## **Families And Aging:**

**Families and Aging** Patricia Drentea, 2018-11-06 The experiences of both families and aging are changing in today's society. Many of us are staying healthier and living longer. Because an unprecedented number of Americans will be over age 65 in the twenty-first century, the aging experience will be felt by many and permeate our family life and society. Patricia Drentea's *Families and Aging* examines how the changing lifestyles of Americans will play into aging well. It explores the life course transitions that occur as individuals and families age within the current U.S. context. The text is written from a sociological perspective but it is interdisciplinary and can be used by many fields such as gerontology, social work, human development, and family studies.

**Family Ties and Aging** Ingrid Arnet Connidis, 2010 This advanced textbook covers issues of family ties and aging broadly, the goal being to provide an integrated and thorough representation of what we know from the current research. Whereas books on families and aging have traditionally focused on ties to a spouse and to children and grandchildren, *Family Ties and Aging* is more extensive and more reflective of contemporary society. The text includes groups and relationships that typically receive short shrift, exploring such neglected populations as single, divorced, and childless older people and their family relationships, as well as sibling relationships among the elderly, live-in partnerships not formalized by marriage, and the kinds of family ties forged by gay and lesbian persons over the life course. The book weaves the vast range of information we now have about the many facets of family relationships and aging into a critical, comprehensive, and integrated whole.

*Families and Aging* Linda Burton, 2019-03-28 The complexity and diversity of families and aging has generated the necessity for research, policy, and program agendas that address emerging issues and needs for elderly Americans and their families. This volume is an effort towards that end, an effort towards fostering a different perspective at families and aging.

Handbook of Families and Aging Rosemary Blieszner, Victoria Hilkevitch Bedford, 2012-09-20 This comprehensive state-of-the-art textbook and reference volume in family gerontology reviews and critiques the recent theoretical, empirical, and methodological literature, identifies future research directions, and makes recommendations for gerontology professionals. This book is both an updated version of and a complement to the original *Handbook of Families and Aging*. The many additions include the most recent demographic changes on aging families, new theoretical formulations, innovative research methods, recent legal issues, and death and bereavement, as well as new material on the relationships themselves: sibling, partnered, and intergenerational relationships, for example. Among the brand-new topics in this edition are step-family relationships, aging families and immigration, aging families and 21st-century technology, and peripheral family ties. Unlike the more cursory summaries found in textbooks, the essays within *Handbook of Families and Aging*, Second Edition, provide thoughtful, in-depth coverage of each topic. No other book provides such a comprehensive and timely overview of theory and research on family relationships, the contexts of family life, and major turning points in late-life families. Nevertheless, the contents are written to be engaging and accessible to a broad audience, including advanced

undergraduate students graduate students researchers and gerontology practitioners Serious lay readers will also find this book highly informative about contemporary family issues      *When the Time Comes* Paula Span, 2009-05-20 What will you do when you get the call that a loved one has had a heart attack or a stroke Or when you realize that a family member is too frail to live alone but too healthy for a nursing home Journalist Paula Span shares the resonant narratives of several families who faced these questions Each family contemplates the alternatives in elder care from assisted living to multigenerational living to home care nursing care and at the end hospice care and chooses the right path for its needs Span writes about the families emotional challenges their practical discoveries and the good news that some of them find a situation that has worked for them and their loved ones And many find joy in the duty of caring for an older loved one There are 45 million Americans caring for family members currently and as the 77 million boomers continue to age this number will only go up Paula Span s stories are revealing and informative They give a sense of all the emotional and practical factors that go into the major decisions about caregiving so that readers will be better able to figure out what to do when the time comes for them and their loved ones      **Aging in the Family** George Dickinson, Brenda Sanders, 2018-10-31 With a rapidly aging population throughout the world the issue of larger percentages of older adults has repercussions for both policy and the job market Whether a university student about to seek a full time job or a caregiver for an older person *Aging in the Family* should enhance the reader s knowledge and skills The main topics covered in this volume include marital status of older adults support systems within families crises with older adults within families the resilience of older adults entering the latter stages of life practical information involving caregiving aging in place and various social services for an aging population The reader will be made aware of intergenerational interactions between older adults and other family members in various cultures The role of ethnicity and socio economic status in health issues of older adults will be discussed as will the application of technology to an aging population Though problems certainly exist as one ages the overall thrust of the book is toward the positive aspects of growing old Numerous theories exist to probe research and understanding of older adults in families The relation between theory and research will be helpful to many students of aging in the family Older adults are generally married yet cohabitation and other options are alive and well too Ageism death and abuse unfortunately are issues affecting aging Yet most older adults in the US and Western Europe report living independently and being satisfied with their lives *Aging in the Family* will be an interesting read for anyone wanting to learn about older adults and family relationships as it exhibits a blend of both theoretical and practical matters      **Global Aging and Challenges to Families** Vern Bengtson, 2018-01-16 The recent explosion in population ageing across the globe represents one of the most remarkable demographic changes in human history Population ageing will profoundly affect families Who will care for the growing numbers of tomorrows very old members of societies Will it be state governments The aged themselves Their families The purpose of this book is to examine consequences of global aging for families and intergenerational support and for nations as

they plan for the future      *Handbook of Aging and the Family* Rosemary Blieszner, Victoria Hilkevitch Bedford, 1996-07-30

