## **Empire State Building War And Welfare In Kenya 1925 52 Eastern African Studies:**

*Empire State-building* Joanna Lewis, 2000 This exhaustive history profiles the late colonial state as it occurred in the British occupation of Kenya Lewis history U of Durham UK relying on her extensive research into archival records first places her focus on a cross section of the colonial administration showing how it changed during WWII She then examines the working lives of welfare officers and their relation with the administration before describing the ultimate fragmentation of British rule The neglect of Kenyan women lack of community medicine and failure to address poverty are themes that recur throughout this history c Book News Inc      **Ethnic Patriotism and the East African Revival** Derek R.

Peterson, 2012-09-24 This book shows how cosmopolitan Christian converts and east African patriots struggled to define political community in the mid twentieth century Derek Peterson traces the history of the East African Revival an evangelical movement that challenged patriots effort to root people in place as inheritors of a cultural heritage      **Politics and**

**Violence in Eastern Africa** David M. Anderson, Øystein H. Rolandsen, 2017-10-02 Over the fifty years between 1940 and 1990 the countries of eastern Africa were embroiled in a range of debilitating and destructive conflicts starting with the wars of independence but then incorporating rebellion secession and local insurrection as the Cold War replaced colonialism The articles gathered here illustrate how significant widespread and dramatic this violence was In these years violence was used as a principal instrument in the creation and consolidation of the authority of the state and it was also regularly and readily utilised by those who wished to challenge state authority through insurrection and secession Why was it that eastern Africa should have experienced such extensive and intensive violence in the fifty years before 1990 Was this resort to violence a consequence of imperial rule the legacy of oppressive colonial domination under a coercive and non representative state system Did essential contingencies such as the Cold War provoke and promote the use of violence Or was it a choice made by Africans themselves and their leaders a product of their own agency This book focuses on these turbulent decades exploring the principal conflicts in six key countries Kenya Uganda Sudan Ethiopia Somalia and Tanzania This book was published as a special issue of the Journal of Eastern African Studies      *British Colonial Development Policy After the Second World War*

Rohland Schuknecht, 2010 The concept of development is one of the lasting legacies of the late colonial era in Africa Taking Sukumaland in Tanzania as a reference this book explores British colonial ideas about rural development and examines the results of their application after 1945 Colonial attempts to change African systems of agriculture are discussed extensively and critically assessed Other issues like the exploitative character of British colonial development policy in the postwar period the role of cooperatives and the connection between development policy and decolonisation are also addressed This book is the published version of author Rohland Schuknecht s doctoral thesis      **Ethnicity and Empire in Kenya** Myles

Osborne, 2014-08-29 This work analyses the ethnicity in Kenya over the past two hundred years focusing on the Kamba ethnic group that inhabits eastern Kenya      **Subverting Empire** Will Jackson, Emily Manktelow, 2015-07-15 Across their empire

the British spoke ceaselessly of deviants of undesirables ne'er do wells petit tyrants and rogues With obvious literary appeal these soon became stock figures This is the first study to take deviance seriously bringing together histories that reveal the complexity of a phenomenon that remains only dimly understood

### **War and Society in Colonial Zambia, 1939-1953**

Alfred Tembo, 2021-12-10 Written from a Zambian perspective this leading study shows how the British colony of Northern Rhodesia later Zambia organized and deployed human military and natural resources during and after the Second World War The Second World War brought unprecedented pressures to bear on Britain's empire which then included colonial Northern Rhodesia Through new archival materials and oral histories *War and Society in Colonial Zambia* tells from an African perspective the story of how the colony organized its human and natural resources on behalf of the imperial government Alfred Tembo first examines government propaganda and recruitment of personnel for the Northern Rhodesia Regiment which served in East Africa Palestine Ceylon Burma and India Later Zambia's economic contribution to the Allied war effort would foreground the central importance of the colony's mining industry as well as its role as supplier of rubber and beeswax following the fall of the Southeast Asian colonies to the Japanese in early 1942 Finally Tembo presents archival and oral evidence about life on the home front including the social impact of wartime commodity shortages difficulties posed by incoming Polish refugees and the more interventionist forms of colonial governance that these circumstances engendered

Fighting for Britain David Killingray, 2012 Based mainly on oral evidence and soldiers letters tells the story of over half a million African troops who served with the British Army in campaigns in the Horn of Africa the Middle East Italy and Burma Looks at the impact of army life and travel on the men and their families and the role of ex servicemen in post war nationalist politics

