Everybody's Family Romance Gillian Harkins, 2009 In the 1990s a boom in autobiographical novels and memoirs about incest emerged making incest one of the hottest topics to connect daytime TV talk shows the self help industry and the literary publishing circuit In *Everybody's Family Romance* Gillian Harkins places this proliferation of incest literature at the center of transformations in the political and economic climate of the late twentieth century Harkins's interdisciplinary approach reveals how women's narratives about incest were co-opted by and yet retained resistant strains against the cultural logics of the neoliberal state Across chapters examining legal cases on recovered memory popular journalism and novels and memoirs by Dorothy Allison Carolivia Herron Kathryn Harrison and Sapphire Harkins demonstrates that incest narratives look backward into the past In these accounts images of incest forge links between U S chattel slavery and the distributive impasses of the welfare state and between decades distant childhoods and emergent memories of the present In contrast to recent claims that incest narratives eclipse broader frameworks of political and economic power Harkins argues that their emergence exposes changing structural relations between the family and the nation and in doing so transforms the analyses of American familial sexual violence

Kitchen Table Politics Stacie Taranto, 2017-03-16 Most histories of modern American politics tell a similar story that the Sunbelt with its business friendly environment right to work laws and fierce spirit of frontier individualism provided the seedbed for popular conservatism Stacie Taranto challenges this narrative by positioning New York State as a central battleground In 1970 under the governorship of Republican Nelson Rockefeller New York became one of the first states to legalize abortion By 1980 however conservative antifeminist Republicans with broad suburban appeal symbolized by figures such as Ronald Reagan had usurped power from these so called Rockefeller Republicans What happened during the intervening decade In Kitchen Table Politics Taranto investigates the role that middle class mostly Catholic women played both in the development of conservatism in New York State and in the national shift toward a conservative politics of family values Far from Albany a short train ride away from the feminist activity in New York City white Catholic homemakers on Long Island and in surrounding suburban counties saw the legalization of abortion in the state in 1970 as a threat to their hard won version of the American dream Borrowing tactics from church groups and parent teacher associations these women created the New York State Right to Life Party and organized against several feminist initiatives including defeating an effort to add an Equal Rights Amendment to the state constitution in 1975 These self described average housewives Taranto argues were more than just conservative shock troops instead they were inventing a new politically viable conservatism centered on the heterosexual traditional nuclear family that the GOP's right wing used to broaden its electoral base Figures such as activist Phyllis Schlafly New York senator Al D Amato and presidential hopeful Ronald Reagan viewed the Right to Life Party's activism as offering a viable model to defeat feminist initiatives and win family values votes nationwide Taranto gathers archival evidence and oral histories to piece together the story of these homemakers whose grassroots organizing would shape the course of modern American conservatism

Model Mother? Family Policy and Childrearing in Post-Devolution Scotland Tania Wood, 2014-03-17 This book explores childrearing approach as one of the prime sites of the reproduction of social inequality During the latter half of the 2000s UK and Scottish government policy placed increasing emphasis on the importance of parenting and the early years as factors likely to have an impact on health education and employment outcomes Between 2005 and 2008 the timeframe considered by this study a number of policy initiatives emerged which were intended to support better parenting This book argues that

what was presented as a model of good parenting was in essence a model of middle class parenting which misunderstood and devalued other parenting approaches In this study Lareau s typology of childrearing approach is used as a means of situating the UK parenting policy discourse within a broader theoretical context and assessing critically the extent to which this policy discourse reflects childrearing approaches in Scotland The book concludes that family policy between 2005 and 2008 did not fully reflect the variety of childrearing approaches in Scotland and that mothers whose circumstances and childrearing approach diverged from the policy model may not have been adequately supported