*Families in Ageing Societies* Sarah Harper, 2004-09-02 Western families are undergoing considerable change The demographic ageing of societies is increasing the number of living generations and decreasing the number of living relatives within these generations These ageing societies are also seeing an ageing of some life transitions with individuals choosing to delay full economic independence from parents formal adult union through marriage or committed long term cohabitation and parenting Such demographic change is occurring within the context of a variety of new kin structures stepfamilies ethnic minority families single parent families cohabiting couples This volume takes an interdisciplinary research approach to consider the implications of demographic ageing for European and American families

Family Ties and Aging Ingrid Arnet Connidis, Amanda E. Barnett, 2018-10-05 Providing an integrated and thorough representation from current research and contemporary society Family Ties and Aging shows how pressing issues of our time an aging population changing family structures and new patterns of work family balance are negotiated in the family lives of middle aged and older adults Focusing on key questions such as How do current trends and social arrangements affect family relationships and What are the implications of what we

know for future research theory practice and policy authors Ingrid Arnet Connidis and Amanda E Barnett explore groups and relationships that are typically overlooked including the unique family situations of older single and childless persons sibling ties older lesbian and gay adults and new forms of intimate relationships The Third Edition is thoroughly updated to include the latest research and theoretical developments recent media coverage of related issues and new information on intimate relationships in later life and elder neglect abuse     Aging and the Family Patricia Neff Claster, Sampson Lee

Blair, 2021-02-25 This collection makes a crucial contribution by collating research on aging and the family from an international perspective Providing this wide scope of quality research the volume equips readers to better assess how aging and its related issues are affecting families from multiple backgrounds     Family Ties and Aging Ingrid Arnet

Connidis, 2001-06-19 This book presents a wealth of information on family ties and aging and would be a good text for undergraduates Victor G Cicirelli Purdue University Overall the book is really very good All the chapters are excellent impressive in its breadth and depth There is nothing like it on the market and I predict that it will be widely adopted Sarah Matthews Cleveland State University I am very excited about this book I believe it will fill a crucial niche in the field of gerontology There have been a few slim textbooks on family and aging issues in the past but none as comprehensive as this one There are many attractive features excellent coverage of diversity in family experiences according to racial ethnic and sexual orientation group membership indication of diversity of family and aging experiences according to socioeconomic class many useful examples of critical thinking section introductions and summaries that serve as useful learning tools I like the fact that U S and Canadian data are intertwined I think it will give students a broader perspective of the world than they typically get from textbooks Rosemary Blieszner Virginia Polytechnic Institute State University The book is written in a style that is easy to read and presents details carefully but without tedium It would be appropriate for an advanced undergraduate course or a graduate course I enjoyed reading this book This is a topic I am interested in and I think the author did a nice job of communicating both the old and the new the traditional and the nontraditional issues of importance in the study of the family Toni Antonucci University of Michigan This book examines the vast range of information about the many facets of family relationships and aging and compiles it into a critical comprehensive and integrated whole providing an integrated and thorough representation of the field     **Challenges of Aging on U.S. Families** Richard K. Bengtson, Ariela Lowenstein, The recent explosion in population aging across the globe represents one of the most remarkable demographic changes in human history There is much concern about population aging and its consequences for nations for governments and for individuals It has often been noted that population aging will inevitably affect the economic stability of most countries and the policies of most state governments What is less obvious but equally important is that population aging will profoundly affect families Who will care for the growing numbers of tomorrow's very old members of societies Will it be state governments The aged themselves Their families The purpose of this volume is to examine consequences of global aging for families and intergenerational support and for nations as they plan for the future Four remarkable social changes during the past fifty years are highlighted 1 Extension of the life course A generation

has been added to the average span of life over the past century 2 Changes in the age structures of nations Most nations today have many more elders and many fewer children than fifty years ago 3 Changes in family structures and relationships Some of these differences are the result of trends in family structure notably higher divorce rates and the higher incidence of childbearing to single parents 4 Changes in governmental responsibilities In the last decade governmental responsibility appears to have slowed or reversed as states reduce welfare expenditures How will families respond to twenty first century problems associated with population aging Will families indeed be important in the twenty first century or will kinship and the obligations across generations become increasingly irrelevant replaced by personal communities This volume goes a considerable distance to answer these critical issues for the twenty first century Vern L Bengtson is an AARP University Chair in Gerontology and Professor of Sociology University of Southern California Ariela Lowenstein is associate professor and head Department of Aging Studies University of Haifa Israel     **Aging Families and Caregiving** Sara Honn Qualls, Steven H.
