Empire A Very Short Introduction:

Empire Stephen Howe, 2002-08-22 A great deal of the world's history is the history of empires. Indeed it could be said that all history is colonial history if one takes a broad enough definition and goes far enough back. And although the great historic imperial systems, the land-based Russian one as well as the seaborne empires of western European powers, have collapsed during the past half century, their legacies shape almost every aspect of life on a global scale. Meanwhile there is fierce argument and much speculation about what has replaced the old territorial empires in world politics. Do the United States and its allies, transnational companies, financial and media institutions, or more broadly the forces of globalization, constitute a new imperial system? Stephen Howe interprets the meaning of the idea of empire through the ages, disentangling the multiple uses and abuses of the labels empire, colonialism, etc. and examines the aftermath of imperialism on the contemporary world.

The British Empire: A Very Short Introduction Ashley Jackson, 2013-05-30 From the eighteenth century until the 1950s, the British Empire was the biggest political entity in the world. The territories forming this empire ranged from tiny islands to vast segments of the world's major continental land masses. The British Empire left its mark on the world in a multitude of ways, many of them permanent. In this Very Short Introduction, Ashley Jackson introduces and defines the British Empire, reviewing its historiography by answering a series of key questions: What was the British Empire and what were its main constituent parts? What were the phases of imperial expansion and contraction, and the general causes of expansion and contraction? How was the Empire ruled? What were its economic effects? What were the cultural implications of empire in Britain and its colonies? What was life like for people living under imperial rule? What are the legacies of the British Empire, and how should we view its place in world history?
