understanding of itself Could the existing sacred narrative of French history established by the Third Republic hold in the face of the defeat of France s military and political systems both built upon its foundations The French Historical Narrative and the Fall of France Simone Weil and her Contemporaries Face the Debacle focuses on assessments of the Debacle and places Simone Weil s writings of 1938 to 1943 within this continuum This study recreates the debate in those fraught years to posit a horizon of expectations within which to place and better appreciate Simone Weil s writing of the period far reaching and bold but hardly crazy as De Gaulle is said to have characterized her ideas

**Australia's War with France** Richard James, 2017-09-05 1941 Great Britain is fighting for its very existence France has surrendered and installed Marshal P tain an ageing reactionary as head of a hostile new government at Vichy The Allied outpost in Egypt and the Suez Canal its strategic jewel are threatened on both sides To the west Rommel is rampaging through North Africa To the east the Germans are arming rebels and fostering an uprising in British Iraq Churchill s cabinet is reeling after disastrous campaign in Greece There are fears of a German takeover in Vichy controlled Syria and Lebanon where a languishing French colonial army may fall in line with the Nazis Churchill orders a disgruntled General Wavell to take the offensive assuming that the French will not put up a fight against an Allied show of force The only troops available are a division of Australians the 7th untested recruits digging ditches in the Egyptian desert This is the story of how the 7th Division came to fight against the Army of the Levant Australia against France in the rocky hills of Lebanon and the barren wastes of Syria Contrary to Churchill s expectations the French resisted viciously The Australians won the war but at the price of more than 400 young men sons of Anzacs who had fought to defend France in the trenches of the western Front The British were embarrassed the campaign was forgotten and the Australians who fought were dubbed the silent men No contemporary Australian historian has studied the conflict British and French accounts exist but fail to do justice to the Australian contribution Through interviews with the veterans archival records and on the ground research this book seeks to understand a neglected campaign and give it a proper place in Australian history

*The Fall of France* Charles River Charles River Editors, 2018-02-08 Includes pictures Includes accounts of the fighting Includes online resources and a bibliography for further reading Includes a table of contents My Luftwaffe is invincible And so now we turn to England How long will this one last two three weeks Hermann Goering June 1940 One of the most famous people in the world came to tour the city of Paris for the first time on June 28 1940 Over the next three hours he rode through the city s streets stopping to tour L Opera Paris He rode down the Champs Elysees toward the Trocadero and the Eiffel Tower where he had his picture taken After passing through the Arc de Triomphe he toured the Pantheon and old medieval churches though he did not manage to see the Louvre or the Palace of Justice Heading back to the airport he told his staff It was the dream of my life to be permitted to see Paris I cannot say how happy I am to have that dream fulfilled today Four years after his tour Adolf Hitler would order the city s garrison commander General Dietrich von Choltitz to

destroy Paris warning his subordinate that the city must not fall into the enemy's hand except lying in complete debris. Of course Paris was not destroyed before the Allies liberated it but it would take more than 4 years for them to wrest control of France from Nazi Germany after they took the country by storm in about a month in 1940. That said it's widely overlooked today given how history played out that as the power of Nazi Germany grew alarmingly during the 1930s the French sought means to defend their territory against the rising menace of the Thousand Year Reich. As architects of the most punitive measures in the Treaty of Versailles following World War I France was a natural target for Teutonic retribution so the Maginot Line a series of interconnected strongpoints and fortifications running along much of France's eastern border helped allay French fears of invasion. The true flaw in French military strategy during the opening days of World War II lay not in reliance on the Maginot fortifications but in the army's neglect to exploit the military opportunities the Line created. In other words the border defense performed as envisioned but the other military arms supported it insufficiently to halt the Germans. The French Army squandered the opportunity not because the Maginot Line existed but because they failed to utilize their own defensive plan properly. The biggest problem was that the Germans simply skirted past the intricate defensive fortifications by invading neutral Belgium and swinging south thereby avoiding the Maginot Line for the most part. The French had not expected the Germans would be able to move armored units through the Ardennes Forests a heavily wooded region spanning parts of Belgium, France and the Netherlands. To the Allies great surprise the Germans had no trouble rolling across these lands in the span of weeks. And by invading France from the north the Germans simply avoided the Maginot Line. The French surrendered in June 1940 and the British narrowly escaped disaster by transporting thousands of soldiers and equipment across the English Channel at Dunkirk. Thus by the middle of 1940 the Axis powers and the Soviet Union had overrun nearly all of Western Europe. With France out of the war and without active participation by the United States Great Britain virtually stood alone. The Fall of France: The History of Nazi Germany's Invasion and Conquest of France During World War II chronicles the background and construction of the much maligned defensive fortifications. Along with pictures of important people, places and events you will learn about the fall of France like never before in no time at all.
