Well-being A Toolkit OECD,2017-10-17 With 1.2 billion people today's youth population aged 15-24 represents the largest cohort ever to enter the transition to adulthood. Employment and Inclusive Development Rizwanul Islam,Iyanatul Islam,2015-02-11 Issues relating to employment and labour have once again come to the fore of global policy debates in the wake of the widespread unemployment that has accompanied the current financial crisis. In the developing world there is a growing realization that productive employment promotion and social protection have to be at the core of inclusive growth and development. This book supports the view that employment is a cross-cutting issue shaped by macroeconomic and microeconomic policy interventions and provides a capacious framework to analyse the complexity of this global debate. It covers a wide range of issues that have received insufficient attention in the discourse of development and labour economics. These include the impact of macroeconomic policies on employment, labour rights, the development of human capabilities and employability, youth employment, the benefits and costs of labour market flexibility and the importance of social protection for all. This important book aims at filling this gap by revisiting old debates and reconnecting them to the contemporary context, combining analyses with relevant empirical evidence. It will appeal to a diverse readership of academic institutions and think tanks, international organizations, bilateral donors working on development issues and policy makers in developing countries.

Employment and Development Gary S. Fields,2019 This book brings together the contributions of 2014 IZA Prize in Labor Economics award winner Gary Fields to address global employment and poverty problems. The central questions in his work are how economic growth affects standards of living, how labor markets work in developing countries and how different labor market policies affect well-being.

Development Begins at Home C. A. O. Van Nieuwenhuijze,2013-10-22

Development Begins at Home Problems and Prospects of the Sociology of Development examines the challenges posed by development to the field of sociology. The book first reviews colonialism and the emergent One World in terms of the history of ideas, discusses attitudes towards development and examines the definitions of development. These are followed by separate chapters on the contributions of sociology to development studies. The considerable wealth of sociology in dealing with change and to a lesser extent with development is identified. Subsequent chapters examine points of departure for current and prospective work in the sociology of development. One is the profile of underdevelopment sociologically understood along with the matching configuration of development goals. Another is the true meaning of social development.

as opposed to economic development The main finding is that development may well cause the general outlook of sociology to change The prospect is for a sociology of human dignity in the social nexus **Industrial Adjustment in Sub-Saharan Africa** Gerald M. Meier, William F. Steel, Richard J. Carroll, 1989 This study charts the history and development of the African adjustment to industrialization in East Africa and examines the input of the World Bank and the African Development Bank
