## **Empires In The Sun:**

*Empires in the Sun* Lawrence James, 2017-06-06 The one hundred year history of how Europe coerced the African continent into its various empires and the resulting story of how Africa succeeded in decolonization In this dramatic and often tragic story of an era that radically changed the course of world history Lawrence James investigates how within one hundred years Europeans persuaded and coerced Africa into becoming a subordinate part of the modern world His narrative is laced with the experiences of participants and onlookers and introduces the men and women who for better or worse stamped their wills on Africa The continent was a magnet for the high minded the adventurous the philanthropic the unscrupulous Visionary pro consuls rubbed shoulders with missionaries explorers soldiers big game hunters entrepreneurs and physicians Between 1830 and 1945 Britain France Belgium Germany Portugal Italy and the United States exported their languages laws culture religions scientific and technical knowledge and economic systems to Africa The colonial powers imposed administrations designed to bring stability and peace to a continent that appeared to lack both The justification for occupation was emancipation from slavery and the common assumption that late nineteenth century Europe was the summit of civilization By 1945 a transformed continent was preparing to take charge of its own affairs a process of decolonization that took a quick twenty years This magnificent history also pauses to ask what did not happen and why

**Empires in the Sun** Lawrence James, 2016-11 *Colony and Empire* William G. Robbins, 1994 Popular writers and historians alike have perpetuated the powerful myth of the rugged individualist single handedly transforming the American West In reality William Robbins counters it was the Guggenheims and Goulds the Harrimans and Hearsts and the Morgans and Mellons who masterminded what the West was to become Remove the romance he shows and a darker West emerges a colonial like region where industrial statesmen aided by eastern U S and European capital manipulated investments in pursuit of private gain while controlling wage earning cowboys and miners Robbins argues that understanding the impact of capitalism on the West from the fur trade era to the present is essential to understanding power influence and change in the region Showing how global capitalism had a more profound impact on the modern West than individual initiative he explores violence and racism along the Texas Mexican border colonial style company towns in Montana and the Northwest contrasting traditions astride the U S Canadian boundary pace setting agribusiness and exploitation of labor in California the growing power of metropolitan centers and dependence of rural areas and the emergence of a sizable federal influence To grasp the essence of the West s dramatic transformation Robbins contends you must look to the mainstays of material relations in the region the perpetually changing character of political and economic culture the inherent instability of resources and the larger constellations of capitalist decision making Consequently he shows shy Western success and failure prosperity and misfortune and expansion and decline were all inseparably linked to the evolution of capitalism at the local regional national and global levels In the tradition of Patricia Nelson Limerick s *Legacy of Conquest* Robbins s study challenges some of our

most revered images of the West and invigorates the ongoing debates over its history and meaning for our nation

aftermath of the war a determined Milner set out to reconstruct the former Boer republics but his policies stoked resentment among Afrikaners particularly in respect of language and education He left behind a coterie of young administrators the so called Kindergarten who contributed significantly to the unification of South Africa and the fostering of imperial ideals through the Round Table Movement In this biography the first by a South African Richard Steyn argues that Milner's reputation should not be defined by his eight years service in South Africa alone Despite his controversial stance on the issue of Irish Home Rule Milner's legendary administrative ability made him the obvious choice for War Secretary in Lloyd George's five man War Cabinet and Milner did much to shape the Allied victory in the First World War If his personal qualities and beliefs made him the wrong man to send to South Africa where he failed to accomplish the over ambitious goals he set himself he was the right man in a far greater international conflict

**The Grit Beneath the Glitter** Hal Rothman, Mike Davis, 2002-03-15 An anthology of essays and first person narratives offers a glimpse of the people and institutions that support the Las Vegas gaming industry

**Devil's Bargains** Hal Rothman, 1998 The West is popularly perceived as America's last outpost of unfettered opportunity but twentieth century corporate tourism has transformed it into America's land of opportunism From Sun Valley to Santa Fe towns throughout the West have been turned over to outsiders and not just to those who visit and move on but to those who stay and control Although tourism has been a blessing for many bringing economic and cultural prosperity to communities without obvious means of support or allowing towns on the brink of extinction to renew themselves the costs on more intangible levels may be said to outweigh the benefits and be a devil's bargain in the making Hal Rothman examines the effect of twentieth century tourism on the West and exposes that industry's darker side He tells how tourism evolved from Grand Canyon rail trips to Sun Valley ski weekends and Disneyland vacations and how the post World War II boom in air travel and luxury hotels capitalized on a surge in discretionary income for many Americans combined with newfound leisure time From major destinations like Las Vegas to revitalized towns like Aspen and Moab Rothman reveals how the introduction of tourism into a community may seem innocuous but residents gradually realize as they seek to preserve the authenticity of their communities that decision making power has subtly shifted from the community itself to the newly arrived corporate financiers And because tourism often results in a redistribution of wealth and power to outsiders observes Rothman it represents a new form of colonialism for the region By depicting the nature of tourism in the American West through true stories of places and individuals that have felt its grasp Rothman doesn't just document the effects of tourism but provides us with an enlightened explanation of the shape these changes take Deftly balancing historical perspective with an eye for what's happening in the region right now his book sets new standards for the study of tourism and is one that no citizen of the West whose life is touched by that industry can afford to ignore