### **Mobilizing Zanzibari Women**

C. Decker, 2014-11-05 The experiences of African women in the era before independence remain a woefully understudied facet of African history This innovative and carefully argued study thus adds tremendously to our understanding of colonial history by focusing on women's education professionalization and political mobilization in the East African islands of Zanzibar

*Making and Unmaking Public Health in Africa* Ruth J. Prince, Rebecca Marsland, 2013-11-15 Africa has emerged as a prime arena of global health interventions that focus on particular diseases and health emergencies These are framed increasingly in terms of international concerns about security human rights and humanitarian crisis This presents a stark contrast to the 1960s and 70s when many newly independent African governments pursued the vision of public health for all of comprehensive health care services directed by the state with support from foreign donors These initiatives often failed undermined by international politics structural adjustment and neoliberal policies and by African states themselves Yet their traces remain in contemporary expectations of and yearnings for a more robust public health This volume explores how medical professionals and patients government officials and ordinary citizens approach questions of public health as they navigate contemporary landscapes of NGOs and transnational projects faltering state services and expanding privatization Its contributors analyze the relations between the public and the private providers

of public health from the state to new global biopolitical formations of political institutions markets human populations and health Tensions and ambiguities animate these complex relationships suggesting that the question of what public health actually is in Africa cannot be taken for granted Offering historical and ethnographic analyses the volume develops an anthropology of public health in Africa Contributors Hannah Brown P Wenzel Geissler Murray Last Rebecca Marsland Lotte Meinert Benson A Mulemi Ruth J Prince No mi Tousignant and Susan Reynolds Whyte **Imperial Encore** Caroline Ritter, 2021-01-26 In the 1930s British colonial officials introduced drama performances broadcasting services and publication bureaus into Africa under the rubric of colonial development They used theater radio and mass produced books to spread British values and the English language across the continent This project proved remarkably resilient well after the end of Britain's imperial rule many of its cultural institutions remained in place Through the 1960s and 1970s African audiences continued to attend Shakespeare performances and listen to the BBC while African governments adopted English language textbooks produced by metropolitan publishing houses Imperial Encore traces British drama broadcasting and publishing in Africa between the 1930s and the 1980s the half century spanning the end of British colonial rule and the outset of African national rule Caroline Ritter shows how three major cultural institutions the British Council the BBC and Oxford University Press integrated their work with British imperial aims and continued this project well after the end of formal British rule Tracing these institutions and the media they produced through the tumultuous period of decolonization and its aftermath Ritter offers the first account of the global footprint of British cultural imperialism *An Uncertain Age* Paul Ocobock, 2017-03-27 In twentieth century Kenya age and gender were powerful cultural and political forces that animated household and generational relationships They also shaped East Africans contact with and influence on emergent colonial and global ideas about age and masculinity Kenyan men and boys came of age achieving their manhood through changing rites of passage and access to new outlets such as town life crime anticolonial violence and nationalism And as they did the colonial government appropriated masculinity and maturity as means of statecraft and control In *An Uncertain Age* Paul Ocobock positions age and gender at the heart of everyday life and state building in Kenya He excavates in unprecedented ways how the evolving concept of youth motivated and energized colonial power and the movements against it exploring the masculinities boys and young men debated and performed as they crisscrossed the colony in search of wages or took the Mau Mau oath Yet he also considers how British officials own ideas about masculinity shaped not only young African men's ideas about manhood but the very nature of colonial rule *An Uncertain Age* joins a growing number of histories that have begun to break down monolithic male identities to push the historiographies of Kenya and empire into new territory *The City Makers of Nairobi* Anders Eise, Kristin Eise, 2020-07-21 *The City Makers of Nairobi* re-examines the history of the urban development of Nairobi in the colonial period Although Nairobi was a colonial construct with lasting negative repercussions the African population's impact on its history and development is often overlooked This book shows

how Africans took an active part in making use of the city and creating it and how they were far from being subjects in the development of a European colonial city This re interpretation of Nairobi s history suggests that the post colonial city is the result of more than unjust and segregative colonial planning Merging historical documentation with extensive contemporary urban theory this book provides in depth knowledge of the key historical roles played by locals in the development of their city It argues that the idea of agency a popular inroad to urban development today is not a current phenomenon but one that has always existed with its many social spatial and physical ramifications This is an ideal read for upper level undergraduate and graduate students studying the history of urban development and theories providing an in depth case study for reference The City Makers of Nairobi broaches interdisciplinary themes important to urban planners social scientists historians and those working with popular settlements in cities across the world *Kenya's Running Women* Michelle M Sikes,2023-12-01

