**Game of Thrones - A View from the Humanities Vol. 2** Alfonso Álvarez-Ossorio, Fernando Lozano, Rosario Moreno Soldevila, Cristina Rosillo-López, 2023-01-27 This book focuses on the characters that populate the Game of Thrones universe and on one of the most salient features of their interaction: violence and warfare. It analyses these questions from a multidisciplinary perspective that is chiefly based on Classical Studies. The book is divided into two sections. The first section explores Martin's characters as the mainstay of both the novels and the TV series since the author has peopled his universe with three-dimensional intriguing characters that resonate with the reader audience. The second section is devoted to violence and warfare, both pervasive in the Game of Thrones universe. In particular, the TV series depiction of violence is explicit, going beyond the limits that have seldom been traversed in primetime television: i.e. the execution of Ned Stark, the Red Wedding and Battle of the Bastards. In the Game of Thrones universe, violence is not only restricted to warfare but is an everyday occurrence, a result of the social and gender inequalities characterising the world created by Martin.

**The Historians' History of the World Vol. 2 (of 25) (Illustrations)** Henry Smith Williams, Many a nation has walked God's earth; has long enjoyed its

good things has come into being and passed away without our knowing anything of its history or even whether it had a history at all For no nation has a history except one that makes history that is to say that influences the course of human development It is with races as with individuals none is kept in mind by posterity save those who have distinguished themselves by ideas that have modified the life of mankind or which comes to the same thing have been pioneers in fresh fields of action The greater the spiritual gain a nation has brought to the rest of the world the longer and more steadily its life has flowed in the channels it was the first to make the longer is its history told among them The nations of history are those which have put forward in one fashion or another their claim to the dominion of the world Thus we may fitly ask what claim it is that is made upon our interest by the history of the Jewish nation And the answer will be that nothing which excites our attention or stirs us to admiration or imitation in the history of other nations is here present in any large measure Israel was always a small nay a petty nation settled in a narrow space never of any considerable importance in the political history of the East it never brought forth a Ramses II a Sargon an Esarhaddon an Assurbanapal a Nebuchadnezzar or a Cyrus to bear its banner into distant lands Yet for all this the history of Israel has for us an interest quite different from that of those other nations of antiquity And if as we see Israel is far surpassed in martial glory by the peoples of the great empires and by the Romans in their influence on the development of law there are yet other points in which it must yield unquestioned precedence to other nations of antiquity We do not find in Israel the same feeling for beauty as among the Greeks who like no nation before them or after showed forth the laws of beauty in every sphere of intellectual life and to this day in such matters stand forth in a perfection which has never again been attained far less excelled Among the Hebrews there is nothing analogous nothing comparable to what we admire in the Hellenic people It has no epic nothing that can be compared with the Iliad and the Odyssey against which the Germans set the Nibelungen Lied and the Finns the Kalewala it has not the slightest rudiments of a drama the Song of Songs and Job are not dramas There is a school of lyrical poetry unsurpassed for all time and the music that corresponds to it But the bent towards science which actuates the Greeks is wholly lacking wholly lacking the bent towards philosophy Nor was it ever eminent in ancient days in the walks of commerce enterprise and invention by which also a nation may conquer the world its intellectual life is absolutely one sided a one sidedness that produces on us the effect of extreme singularity But the attraction it has for us does not lie in this singularity It is due rather to the circumstance that this small nation has exerted a far greater influence over the course of the history of the whole human race than the Greeks or Romans that to us it has become typical in many more respects than they Our present modes of thought and feeling our lives and actions are far more profoundly influenced by the world of thought and feeling which Israel brought to the birth than by that of Greece or Rome Our whole civilisation to day is saturated with tendencies and impulses which have their origin in Israel To be continue in this ebook [John Leech, His Life and Work, Vol. 2 \[of 2\]](#) William Frith,2021-03-16 [Al-Hind, Volume 2 Slave Kings and the Islamic Conquest, 11th-13th](#)

Centuries André Wink, 2021-10-25 During the early medieval Islamic expansion in the seventh to eleventh centuries al Hind India and its Indianized hinterland was characterized by two organizational modes the long distance trade and mobile wealth of the peripheral frontier states and the settled agriculture of the heartland These two different types of social economic and political organization were successfully fused during the eleventh to thirteenth centuries and India became the hub of world trade During this period the Middle East declined in importance Central Asia was unified under the Mongols and Islam expanded far into the Indian subcontinent Instead of being devastated by the Mongols who were prevented from penetrating beyond the western periphery of al Hind by the absence of sufficient good pasture land the agricultural plains of North India were brought under Turko Islamic rule in a gradual manner in a conquest effected by professional armies and not accompanied by any large scale nomadic invasions The result of the conquest was in short the revitalization of the economy of settled agriculture through the dynamic impetus of forced monetization and the expansion of political dominion Islamic conquest and trade laid the foundation for a new type of Indo Islamic society in which the organizational forms of the frontier and of sedentary agriculture merged in a way that was uniquely successful in the late medieval world at large setting the Indo Islamic world apart from the Middle East and China in the same centuries Please note that The Slave Kings and the Islamic Conquest 11th 13th Centuries was previously published by Brill in hardback ISBN 90 04 10236 1 still available
