**Emotions in the Household, 1200-1900** S. Broomhall, 2007-12-14 This collection asks new questions about the household examining the kinds of positive and negative emotional scope available to household members drawn together by shared economic social and biological needs rather than by blood ties

**Children in the Ancient Near Eastern Household** Kristine Garroway, 2014-10-21 Children were an important part of the ancient Near Eastern household This idea seems straightforward but it can be understood in many ways On a basic level children are necessary for the perpetuation of a household On a deeper level the definitions of child and member of the household are far from categorical This book begins to explore the multiple definitions of child and the way the child fits within a household It examines what membership in the household looks like for children and what factors contribute to it A study addressing what a child is and how a child s gender and social status affect her place in the household is vital to a proper understanding of the ancient Near Eastern household Despite their importance children have long been marginalized in discussions of ancient

societies Only recently has this trend begun to change within biblical and ancient Near Eastern scholarship A recent wave of studies especially in relation to the Hebrew Bible has started to address children in their own right In light of the current state of scholarship on children the purpose of this book is threefold First Garroway continues to fill out the picture of the child in the ancient Near East by compiling child centric texts and archaeological realia In analyzing these materials she surveys the relationship between children and ancient Near Eastern society by examining the extent to which structuring forces in a community such as social status and gender contribute to the process of a child s becoming a member of his household and society Finally this information provides a base for future research for example a cross cultural study of children in the ancient Near East in *Classical Antiquity* *Geoffrey Chaucer in Context* Ian Johnson,2019-07-11 Provides a rich and varied reference resource illuminating the different contexts for Chaucer and his work *Family Life in the Age of Shakespeare* Bruce W. Young,2008-12-30 From the star crossed romance of Romeo and Juliet to Othello s misguided murder of Desdemona to the betrayal of King Lear by his daughters family life is central to Shakespeare s dramas This book helps students learn about family life in Shakespeare s England and in his plays The book begins with an overview of the roots of Renaissance family life in the classical era and Middle Ages This is followed by an extended consideration of family life in Elizabethan England The book then explores how Shakespeare treats family life in his plays Later chapters then examine how productions of his plays have treated scenes related to family life and how scholars and critics have responded to family life in his works The volume closes with a bibliography of print and electronic resources The volume begins with a look at the classical and medieval background of family life in the Early Modern era This is followed by a sustained discussion of family life in Shakespeare s world The book then examines issues related to family life across a broad range of Shakespeare s works Later chapters then examine how productions of the plays have treated scenes concerning family life and how scholars and critics have commented on family life in Shakespeare s writings The volume closes with a bibliography of print and electronic resources for student research Students of literature will value this book for its illumination of critical scenes in Shakespeare s works while students in social studies and history courses will appreciate its use of Shakespeare to explore daily life in the Elizabethan age *The Family of Richard III* Michael Hicks,2015-03-15 Richard s family was his making and undoing

**Anne de France and Her Family (1325-1522)** Zita Eva Rohr,2025-08-24 This book demonstrates that premodern elite and royal women were critical to the geopolitical success of late medieval territorial monarchies the progenitors of early modern states It aims to communicate the un exceptionality of female political influence in medieval and early modern Europe Manifesting sophisticated and informed leadership in times of challenge and transformation women such as Anne de France her matrilineal line and the elite women and girls in her orbit were key to early modern government politics and diplomacy Through a longue dur e case study this book examines generations of a premodern matriline culminating in Anne beginning with Elisabetta di Carinzia and her daughter Elionor de Sic lia continuing with Elionor s daughters in law moving

into the territories of the insular and peninsular kingdoms of Naples into France with Elionor's granddaughter Yolande d Aragon and into England with Yolande's granddaughter Marguerite d Anjou to influence and underwrite powerful and influential territorial monarchies Together these women and the others discussed in this study form an important part of Anne de France's matrilineal heritage providing her with a historical template of lived political experience on which to construct her own gendered political theory and practice

*Commerce Before Capitalism in Europe, 1300-1600* Martha C. Howell, 2010-04-12 Later generations have sometimes found such actions perplexing often dismissing them as evidence that business people of the late medieval and early modern worlds did not fully understand market rules

**Rethinking**

**Households** Michel Verdon, 2002-09-26 In this present study Michel Verdon posits a radical and multidisciplinary method of examining household formation by refuting this collectivist set of suppositions and recognizing residence as the critical determinant of all household forming practices This book argues that the natural preference of adults not constituting part of a couple is to reside independently of others The reasons why they do not do so are contingent on various economic or cultural constraints

**British Women's History**, 1996 This is one of a series of bibliographical guides designed to meet the needs of undergraduates postgraduates and their teachers in universities and colleges of further education All volumes in the series share a number of common characteristics They are selective manageable in size and include those books and articles which are considered most important and useful All are edited by practising teachers of the subject in question and are based on their experience of the needs of students The arrangement combines chronological with thematic divisions Most of the items listed receive some descriptive comment

**The English Family 1450 - 1700** Ralph A.

Houlebrooke, 2014-06-11 The history of the family has become the source of lively controversy and Ralph Houlebrooke's study has made a major contribution to the debate Thorough investigations reveal the attitudes and aspirations of all levels of society set within economic political and religious contexts and developments within the period

**A Millennium of Family**

**Change** Wally Seccombe, 1995-10-17 How do changes in family form relate to changes in society as a whole In a work which combines theoretical rigour with historical scope Wally Seccombe provides a powerful study of the changing structure of families from the Middle Ages to the beginning of the Industrial Revolution Responding to feminist critiques of sex blind historical materialism Seccombe argues that family forms must be seen to be at the heart of modes of production He takes issue with the mainstream consensus in family history which argues that capitalism did not fundamentally alter the structure of the nuclear family and makes a controversial intervention in the long standing debate over European marriage patterns and their relation to industrialization Drawing on an astonishing range of studies in family history historical demography and economic history A Millennium of Family Change provides an integrated overview of the long transition from feudalism to capitalism illuminating the far reaching changes in familial relations from peasant subsistence to the making of the modern working class

*English Society in the Later Middle Ages* S.H. Rigby, 1995-05-10 What was the social structure of England

in the period 1200 to 1500 What were the basic forms of social inequality To what extent did such divisions generate social conflict How significantly did English society change during this period and what were the causes of social change Is it useful to see medieval social structure in terms of the theories and concepts produced within the medieval period itself What does modern social theory have to offer the historian seeking to understand English society in the later middle ages These are the questions which this book seeks to answer Beginning with an analysis of class structure of medieval England Part One of this book asks to what extent class conflict was inherent within class relations and discusses the contrasting successes and outcomes of such conflict in town and country Part Two of the book examines to what extent such class divisions interacted with other forms of social inequality such as those between orders nobility and clergy between men and women and those arising from membership of a status group the Jews Dr Rigby's discussion of medieval English society is located within the context of recent historical and sociological debates about the nature of social stratification and using the work of social theorists such as Parkin and Runciman offers a synthesis of the Marxist and Weberian approaches to social structure The book should be extremely useful to those undergraduates beginning their studies of medieval England whilst in offering a new interpretative framework within which to examine social structure also interesting those historians who are more familiar with this period
