Jones, 2017-03-14 David Jones has written a compelling book about the complex issues entailed in being family members of sufferers from mental illness The book provides us with a critical appraisal of the sociological and psychological conceptual layers and the policy context necessary for understanding these issues all too often missing in other books written about this subject Through in depth interviews of forty carers coached in a way which enables the carers to talk in their own voice we get the rare opportunity of understanding the world of these carers In letting the carers speak Jones is enabling all of us to listen to them with the respect they deserve All of us but especially mental health professionals policy makers and researchers need to learn from the methodology utilised in this

study and the content of the rich experiential seam Jones exposes as to how to listen better to carers and on which themes to focus in our working partnership with users and carers Professor Shulamit Ramon Anglia Polytechnic University Cambridge

This book fills a gap in our knowledge about the experiences of families of people suffering from severe mental illness Original research material is used to support claims that families are struggling with complex feelings such as loss anger and shame It is also argued that the ideas families themselves hold about mental illness form an important part of the cultural world in which mental illnesses are understood This stimulating book challenges many conventional assumptions about family relationships by arguing that they have to be understood in terms of myths that bring a certain amount of order to complex areas of emotional life The author argues that families if properly understood can provide significant support for people with severe mental illness

Handbook of Marriage and the Family Marvin B. Sussman, Suzanne K. Steinmetz, Gary W. Peterson, 2013-06-29 To know where we are going as scholars educators and practitioners in the field of marriage and family life we first need to know where we have been A perusal of early texts on marriage and family life provides some thought provoking insights into the accuracy of the saying what goes around comes around It is interesting to note who has been considered to be in a position to provide information on marriage and family life Included in the eclectic collection of texts we

reviewed were ministers whose focus was on spirituality doctors who emphasized medical aspects of child and adult health and public health professionals and home economists concerned with fighting disease who emphasized cleanliness order fighting germs and eliminating rodents and insects There are also philosophers who drew from ancient texts when discussing family life and a count who assembled a group of German intellectual elites to address various topics An insightful essay of this type is by Marta Karlweis 1926 in which she notes There is no other fetish that society holds to so firmly as the conception woman with all its usual associations of infantilism and dependence The child requires protection is a minor and consequently a serf but above all it possesses no spiritual existence Neither doctorates or other distinctions nor the right to vote have as yet been able to dispel this sweet idea of the childishness of woman which man cherishes p *Work, Family, and Leisure* Robert M. Orrange, 2007 *Work Family and Leisure* explores the plans and aspirations of twenty something law and MBA students for work family and leisure Through in depth interviews Robert Orrange captures the hopes dreams anxieties and fears that these professional school students have about their own personal futures By placing the study in the context of major late 20th century social transformations Orrange illuminates the complexity and uncertainty of the life planning process in today's risk society These future professionals expect to achieve solid success in their careers but are wary of the demands and uncertainties associated with the big time However the men and women also seem to hold asymmetrical views about equality in marriage and some of the women envision that they may end up relying upon friends as a family support system In spite of these uncertainties most of these future lawyers and business professionals hope to derive satisfaction and meaning through their families and they anticipate integrating leisure time with spouses and children as opposed to colleagues and clients Their privatized images of the good life define a life politics that seemingly eschews commitments to the larger societal community a stance that may prove unsustainable in light of the growing economic risks confronting the middle class today In the end Orrange argues that the professional middle class may have to emerge from their private havens and champion the cause of a good society for all if they are to preserve their own cherished way of life

Bereavement Care for Families David W. Kissane, Francine Parnes, 2014-01-03 Grief is a family affair When a loved one dies the distress reverberates throughout the immediate and extended family Family therapy has long attended to issues of loss and grief yet not as the dominant therapeutic paradigm Bereavement Care for Families changes that it is a practical resource for the clinician one that draws upon the evidence supporting family approaches to bereavement care and also provides clinically oriented strategic guidance on how to incorporate family approaches into other models Subsequent chapters set forth a detailed research based therapeutic model that clinicians can use to facilitate therapy engage the ambivalent deal with uncertainty manage family conflict develop realistic goals and more Any clinician sensitive to the roles family members play in bereavement care need look no further than this groundbreaking text *History Alive: A Journey Through the Ages* Pasquale De Marco, 2025-07-11 Embark on a captivating journey through the annals of human history with
