Empire Of Nations Ethnographic Knowledge And The Making Of The Soviet:

Empire of Nations Francine Hirsch, 2014-10-03 When the Bolsheviks seized power in 1917 they set themselves the task of building socialism in the vast landscape of the former Russian Empire a territory populated by hundreds of different peoples belonging to a multitude of linguistic religious and ethnic groups Before 1917 the Bolsheviks had called for the national self determination of all peoples and had condemned all forms of colonization as exploitative After attaining power however they began to express concern that it would not be possible for Soviet Russia to survive without the cotton of Turkestan and the oil of the Caucasus In an effort to reconcile their anti imperialist position with their desire to hold on to as much territory as possible the Bolsheviks integrated the national idea into the administrative territorial structure of the new Soviet state In *Empire of Nations* Francine Hirsch examines the ways in which former imperial ethnographers and local elites provided the Bolsheviks with ethnographic knowledge that shaped the very formation of the new Soviet Union The ethnographers who drew inspiration from the Western European colonial context produced all union censuses assisted government commissions charged with delimiting the USSR's internal borders led expeditions to study the human being as a productive force and created ethnographic exhibits about the Peoples of the USSR In the 1930s they would lead the Soviet campaign against Nazi race theories Hirsch illuminates the pervasive tension between the colonial economic and ethnographic definitions of Soviet territory this tension informed Soviet social economic and administrative structures A major contribution to the history of Russia and the Soviet Union *Empire of Nations* also offers new insights into the connection between ethnography and empire

Soviet Orientalism and the Creation of Central Asian Nations Alfrid K. Bustanov, 2014-11-20 Orientalism the idea that the standpoint of Western writers on the East greatly affected what they wrote about the East the Other applied also in Russia and the Soviet Union where the study of the many exotic peoples incorporated into the Russian Empire often in quite late imperial times became a major academic industry where as in the West the standpoint of writers greatly affected what they wrote Russian Soviet orientalism had a particularly important impact in Central Asia where in early Soviet times new republics later states were created often based on the distorted perceptions of scholars in St Petersburg and Moscow and often cutting across previously existing political and cultural boundaries The book explores how the Soviet orientalism academic industry influenced the creation of Central Asian nations It discusses the content of oriental sources and discourses considers the differences between scholars working in St Petersburg and Moscow and those working more locally in Central Asia providing a rich picture of academic politics and shows how academic cultural classification cemented political boundaries often in unhelpful ways

Post-Soviet Borders Sabine von Löwis, Beate Eschment, 2022-08-18 This book investigates how borders in former Soviet Union territories have evolved and shifted in the thirty years since the end of the Cold War The collapse of the Soviet Union in 1991 led to fifteen independent states and numerous de facto states but this process of rebordering is not finished and social economic infrastructural cultural and political networks and spaces continue to develop This book explores the intersection between these geopolitical shifts and the individual lived experience drawing on cases from across border regions in the Caucasus Central Asia and Eastern Europe Throughout the book introduces and frames the case studies with well informed theoretical conceptual and methodological overviews that situate them within border studies in general and post Soviet border spaces in particular Overall the book demonstrates that like a kaleidoscope the dynamic elements in these newly evolved border regions are similar yet strikingly different in their juxtapositions with the appearance of new configurations often dependent on changing geopolitical constellations This timely guide to the post Soviet world thirty years after the Cold War will be of interest to researchers across border studies politics geography social anthropology history Eastern European Studies Central Asian Studies and Caucasian Studies

Bernstein, 2023-02-15 Return to the Motherland follows those who were displaced to the Third Reich back to the Soviet Union after the victory over Germany At the end of World War II millions of people from Soviet lands were living as refugees outside the borders of the USSR Most had been forced laborers and prisoners of war deported to the Third Reich to work as racial inferiors in a crushing environment Seth Bernstein reveals the secret history of repatriation the details of the journey and the new identities prospects and dangers for migrants that were created by the tumult of war He uses official and personal sources from declassified holdings in post Soviet archives more than one hundred oral history interviews and transnational archival material Most notably he makes extensive use of secret police files declassified only after the Maidan Revolution in Ukraine in 2014 The stories described in Return to the Motherland reveal not only how the USSR grappled with the aftermath of war but also the universality of Stalinism s refugee crisis While arrest was not guaranteed persecution was ubiquitous Within

Soviet society returnees met with a cold reception that demanded hard labor as payment for perceived disloyalty soldiers perpetrated rape against returning Soviet women and ordinary people avoided contact with repatriates fearing arrest as traitors and spies As Bernstein describes Soviet displacement presented a challenge to social order and the opportunity to rebuild the country as a great power after a devastating war

The Paradox of Ukrainian Lviv Tarik Cyril Amar, 2015-12-15 The

Jonathan Brooks Platt,2016-09-02 In 1937 the Soviet Union mounted a national celebration commemorating the centenary of poet Alexander Pushkin s death Though already a beloved national literary figure the scale and feverish pitch of the Pushkin festival was unprecedented Greetings Pushkin presents the first in depth study of this historic event and follows its manifestations in art literature popular culture education and politics while also examining its philosophical underpinnings Jonathan Brooks Platt looks deeply into the motivations behind the Soviet glorification of a long dead poet seemingly at odds with the October revolution s radical break with the past He views the Pushkin celebration as a conjunction of two opposing approaches to time and modernity monumentalism and eschatology Monumentalism in pointing to specific moments and individuals as the origin point for cultural narratives and eschatology which glorifies ruptures in the chain of art or thought and the destruction of canons In the midst of the Great Purge the Pushkin jubilee was a critical element in the drive toward a nationalist discourse that attempted to unify and subsume the disparate elements of the Soviet Union supporting the move to socialism in one country **Education and the Politics of Memory in Russia and Eastern Europe** Sergey
