Child Martyrs and Militant Evangelization in New Spain Stephanie Schmidt,2025-04-08 Examines the many iterations of a story of child martyrdom in colonial Mexico A cornerstone of the evangelization of early New Spain was the conversion of Nahua boys especially the children of elites They were to be emissaries between Nahua society and foreign missionaries hastening the transmission of the gospel Under the tutelage of Franciscan friars the boys also learned to act with militant zeal They sermonized and smashed sacred objects Some went so far as to kill a Nahua religious leader For three boys from Tlaxcala the reprisals were just as deadly In **Child Martyrs and Militant Evangelization in New Spain** Stephanie Schmidt sheds light on a rare manuscript about Nahua child converts who were killed for acts of zealotry during the late 1520s This is the Nahuatl version of an account by an early missionary friar Toribio de Benavente Motolin a To this day Catholics venerate the slain boys as Christian martyrs who suffered for their piety Yet Franciscan accounts of the boys sacrifice were influenced by ulterior motives as the friars sought to deflect attention from their missteps in New Spain Illuminating Nahua perspectives on this story and period Schmidt leaves no doubt as to who drove this violence as she dramatically expands the knowledgebase available to students of colonial Latin America [Living in Happiness in a Complex World](#) Charles P. Scanlon,2002-02-07 Ancient Greek athletics offer us a clear window on many important aspects of ancient culture some of which have distinct parallels with modern sports and their place in our society Ancient athletics were closely connected with religion the formation of young men and women in their gender roles and the construction of sexuality Eros was from one perspective a major god of the gymnasium where homoerotic liaisons reinforced the traditional hierarchies of Greek culture But Eros in the athletic sphere was also a symbol of life affirming friendship and even of political freedom in the face of tyranny Greek athletic culture was not so much a field of dreams as a field of desire where fervent competition for honor was balanced by cooperation for common social goals Eros and Greek Athletics is the first in depth study of Greek body culture as manifest in its athletics sexuality and gender formation In this comprehensive overview

Thomas F Scanlon explores when and how athletics was linked with religion upbringing gender sexuality and social values in an evolution from Homer until the Roman period Scanlon shows that males and females made different uses of the same contests that pederasty and athletic nudity were fostered by an athletic revolution beginning in the late seventh century B C and that public athletic festivals may be seen as quasi dramatic performances of the human tension between desire and death Accessibly written and full of insights that will challenge long held assumptions about ancient sport Eros and Greek Athletics will appeal to readers interested in ancient and modern sports religion sexuality and gender studies

Philippians Gordon Zerbe, 2016-11-01 What if rather than only reading Philippians we allowed Philippians to read us In this 31st volume in the Believers Church Bible Commentary series New Testament scholar Gordon Zerbe challenges readers to allow Paul's prison letter to interpret our own lives not by extracting lessons out of historical and cultural context but by imagining ourselves into the ancient Roman world and back again

Why Homer Matters Adam Nicolson, 2014-11-18 Adam Nicolson writes popular books as popular books used to be a breeze rather than a scholarly sweat but humanely erudite elegantly written passionately felt and his excitement is contagious James Wood The New Yorker Adam Nicolson sees the Iliad and the Odyssey as the foundation myths of Greek and our consciousness collapsing the passage of 4 000 years and making the distant past of the Mediterranean world as immediate to us as the events of our own time Why Homer Matters is a magical journey of discovery across wide stretches of the past sewn together by the poems themselves and their metaphors of life and trouble Homer's poems occupy as Adam Nicolson writes a third space in the way we relate to the past not as memory which lasts no more than three generations nor as the objective accounts of history but as epic invented after memory but before history poetry which aims to bind the wounds that time inflicts The Homeric poems are among the oldest stories we have drawing on deep roots in the Eurasian steppes beyond the Black Sea but emerging at a time around 2000 B C when the people who would become the Greeks came south and both clashed and fused with the more sophisticated inhabitants of the Eastern Mediterranean The poems which ask the eternal questions about the individual and the community honor and service love and war tell us how we became who we are
