

Emu

The emu is Australia's largest bird and the world's second largest. It comes second to the ostrich.

Emus are very unique in the way they look. They have long necks and very sharp beaks.

Their ears are quite small and they have two sets of eyelids. One eyelid is used to keep the dust out while the other is used for blinking. Altogether they have six toes, three on each foot. On each foot there is a talon which is used for fighting and protecting themselves against predators. Emus have very soft light brown feathers. They are also known to grow between 1.5-2 metres in height and can weigh up to 60kg. They are flightless birds.

Emus like to eat whatever they can find. However, they usually eat grass, flowers and berries. They

Emu

The emu is Australia's largest bird and the world's second largest. It comes second to the ostrich.

Emus are very unique in the way they look. They have long necks and very sharp beaks.

Their ears are quite small and they have two sets of eyelids. One eyelid is used to keep the dust out while the other is used for blinking. Altogether they have six toes, three on each foot. On each foot there is a talon which is used for fighting and protecting themselves against predators. Emus have very soft light brown feathers. They are also known to grow between 1.5-2 metres in height and can weigh up to 60kg. They are flightless birds.

Emus like to eat whatever they can find. However, they usually eat grass, flowers and berries. They also like to eat insects and grubs which they find by digging around in the ground.

Emus like to eat a lot of food, especially if there is a lot around them. When they eat lots, the food is stored in fat. They can then survive for longer periods as they go in search for more food. Emus live in flocks or pairs.

Did you know...? Males make a grunting sound like a pig and females make a loud booming sound.
