constant but the question is whether that territorial reality fits into other paradigms of identity and belonging Such questions arise in the case of Mongolian Kazakhs and Uyghurs of Semirechie in both cases the sentiment of place is strong compared to the overwhelming global experiences of the mainland Kazakhs Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka Belief in Witch Ananya Baruya,2005 This book courageously illustrates the societal practice of witch hunting which is simply nothing but a manmade evil Special attention has been given to Dooars region in northern parts of West Bengal Focuses also socio economic structures and status of women in the tribal society Indicates some solutions which have not been received adequate attention so far Highlights strong protest against the shadows of superstitions and beliefs Encourages people to prevent this social exclusion bravely

Tilche, 2022-02-19 As India consolidates an aggressive model of economic development indigenous tribal people known as adivasis continue to be overrepresented among the country s poor Adivasis make up more than eight hundred communities in India with a total population of more than 100 million people who speak more than three hundred different languages Although their historical presence is acknowledged by the state and they are lauded as a part of India s ethnic identity today their poverty has been compounded by the suppression of their cultural heritage and lifestyle In Adivasi Art and Activism Alice Tilche draws on anthropological fieldwork conducted in rural western India to chart changes in adivasi aesthetics home life attire food and ideas of religiosity that have emerged from negotiation with the homogenizing forces of Hinduization development and globalization in the twenty first century She documents curatorial projects located not only in museums and art institutions but in the realms of the home the body and the landscape Adivasi Art and Activism raises vital questions about preservation and curation of indigenous material and provides an astute critique of the aesthetics and politics of Hindu nationalism **Surviving Technopolis** Arthur W. Hunt III, 2013-09-24

Technopolis has no end in view other than bigger faster newer and more While giving us many material benefits at least in the short run in its wake are spiritual loss alienation and devastation These essays not only evaluate Technopolis but also seek wisdom to cope with our new human made environments Positively stated they offer suggestions on how to bring us back into balance Some of our best wisdom in analyzing Technopolis can be found in the voices of the Christian humanists Unlike Enlightenment humanism which tends to be human centered Christian humanism is concerned with the role of humankind within God s created order G K Chesterton T S Eliot J R R Tolkien and C S Lewis represent this tradition They and others like them understood that technological progress with no clear telos obscures what Eliot called the permanent things Surviving Technopolis means restoring the things closest to us those old identity forming institutions of home church and community **Tribal Situation in India**

Vidyuta Joshi,1998 Contributed papers presented at a seminar      **Emerging Trends in Indian Politics** Ajay K Mehra,2013-04-03 This study presents 13 articles interrogating themes likely to impinge on India s 15th general elections in 2009 These were written following intense discussion between the contributors and use available data as well as original data and analysis The significance of the analyses goes beyond how much these questions find place in the campaign or how much they would impact the electoral results These have and would continue to be essential themes in Indian politics for some time They would influence the country s politics its leaders parties and institutions and would be interrogated in political policy and social science circles in the foreseeable future They would in turn be impacted redefined and perhaps transformed by political dynamics and social pressure The first attempt of its kind to analyse the impact of certain emerging trends in politics on upcoming elections anywhere in the world this book will be a useful addition to election studies and policy making in general      **The Harlem Renaissance and Transatlantic Modernism** Denise Murrell,2024-02-25

Beginning in the 1920s Upper Manhattan became the center of an explosion of art writing and ideas that has since become legendary But what we now know as the Harlem Renaissance the first movement of international modern art led by African Americans extended far beyond New York City This volume reexamines the Harlem Renaissance as part of a global flowering of Black creativity with roots in the New Negro theories and aesthetics of Alain Locke its founding philosopher as well as the writings of W E B Du Bois Langston Hughes and Zora Neale Hurston Featuring artists such as Aaron Douglas Charles Henry Alston Augusta Savage and William H Johnson who synthesized the expressive figuration of the European avant garde with the aesthetics of African sculpture and folk art to render all aspects of African American city life this publication also includes works by lesser known contributors including Laura Wheeler Waring and Samuel Joseph Brown Jr who took a more classical approach to depicting Black subjects with dignity interiority and gravitas The works of New Negro artists active abroad are also examined in juxtaposition with those of their European and international African diasporan peers from Germaine Casse and Ronald Moody to Henri Matisse Edvard Munch and Pablo Picasso This reframing of a celebrated cultural phenomenon shows how the flow of ideas through Black artistic communities on both sides of the Atlantic contributed to international conversations around art race and identity while helping to define our notion of modernism      A New Significance ,1996
