Families In Distress Public Private And Civic Responses:

Families in Distress Malcolm Bush, 2024-03-29 *Families in Distress Public Private and Civic Responses* explores the complex and often contentious interplay between public and private sectors in addressing the needs of children from troubled families. The book critiques the conventional debate over the roles of governmental versus private welfare services, arguing that this dialogue is too simplistic. The author emphasizes the importance of considering individuals as citizens who have rights and responsibilities rather than just as clients in need of help. By introducing the concept of civic responsibility, the book suggests that helping troubled families should not only be a matter of matching needs to services but also about engaging citizens in a democratic process of addressing social issues. This broadens the debate by proposing that civic participation in the form of community involvement and oversight is essential to improving the outcomes of welfare services and ensuring that citizens play a meaningful role in the welfare system. The author further examines how various organizations both public and private have responded to the challenges faced by families, particularly those suffering from poverty, neglect, and abuse. While the expansion of welfare systems and professional services has provided more formalized help, the book argues that these organizations often fail to address the deeper issues of family distress and may even inadvertently reinforce dependency. The analysis includes a critical review of the impact of professional social work, welfare policies, and public services on families, urging a shift towards a more citizen-driven approach. The book calls for a rethinking of how social welfare should operate, advocating for policies that not only address immediate needs but also encourage independence and long-term stability for families in distress. Through this approach, the book provides a thought-provoking examination of the ways in which society can better balance the roles of public institutions, private organizations, and civic participation in responding to family crises. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1988. *Families in Distress* Malcolm Bush, 1988

Women, Violence and Social Change R. Emerson Dobash, Russell P. Dobash, 2003-12-16 *Women, Violence and Social Change* demonstrates how refuges and shelters stand as the core of the battered women's movement, providing a basis for pragmatic support, political action, and radical renewal. From this base, movements in Britain and the United States have challenged the police, courts, and social services to provide greater assistance to women. The book provides important evidence on the way social movements can successfully challenge institutions of the State, as well as salutary lessons on the nature of diverted and thwarted struggle. Throughout the book, the Dobashes' years of researching violence against women is illustrated in the depth of their analysis. They maintain the tradition established in their first book, *Violence Against Wives*, which was widely acclaimed. *Privatization in Four European Countries* Ralph M. Kramer, 1993 Analyzes and compares

how the governments of England Italy the Netherlands and Norway are increasingly using voluntary nonprofit organizations to provide social services This third sector has different characteristics than government or market organizations but has been little studied by social scientists as yet Does not consider the history Current Catalog National Library of Medicine (U.S.), First multi year cumulation covers six years 1965-70 **National Library of Medicine Current Catalog** National Library of Medicine (U.S.),1990 **Teen Mothers--Citizens Or Dependents?** Ruth Horowitz,1996-06-15 Horowitz examines one of the most critical questions of welfare policy how can a government program help one of society's most needful groups move from welfare dependency to employment independence and responsible citizenship This book brings to life the dramas of women on welfare women that daily face dramas unknown to most Americans *The Limits of Voluntarism* Andrew J. F. Morris,2009 This book examines the new relationship between charity and welfare in the era following the New Deal A Home of Another Kind Kenneth Cmiel,1995-02-15 In the most comprehensive account ever written of an American orphanage an institution about which even its many new advocates and experts know little Kenneth Cmiel exposes America's changing attitudes toward child welfare The book begins with the fascinating history of the Chicago Nursery and Home Orphan Asylum from 1860 through 1984 when it became a full time research institute Founded by a group of wealthy volunteers the asylum was a Protestant institution for Protestant children one of dozens around the country designed as places where single parents could leave their children if they were temporarily unable to care for them But the asylum which later became known as Chapin Hall changed dramatically over the years as it tried to respond to changing policies priorities regulations and theories concerning child welfare Cmiel offers a vivid portrait of how these changes affected the day to day realities of group living How did the kind of care given to the children change What did the staff and management hope to accomplish How did they define family Who were the children who lived in the asylum What brought them there What were their needs How did outside forces change what went on inside Chapin Hall This is much more than a richly detailed account of one institution Cmiel shatters a number of popular myths about orphanages Few realize that almost all children living in nineteenth century orphanages had at least one living parent And the austere living conditions so characteristic of the orphanage were prompted as much by health concerns as by strict Victorian morals **Connecting the Dots** Richard K. Caputo,2017-11-21 Richard K Caputo an under the radar social work scholar shares lessons about finding his voice as a scholar overcoming obstacles and navigating the rigors and expectations of academia in this memoir From his days as an undergraduate to a graduate student from being a paraprofessional at Arizona State Hospital and Division of Behavioral Health Services to a professional social worker at a family service agency then known as United Charities of Chicago and from an agency based professional to an academic he reveals the trials tribulations and tradeoffs that went with each transition He also pays homage to the mentors that helped him succeed in his various roles including being a junior faculty member at the University of Pennsylvania School of Social Work a continuing contract faculty member at the Barry

University School of Social Work and finally as a tenured faculty member at the Yeshiva University Wurzweiler School of Social Work Join the author as he chronicles his journey navigating the political and social environment from the 1960s through the 2010s and juggling the demands of university life in *Connecting the Dots* Poor Relations Joan Gittens,1994 This comprehensive history traces the care of dependent delinquent and disabled children in Illinois from the early nineteenth century to current times focusing on the dilemmas raised by both public intervention and the lack of it Joan Gittens explores the inadequacies of a system that has allowed problems in the public care of children to recur regularly but at the same time insists that the state s own history makes it clear that the potential for improvements exists

Globalization and Children Natalie Hevener Kaufman,Irene Rizzini,2007-05-08 ALLISON JAMES Globalization seems to be the word on everyone s lips with politicians as much as academics extolling its benefits as well as its contradictions For some globali tion means in practice that whether in Bangkok or Boston in London or Rio as travelers from wealthy countries they can be sure to find the beer the pizzas and the jeans that they can at home they can be both at home and away simulta ously For others though globalization has had rather different often less bene cial consequences In their everyday lives people have come to find themselves tied in albeit in often unseen ways into larger economic and political systems over which they have no control yet these systems cause radical changes often for the worse rather than the better in the pattern of their daily lives And it is those who have least voice whose lives are usually affected the most In this book attention is drawn systematically really for the first time to a consideration of how processes of globalization variously impact upon the lives of children Such an approach is not only most welcome in the field of childhood studies but also long overdue It will at last enable us to begin to contextualize in a broader framework some of the many issues to do with ch dren s rights and participation which have long been discussed as separate and discrete issues within childhood studies **Assets and the**

Poor Michael Sherraden,2016-09-16 This work proposes a new approach to welfare a social policy that goes beyond simple income maintenance to foster individual initiative and self sufficiency It argues for an asset based policy that would create a system of saving incentives through individual development accounts IDAs for specific purposes such as college education homeownership self employment and retirement security In this way low income Americans could gain the same opportunities that middle and upper income citizens have to plan ahead set aside savings and invest in a more secure future
