Family Political Economy And Demographic Change The Transformation Of Life In Casalecchio Italy 1861 1921:

Family, Political Economy, and Demographic Change David I. Kertzer, Dennis P. Hogan, 1989 Family Political Economy and Demographic Change represents an unprecedented interdisciplinary effort to discover how changes in family life and demographic behavior actually occurred in this crucial period and how people's lives were affected The book takes issue with a number of the most influential demographic and sociological theories dealing with the evolution of the Western family and the factors responsible for fertility decline As in so many other parts of Europe the northern Italian community of Casalecchio experienced massive social and economic changes in the nineteenth and early twentieth centuries Characterized by sharecropping agriculture and large complex family households the community faced the effects of industrialization urbanization and dramatic political change Making use of unusually rich archival sources to reconstruct the lives of 19 000 people who lived in Casalecchio during this period Kertzer and Hogan challenge many current generalizations regarding the emergence of modern European society

Tibetan Transitions Geoff Childs, 2008-07-25 Tibetan Transitions uses the dual lenses of anthropology and demography to analyze population regulating mechanisms in traditional Tibetan societies and to link recent fertility transitions with family systems economic strategies gender equity and family planning ideologies

Around the Tuscan Table Carole M. Counihan, 2004-05-09 In this delicious book noted food scholar Carole M Counihan presents a compelling and artfully told narrative about family and food in late 20th century Florence Based on solid research Counihan examines how family and especially gender have changed in Florence since the end of World War II to the present giving us a portrait of the changing nature of modern life as exemplified through food and foodways

Aging in the Past David I. Kertzer, 2024-06-04 Thanks to improved food medicine and living conditions the average age of the population is increasing throughout the modern industrialized world Yet despite the recent upsurge of scholarly interest in the lives of older people and the blossoming of historical demography little historical demographic attention has been paid to the lives of the elderly A landmark volume *Aging in the Past* marks the emergence of the historical demographic study of aging Following a masterly explication of the new field by Peter Laslett leading scholars in family history and historical demography offer new research results and fresh analyses that greatly increase our understanding of aging historically and across cultures Focusing primarily on post Industrial Europe and the United States they explore a range of issues under the broad topics of living arrangements widowhood and retirement and mortality This important work provides a much needed historical perspective on and suggests possible alternative solutions to the problems of the aged Contributors George Alter Rudolf Andorka Allen C Goodman Myron P Gutmann Michael R Haines E A Hammel Tamara K Hareven Nancy Karweit David I Kertzer Peter Laslett Andrejs Plakans Roger L Ransom Daniel Scott Smith Richard Sutch Peter Uhlenberg Richard Wall Charles Wetherell This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to
