Family Trusts - Revised and Updated Martin Hawes, 2012-05-01 Over 100 000 copies sold and the one book all family trust managers and members should own Family trusts are as popular today as ever A family trust offers you the benefits use and control of your assets and doesn't penalise you for owning them Clear and straight forward and aimed at the layperson Family Trusts includes up to date advice by New Zealand's leading financial writer with real life examples and answers to commonly asked questions throughout It has sold well over 100 000 copies since it was first published and is an essential book for anyone curious about family trusts whether they are self employed a business owner a wage and salary earner or retired In my experience 75 per cent of family trusts in New Zealand are so badly arranged or managed that they could easily be attacked and overturned in court managing a trust badly is a bit like insuring the contents of your house but then going on holiday and leaving the doors wide open says Martin Hawes This seventh revised edition includes a section on effective management of your trust many people manage their trusts as if the assets in the trust were still their own and keep poor records of the trust's transactions Inadequate management can lead to accusations that the trust is a sham Drawing on his vast experience Martin Hawes explains how to keep correct records and minutes and to manage your trust so that it is resilient in the face of a challenge

Wealth and New Zealand Max Rashbrooke, 2015-11-09 We are heading towards Thomas Piketty's predicted steady state of wealth being worth six times national income We are not immune to his prognosis of a return to Victorian style levels of inequality The most recent NBR Rich List has revealed the biggest proportional increase in wealth since the list first appeared in 1986 But what do these figures mean and what else do we know about New Zealand's fortunes Following his groundbreaking work on income inequality Max Rashbrooke examines how wealth shapes our experience Drawing on previously unpublished data he explores what constitutes wealth in New Zealand where how and why it is held In doing so he addresses how wealth has come to be so unevenly distributed and why this imbalance is something we can no longer ignore

Trusts Mark Maxwell, 2007 This is a book for anyone considering setting up a family or business trust or who has already gone down this path and also for those people who may be operating as trustees for someone else Collectively this makes up a fairly large percentage of the population and is no longer only limited to old and exceptionally wealthy families either Every page on this book highlights another caution for the unwary as to what could potentially be their own financial can of worms one day should their trust ever be challenged by beneficiaries or Inland Revenue Mark Maxwell has developed an educational approach designed to share his wealth of knowledge about an area that is continuing to grow rapidly and in his opinion needs to become highly specialised in by professional advisors You'll enjoy checking your own lists of things to do and talking to your professional financial and legal advisors about with the use of checklists and summaries at the end of each chapter This book is not only incredibly valuable in terms of understanding the jargon and responsibilities for trusts and trustees but also for those who wish to review an existing trust and other aspects of
