The Family, Women and Death S.C. Humphreys, 2023-10-01 Originally published in 1983 and as a second edition in 1993 this book deals with 3 universal but culturally variable phenomena the family women and death The book poses questions about our own ways of looking at the family and private life at sex and gender and at death by analysing ancient Greek ideas and by showing how researchers presuppositions have been influenced by their own culture and experience The views of Fustel de Coulanges on the place of tomb cult in the evolution of the family in the ancient world are critically examined and related to their 19th Century context the study of the classical Athenian family is related to current historical and sociological debates on the separation between public and private life *The Family, Women and Death* Sarah C. Fiction on the Fringe Grammatiki A. Karla, 2009 This collection of essays offers a comprehensive examination of texts that traditionally have been excluded from the main corpus of the ancient Greek novel and confined to the margins of the genre such as the Life of Aesop the Life of Alexander the Great and the Acts of the Christian Martyrs Through comparison and contrast intertextual analysis and close examination the boundaries of the dichotomy between the fringe vs the canonical or erotic novel are explored and so the generic identity of the texts in each group is more clearly outlined The collective outcome brings the fringe from the periphery of scholarly research to the centre of critical attention and provides methodological tools for the exploration of other fringe texts

Passion and Order Carol Lansing, 2018-07-05 The way in which a society expresses grief can reveal how it views both intense emotions and public order In thirteenth century Italian communes a conscious effort to change appropriate public reaction to death threw into sharp relief connections among urban politics gender expectations and understandings of emotionality In *Passion and Order* Carol Lansing explores a dramatic change in thinking and practice about emotional restraint This shift was driven by politics and understood in terms of gender Thirteenth century court cases reveal that male elites were accustomed to mourning loudly and demonstratively at funerals As many as a hundred men might gather in a town's streets and squares to weep and cry out even tear at their beards and clothing Yet these elites enacted laws against such emotional display and proceeded to pay the fines levied against themselves for violating their own legislation Political theorists used gender norms to urge men to restrain their passions histrionic grieving like lust was now considered womanish Lawmakers drew on a complex of gendered ideas about grief and public order to characterize governance in ways that linked the self and the state They articulated their beliefs in terms of rules of decorum how men and women need to behave in order to live together in society Lansing demonstrates this change through a rich combination of sources archival records from Orvieto Bologna and Perugia political treatises literary works notably Petrarch's letters and representations of grief in painting and sculpture
