*Places of Cultural Memory*, 2001      TRUE MYTH Nashid Al-Amin, 2013 Why is it that encyclopedias assert the Vikings or Norsemen landed in parts of North America yet the Vikings have never been credited with its discovery Historians bestow this honor on Christopher Columbus who ventured here five hundred years after the Vikings having never set foot on the continent True Myth Black Vikings of the Middle Ages takes the reader where he or she has never been before We have always been told that Vikings or Norsemen were tall blond white and blue eyed an image that has been presented to us in books and films Now comes a book that challenges this centuries old assertion presenting evidence that these vaunted warriors were not the people popular historians have told us they were The author presents evidence that white skinned peoples in England Ireland and Wales referred to Vikings as black pagans and black devils The extent of their dominance in Europe is examined in fact the author presents a reassessment of Europe that some readers will find difficult to believe beginning with man's migrations into the continent and examining a number of black skinned peoples who called Europe home from very ancient times almost to the present The reader has never read a book like this filled with quotations from noted historians as well as from several Icelandic sagas that will take the reader on a journey he or she has never imagined A more accurate picture of Europe has never been presented before The writer revisits the last ice age presents evidence of the heavy presence of blacks in ancient Europe and revisits ancient Greece Rome and areas of Asia discussing the presence of black skinned peoples in them before arriving in Viking age Scandinavia when Norsemen embarked on a three century long assault on the continent and began migrating to Iceland and other areas of North America Once the reader has completed True Myth Black Vikings of the Middle Ages he or she will have to question what he or she has been taught historians once thought to be trustworthy and the notion that the races were strictly divided and had never intermingled There has never been a truer picture of Europe written and the reader now has the opportunity to embark on the most thrilling journey he or she will ever take

Reconfiguring Slavery Benedetta Rossi, 2016-02-26 A fascinating collection that advances a renewed conceptual framework for understanding slavery in West Africa today instead of retracing the end of West African slavery

this work highlights the preliminary contours of its recent reconfigurations      *The Case against Afrocentrism* Tunde Adeleke, 2011-01-05 Postcolonial discourses on African Diaspora history and relations have traditionally focused intensely on highlighting the common experiences and links between black Africans and African Americans This is especially true of Afrocentric scholars and supporters who use Africa to construct and validate a monolithic racial and culturally essentialist worldview Publications by Afrocentric scholars such as Molefi Asante Marimba Ani Maulana Karenga and the late John Henrik Clarke have emphasized the centrality of Africa to the construction of Afrocentric essentialism In the last fifteen years however countervailing critical scholarship has challenged essentialist interpretations of Diaspora history Critics such as Stephen Howe Yaacov Shavit and Clarence Walker have questioned and refuted the intellectual and cultural underpinnings of Afrocentric essentialist ideology Tunde Adeleke deconstructs Afrocentric essentialism by illuminating and interrogating the problematic situation of Africa as the foundation of a racialized worldwide African Diaspora He attempts to fill an intellectual gap by analyzing the contradictions in Afrocentric representations of the continent These include multiple conflicting and ambivalent portraits of Africa the use of the continent as a global unifying identity for all blacks the de-emphasizing and nullification of New World acculturation and the ahistoric construction of a monolithic African Diaspora worldwide

**A Theory of African American Offending** James D. Unnever, Shaun L. Gabbidon, 2011-03 This book argues that a theory of crime specific to the African American experience is justified by qualitative and quantitative data not just because of the disproportionately higher percentage of African Americans in the U S population who are offenders but also because of the vastly higher percentage of Black Americans who are non offenders

**Decolonisation, Africanisation and the Philosophy Curriculum** Edwin Etieyibo, 2019-10-23 This book appropriately titled Decolonisation Africanisation and the Philosophy Curriculum signposts and captures issues about philosophy the philosophy curriculum and its decolonisation and Africanisation This topic is of critical importance at present for the discipline of philosophy not the least because philosophy and the current philosophical canons are perceived to be improvised by virtue of their historical marginalisation and exclusion of other valuable and important philosophical traditions and perspectives The continued marginalisation and exclusion of one such philosophical tradition and perspective i e African philosophy connects to issues of space contestations and raise questions of justice The chapters in this book engage with all of these issues and they also attempt to make sense of what it will mean for philosophy and the philosophy curriculum to be decolonised and Africanised how to go about achieving this task and what the challenges and problems are that confront efforts to decolonise and Africanise the philosophy curriculum Furthermore the contributors initiate discussions on the value and importance of non western philosophical traditions and perspectives and by so doing challenge the dormant and triumphant narrative and hegemony of Western philosophy as well as the centrality accorded to it in philosophical discourse The chapters in this book were originally published as articles in the South African Journal of Philosophy

**We Can't Go Home Again** Clarence E. Walker, 2001-06-14 Afrocentrism has been a controversial but popular movement in schools and universities across America as well as in black communities But in We Can't Go Home Again historian Clarence E Walker puts Afrocentrism to the acid test in a thoughtful passionate and often blisteringly funny analysis that melts away the pretensions of this therapeutic mythology As expounded by Molefi Kete Asante Yosef Ben Jochannan and others Afrocentrism encourages black Americans to discard their recent history with its inescapable white presence and to embrace instead an empowering vision of their African specifically Egyptian ancestors as the source of western civilization Walker marshals a phalanx of serious scholarship to rout these ideas He shows for instance that ancient Egyptian society was not black but a melange of ethnic groups and questions whether in any case the pharaonic regime offers a model for blacks today asking if everybody was a King who built

the pyramids But for Walker Afrocentrism is more than simply bad history it substitutes a feel good myth of the past for an attempt to grapple with the problems that still confront blacks in a racist society The modern American black identity is the product of centuries of real history as Africans and their descendants created new hybrid cultures mixing many African ethnic influences with native and European elements Afrocentrism replaces this complex history with a dubious claim to distant glory Afrocentrism offers not an empowering understanding of black Americans past Walker concludes but a pastiche of alien traditions held together by simplistic fantasies More to the point this specious history denies to black Americans the dignity and power that springs from an honest understanding of their real history     Race, Ethnicity, Crime, and Justice

Shaun L. Gabbidon, 2010 This book provides case studies from countries around the world regarding the nature and scope of concerns related to race ethnicity crime and justice The text centres primarily on English speaking countries where they have encountered problems related to race ethnicity crime and justice The book is designed to be used as either a main or supplementary text for courses focusing on race and crime minorities and crime and diversity in criminal justice Additionally it can also be used in sociology and ethnic studies courses that focus on race and crime     *Themes Out of School* Stanley Cavell, 1988-08-15 In the first essay of this book Stanley Cavell characterizes philosophy as a willingness to think not about something other than what ordinary human beings think about but rather to learn to think undistractedly about things that ordinary human beings cannot help thinking about or anyway cannot help having occur to them sometimes in fantasy sometimes as a flash across a landscape Fantasies of film and television and literature flashes across the landscape of literary theory philosophical discourse and French historiography give Cavell his starting points in these twelve essays Here is philosophy in and out of school understood as a discipline in itself or thought through the works of Shakespeare Moli re Kierkegaard Thoreau Brecht Makavejev Bergman Hitchcock Astaire and Keaton