Since Pauline Konga s breakthrough performance at the 1996 summer Olympics in Atlanta the world has become accustomed to seeing Kenyan women medal at major championships sweep marathons and set world records Yet little is known about the pioneer generation of women who paved the way for Kenya s reputation as an international powerhouse in women s track and field In *Kenya s Running Women A History* historian and former professional runner Michelle M Sikes details the triumphs and many challenges these women faced from the advent of Kenya s athletics program in the colonial era through the professionalization of running in the 1980s and 1990s Sikes reveals how over time running became a vehicle for Kenyan women to expand the boundaries of acceptable female behavior *Kenya s Running Women* demonstrates the necessity of including women in histories of African sport and of incorporating sport into studies of African gender and nation building

*Race and Empire* Chloe Campbell,2007-06-15 *Race and Empire* tells the story of a short lived but vehement eugenics movement that emerged among a group of Europeans in Kenya in the 1930s unleashing a set of writings on racial differences in intelligence more extreme than that emanating from any other British colony in the twentieth century The Kenyan eugenics movement of the 1930s adapted British ideas to the colonial environment in all its extremity Kenyan eugenics was not simply a bizarre and embarrassing colonial mutation as it was later dismissed but a logical extension of British eugenics in a colonial context By tracing the history of eugenic thought in Kenya the books shows how the movement took on a distinctive colonial character driven by settler political preoccupations and reacting to increasingly outspoken African demands for better and more independent education The economic fragility of Kenya in the early 1930s made the eugenicists particularly dependent on British financial support Ultimately the suspicious response of the Colonial Office and the Prime Minister Ramsay MacDonald backed up by a growing expert concern about race in science led to the failure of Kenyan eugenics to gain the necessary British backing Despite this lack of concrete success eugenic theories on race and intelligence were widely supported by the medical profession in Kenya as well as powerful members of the official and non official European settler population The long term failures of the eugenics movement should not blind us to its influence among the

social and administrative elite of colonial Kenya Through a close examination of attitudes towards race and intelligence in a British colony *Race and Empire* reveals how eugenics was central to colonial racial theories before World War Two *The Decline and Fall of the British Empire, 1781-1997* Piers Brendon, 2008-10-28 A WASHINGTON POST BOOK WORLD NOTABLE BOOK After the American Revolution the British Empire appeared to be doomed Yet it grew to become the greatest most diverse empire the world had seen Then within a generation the mighty structure collapsed a rapid demise that left an array of dependencies and a contested legacy at best a sporting spirit a legal code and a near universal language at worst failed states and internecine strife *The Decline and Fall of the British Empire* covers a vast canvas which Brendon fills with vivid particulars from brief lives to telling anecdotes to comic episodes to symbolic moments *Beyond Federation* Emma Hunter, Daniel Branch, Ismay Milford, Gerard McCann, 2025-08-18 In the period of mid twentieth century decolonization when nationalism and globalism were hotly contested East Africans nurtured regionalism in their intellectual and creative work This book looks beyond political projects of federation to recover ideas and practices of regionalism their remarkable longevity and their significance for understanding possibilities of radical change In doing so it tells a different story about the fate of the category of East Africa building on a body of scholarship about the imagined political communities of decolonizing Africa and rejecting narratives that explain the failure of regional integration as the immediate consequence of postcolonial authoritarianism or global economic crisis *Political Thought and the Public Sphere in Tanzania* Emma Hunter, 2015-04-27 This book is a study of the interplay of vernacular and global languages of politics during Africa's decolonization *The Risks of Knowledge* David William Cohen, E. S. Atieno Odhiambo, 2004 *The Risks of Knowledge* minutely examines the multiple and unfinished investigations into the murder of Kenya's distinguished Minister of Foreign Affairs and International Cooperation Robert Ouko in February 1990 Public and international concern over Ouko's death led to renewed attention to the extent of governmental corruption the Moi era and brought down the government of President Moi at the end of 2002

**Insurgency and Counterinsurgency in Kenya** Hannah Whittaker, 2015-10-20 In *Insurgency and Counterinsurgency* in Kenya Hannah Whittaker offers an in depth analysis of the Somali secessionist war in northern Kenya 1963-68 Combining archival and oral data the work captures the complexity of the conflict which combined a series of local national and regional confrontations The conflict was not Whittaker argues evidence of the potency of Somali nationalism but rather an early expression of its failure The book also deals with the Kenyan government's response to the conflict as part of the entrenchment of African colonial boundaries at independence Contrary to current narratives of an increasingly borderless world Whittaker reminds us of the violence that is produced by state led attempts to shore up contested borderlands This work provides vital insights into the history behind the on going troubled relationship between the Kenyan state and its Somali minority and between Kenya and Somalia
