**Resources in Education ,2001      European Corporate Governance** Thomas Clarke,Jean-Francois

Chanlat,2009-06-24 For decades Europe has sought to become more financially integrated with the United States and thus European legal institutions regulatory governance and accounting practices have faced pressures to adapt to international competitive markets Against this backdrop European corporate governance systems have been criticized as being less efficient than the Anglo American market based systems This textbook examines the unique dimensions and qualities of European corporate governance Reforms of key institutions the doctrine of shareholder value and the seemingly irresistible growth of CEO power and reward are critically analyzed The book brings out the richness of European corporate governance systems as well as highlighting historical weaknesses that will require further work for a sustainable corporate governance environment in the future In light of the most severe financial crisis since the 1930s this intelligent look at European corporate governance is a vital textbook for courses on corporate governance and a great supplementary textbook on a host of business management and accounting classes      *Recent Developments in the Metal Trades* ,1993 Explores sectoral trends from 1970 to 1991      *Journal of Economic Literature* ,      *Migrant Women* M. Zulauf,2001-10-30 Policy makers are concerned with facilitating labour mobility in the EU In the 1990s take up of employment in other EU countries has remained small This seminal work looks at the obstacles faced by women in the nursing and banking professions when they migrate between member states Basing her analysis on the personal accounts of migrants and discussions with colleagues and regulatory bodies in Britain Germany and Spain the author sheds light on one of the major challenges confronting the EU

Summary of United States and European Union Workshop on Employment Policy and the Promotion of Employability Security ,1997      *Congressional Record* United States. Congress,1992      **Index of Economic Articles in Journals and Collective Volumes** American Economic Association,1999      **How Computers Entered the Classroom, 1960-2000** Carmen Flury,Michael Geiss,2023-06-19 In the history of education the question of how computers were introduced into European classrooms has so far been largely neglected This edited volume strives to address this gap The contributions shed light on the computerization of education from a historical perspective by attending closely to the different actors involved such as politicians computer manufacturers teachers and students political rationales and ideologies as well as financial political or organizational structures and relations The case studies highlight differences in political and economic power as well as in ideological reasoning and the priorities set by different stakeholders in the process of introducing computers into education However the contributions also demonstrate that simple cold war narratives fail to capture the complex dynamics and entanglements in the history of computers as an educational technology and a subject taught in schools The edited volume thus provides a comprehensive historical understanding of the role of education in an emerging digital society
