Family And Nation:

Family and Nation Daniel Patrick Moynihan, 1986 *The Contest for Family and Nation in Republican China* Susan L. Glosser, 1995 Israel and the Family of Nations Alexander Jakobson, Amnon Rubinstein, 2009 Amnon Rubinstein and Alexander Jakobson explore the nature of Israel's identity as a Jewish state how that is compatible with liberal democratic norms and is comparable with a number of European states Family and Nation, 1948 **Displacements** Angelika Bammer, 1994-12-22 Essays in this volume examine the effects of leaving one's native culture or experiencing the imposition of a colonising culture **F D Maurice and the Crisis of Christian Authority** Jeremy Morris, 2005-03-18 This book offers a reassessment of the theology of F D Maurice 1805-72 one of the most significant theologians of the modern Church of England It seeks to place Maurice's theology in the context of nineteenth century conflicts over the social role of the Church and over the truth of the Christian revelation Maurice is known today mostly for his seminal role in the formation of Christian Socialism and for his dismissal from his chair at King's College London over his denial of the doctrine of eternal punishment Drawing on the whole range of Maurice's extensive published work this book argues that his theology and his social and educational activity were held together above all by his commitment to a renewal of Anglican ecclesiology At a time when following the social upheavals of the French Revolution and the Industrial Revolution many of his contemporaries feared that the authority of the Christian Church and particularly of the Church of England was under threat Maurice sought to reinvigorate his Church's sense of mission by emphasizing its national responsibility and its theological inclusiveness In the process he pioneered a new appreciation of the diversity of Christian traditions that was to be of great importance for the Church of England's ecumenical commitment He also sought to limit the damage of internal Church division by promoting a view of the Church's comprehensiveness that acknowledged the complementary truth of convictions fiercely held by competing parties **Religion, the Secular, and the Politics of Sexual Difference** Linell E. Cady, Tracy Fessenden, 2013-11-12 Global struggles over women's roles rights and dress have taken center stage in a drama that casts the secular and the religious in tense if not violent opposition Advocates for equality speak of the issue in terms of rights and modern progress while reactionaries ground their authority in religious and scriptural appeals Both sides presume women's emancipation is tied to secularization This volume upsets these certainties by blending diverse voices and traditions both secular and religious in studies historicizing questioning and testing the implicit links between secularism and expanded freedoms for women Rather than treat secularism as the answer to conflicts over gender and sexuality these essays show how it structures the conditions generating them **The Present**, 1843 *Popular Media, Social Emotion and Public Discourse in Contemporary China* Shuyu Kong, 2014-03-14 Since the early 1990s the media and cultural fields in China have become increasingly commercialized resulting in a massive boom in the cultural and entertainment industries This evolution has also brought about fundamental changes in media behaviour and communication and the enormous growth of

entertainment culture and the extensive penetration of new media into the everyday lives of Chinese people Against the backdrop of the rapid development of China's media industry and the huge growth in social media this book explores the emotional content and public discourse of popular media in contemporary China It examines the production and consumption of blockbuster films television dramas entertainment television shows and their corresponding online audience responses and describes the affective articulations generated by cultural and media texts audiences and social contexts Crucially this book focuses on the agency of audiences in consuming these media products and the affective communications taking place in this process in order to address how and why popular culture and entertainment programs exert so much power over mass audiences in China Indeed Shuyu Kong shows how Chinese people have sought to make sense of the dramatic historical changes of the past three decades through their engagement with popular media and how this process has created a cultural public sphere where social communication and public discourse can be launched and debated in aesthetic and emotional terms Based on case studies that range from television drama to blockbuster films and reality television programmes to social media sites this book will be of great interest to students and scholars of Chinese culture and society media and communication studies film studies and television studies
