Buddhist and Christian? Rose Drew, 2013-07-03 This is a detailed exploration of Buddhist Christian dual belonging engaging from both Buddhist and Christian perspectives the questions that arise and drawing on extensive interviews with well known individuals in the vanguard of this important and growing phenomenon The issue is pressing insofar the last century has witnessed a gradual but profound transformation of the West's religious landscape In today's context of diversity people are often influenced by more than one religion Multireligious identities are consequently on the rise At one end of the spectrum are those who identify themselves as fully belonging to more than one tradition One of the most prevalent combinations is Christianity and Buddhism This book addresses central and fundamental questions How is it possible to be authentically Buddhist and authentically Christian when for example God is central to Christianity yet absent from Buddhism when Christians have faith in Jesus Christ while Buddhists take refuge in the Buddha when Christians hope for heaven and Buddhists hope for nirvana and when Buddhists and Christians engage in different practices Are those who identify themselves as belonging to both traditions profoundly irrational religiously schizophrenic or perhaps just spiritually superficial Or is it possible somehow to reconcile the thought and practice of Buddhism and Christianity in such a way that one can be deeply committed to both And if it is possible will the influence of Buddhist Christians on each of these traditions be something to be regretted or celebrated

Crossing Horizons Shlomo Biderman, 2008-02-08 In this book Shlomo Biderman examines the views outlooks and attitudes of two distinct cultures the West and classical India He turns to a rich and varied collection of primary sources the Rg Veda the Upanishads and texts by the Buddhist philosophers N g rjuna and Vasubandhu among others In studying the West Biderman considers the Bible and its commentaries the writings of such philosophers as Plato Descartes Berkeley Kant and Derrida and the literature of Kafka Melville and Orwell Additional sources are Mozart's Don Giovanni and seminal films like Ingmar Bergman's Persona Biderman uses concrete examples from religion and literature to illustrate the formal aspects of the philosophical problems of transcendence language selfhood and the external world and then demonstrates their plausibility in actual situations Though his method of analysis is comparative Biderman does not adopt the disinterested stance of an

ideal spectator Rather Biderman approaches ancient Indian thought and culture from a Western philosophical standpoint to uncover cultural presuppositions that can be difficult to expose from within the culture in question The result is a fascinating landmark in the study of Indian and Western thought Through his comparative prism Biderman explores the most basic ideas underlying human culture and his investigation not only sheds light on India s philosophical traditions but also facilitates a deeper understanding of our own

A Post-Western Account of Critical Cosmopolitan Social Theory Michael Murphy, 2021-01-28 In this book Michael Murphy argues that if cosmopolitanism is to remain critical and relevant rather than set out another grand project what is required is a process of critique and cooperation At the level of inter cultural exchange this requires understanding the encounter with the Other as a mutual phase of development and holds out the potential to rejuvenate world philosophies Through this process the cosmopolitan imagination emerges from a dialogue between global traditions of relational sociologies on matters of common concern The second stage of the book applies this methodology to provide a radical account of being and acting in the world

This will be achieved through engaging in conversation with the works of the critical theorist Gerard Delanty the decolonial theorist Walter Dignolo and the Buddhist Confucian and phenomenological inspired work of Watsuji Tetsuro In providing a move away from abstractions and ideals to instead focus on injustices and the everyday life Murphy uncovers an independent source for political legitimacy not defined by the rationality of the state or dependent on the ideals of Western philosophy Part of this investigation also reveals a post individual account of agency as an enactive being Emphasising agency as becoming has the potential to allow us to reimagine the relationship between the self and the institutions of democracy The main themes of this book are eurocentrism critical cosmopolitanism post individual subjectivity and democracy *The Origin and Significance of Zero*, 2024-03-11 Winner of the 2024 Outstanding Academic Titles award in Choice a publishing unit of the Association of College religion philosophy arts and mathematics and conversely inhibited by the absence of or aversion to such a concept of Nothingness in the West But not all scholars agree Join the debate **A Companion to Buddhist Philosophy** Steven M. of research in the field since the publication of the essays Siderits's work is based on an investigation of Indian sources in their original language nevertheless the focus of the essays is primarily systematic not historical or philological The idea of fusion philosophy a term coined by Siderits embodies precisely the assumption that by bringing a Western and an Eastern tradition together both can benefit by learning from each other about new ways of tackling old philosophical problems
