Wendig,2015-09-04 NEW YORK TIMES BESTSELLER Journey to Star Wars The Force Awakens Star Wars Aftermath reveals what happened after the events of 1983 s Return of the Jedi It turns out there s more than just the Empire for the good guys to worry about The Hollywood Reporter As the Empire reels from its critical defeats at the Battle of Endor the Rebel Alliance now a fledgling New Republic presses its advantage by hunting down the enemy s scattered forces before they can regroup and retaliate But above the remote planet Akiva an ominous show of the enemy s strength is unfolding Out on a lone reconnaissance mission pilot Wedge Antilles watches Imperial Star Destroyers gather like birds of prey circling for a kill but

he's taken captive before he can report back to the New Republic leaders. Meanwhile on the planet's surface, former rebel fighter Norra Wexley has returned to her native world, war-weary, ready to reunite with her estranged son and eager to build a new life in some distant place. But when Norra intercepts Wedge Antilles's urgent distress call, she realizes her time as a freedom fighter is not yet over. What she doesn't know is just how close the enemy is or how decisive and dangerous her new mission will be. Determined to preserve the Empire's power, the surviving Imperial elite are converging on Akiva for a top secret emergency summit to consolidate their forces and rally for a counterstrike. But they haven't reckoned on Norra and her newfound allies: her technical genius son, a Zabrak bounty hunter, and a reprobate Imperial defector who are prepared to do whatever they must to end the Empire's oppressive reign once and for all.

Praise for *Aftermath: The Force is Strong with Star Wars*

Alternative Nation The Star Wars universe is fresh and new again and just as rich and mysterious as it always was. Den of Geek

Chuck Wendig neatly captures the current states of the Empire and Rebel Alliance and does so through flawed, real and nuanced characters. His writing gets you up close and personal. Wendig does wonders with dialogue and voice and carving out space for everyone to breathe. *Aftermath* is a strong foot forward into unexplored territory and puts down just enough foundation that you can start picturing the Resistance and First Order of The Force. *Awakens* taking shape. Nerdist

If the opening chapter of the Wendig's *Aftermath* trilogy is any indication, the *Journey to Star Wars: The Force Awakens* will be every bit as exciting as the movie.

New York Daily News A wonderful Star Wars adventure by a gifted author.

Baggage of Empire Martin Adeney, 2016-06-09 Born just as the British Empire was taking its last breaths, Martin Adeney was part of the twilight generation caught between the imperial and postimperial ages, forced to navigate the insecurities, political, economic and cultural, faced by the British as we struggled to understand and adapt to our diminished place in the world order. A compelling blend of memoir and narrative history, *Baggage of Empire* leads us through the crumbling ruins of great industries and imperial trade cities, from the retreat of the northern newspaper empires to an almost exclusively southern metropolitan viewpoint, through the tumultuous dominance and decline of the trade unions to the rise of Thatcherism and big business. From the unique vantage point his career as a journalist has given him, particularly as industrial editor of BBC TV, Adeney notes that many of the issues that preoccupied us in the late 60s and early 70s, including immigration, housing, education, industry and communications, remain the daily currency of our political discourse. Despite all of our material prosperity and cultural self-confidence, we are all burdened in one way or another by the baggage of empire.
