Famine Inquiry Commission,1898 *The Ascendancy of the Congress in Uttar Pradesh* Gyanendra Pandey,2002-07-01 A revised edition of the classic monograph *The Ascendancy of the Congress in Uttar Pradesh* investigates the social contradictions class forces and efforts at political organization and mobilization that lay behind the emergence of a powerful nationalist movement in Uttar Pradesh in the late 1920s and early 1930s It also considers the concurrent emergence of Hindu Muslim differences as a major factor affecting nationalist politics and the anti colonial struggle in India *Select List of Recent Publications* East-West Center. Library,1969 **Merchant Shipping and the Demands of War** Catherine Betty Abigail Behrens,1955 Tells what was required of the British ships in various phases of the war how they met them and the costs involved **Hungry Nation** Benjamin Robert Siegel,2018-04-26 This ambitious and engaging new account of independent India s struggle to overcome famine and malnutrition in the twentieth century traces Indian nation building through the voices of politicians planners and citizens Siegel explains the historical origins of contemporary India s hunger and malnutrition epidemic showing how food and sustenance moved to the center of nationalist thought in the final years of colonial rule Independent India s politicians made promises of sustenance and then qualified them by asking citizens to share the burden of feeding a new and hungry state Foregrounding debates over land markets and new technologies *Hungry Nation* interrogates how citizens and politicians contested the meanings of nation building and citizenship through food and how these contestations receded in the wake of the Green Revolution Drawing upon meticulous archival research this is the story of how Indians challenged meanings of welfare and citizenship across class caste region and gender in a new nation state *A Cultural History of Famine* Ayesha Mukherjee,2019-01-15 The term food security does not immediately signal research done in humanities disciplines It refers to a complex contested issue whose currency and significance are hardly debatable given present concerns about environmental change resource management and sustainability The subject is thus largely studied within science and social science disciplines in current or very recent historical contexts This book brings together perspectives on food security and related environmental concerns from experts in the disciplines of literary studies history science and social sciences It allows readers to compare past and contemporary attitudes towards the issues in India and Britain the economic social and environmental histories of these two nations have been closely connected ever since British travellers began to visit India in the latter half of the sixteenth century The chapters in this book discuss themes such as climate harvest failure trade technological improvements transport networks

charity measures and popular protest which affected food security in both countries from the seventeenth century onwards. The authors cover a range of disciplinary and interdisciplinary approaches and their chapters allow readers to understand and compare different methodologies as well as different contexts of time and place relevant to the topic. This book will be of great interest to students and researchers of economic and social history, environmental history, literary studies and South Asian studies.

Indian Annual Register, 1945 *'How Best Do We Survive?'* Kenneth McPherson, 2012-12-06. This book traces the social and political history of the Muslims of south India from the later nineteenth century to Independence in 1947 and the contours that followed. It describes a community in search of political survival amidst an ever changing climate and the fluctuating fortunes it had in dealing with the rise of Indian nationalism, the local political nuances of that rise and its own changing position as part of the wider Muslim community in India. The book argues that Partition and the foundation of Pakistan in 1947 were neither the goal nor the necessarily inescapable result of the growth of communal politics and sentiment and analyses the post 1947 constructions of events leading to Partition. Neither the fact of Muslim communalism per se before 1947 nor the existence of separate Muslim electorates provide an explanation for Pakistan. The book advances the theory that micro level studies of the operation of the former and the defence of the latter in British India can lead to a better understanding of the origins of communalism. The book makes an important contribution to understanding and dealing with the complexities of communalism be it Hindu, Muslim or Christian and its often tragic consequences.

Science, War and Imperialism Jagdish Sinha, 2008-05-31. Why could not the Second World War catalyse science in India as it did in the West? This is one of the central questions of this volume on the British policy towards science and technology in India. Its focus is on education, research, innovation and organisation of science in such sectors as industry, agriculture, public health and transport and communications. In the process, the author comes across revealing developments where science played a crucial role: an Anglo-American tussle for dominance in the region, the clash between capitalism and socialism and the entry of neo-colonialism triggering Cold War in Asia. Many faces of humanity and science are on view. British scientists concerned about India's development and Indian scientists planning for national reconstruction. Of interest to all those aiming for a better understanding of the impact of science, war and international influences on the socio-economic progress in India or other erstwhile colonies.

The Garrison State Tan Tai Yong, 2005-05. Following the Mutiny of 1857, various factors impelled the British to turn to the province of Punjab in north-western India as the principal recruiting ground for the Indian Army. This book examines the processes by which the politics and political economy of colonial Punjab was militarised by the province's position as the sword arm of the Raj. The militarisation of the administration in the Punjab was characterised by a conjunction of the military, civil and political authorities. This led to the emergence of a uniquely civil-military regime, a phenomenon that was not replicated anywhere else in British India, indeed in the Empire. Analysing these events, this book studies the manner in which the Punjab became the main recruiting ground for the Indian Army. Looks at how certain

districts were selected for military recruitment and the factors motivating the military classes among the Punjabis to join the Army Discusses the effects of the First World War on the recruitment process in the Punjab Highlights the role the civil military regime played in the politics of the Punjab its survival after the Second World War and the manner in which it handled the demand for Pakistan and the subsequent partitioning of the province **Indian Economy** Bimal Jalan,2004-09-22 The Indian Economy Problems and Prospects first published in 1992 looks at the country s economy and the resolved fiscal crisis from a historical perspective Edited and updated with a new Introduction by Bimal Jalan the book retains the thirteen essays written by eminent economic thinkers in 1991 and 1992 in their original form as they provide a comprehensive overview of India s economic development since Independence and answer questions on key economic issues that are as relevant today as they were at that time Bipan Chandra conducts a historical survey of fiscal developments during the colonial period the late V M Dandekar evaluates India s economic performance from 1950 to 1990 and Rakesh Mohan traces the history of industrial controls from the pre independence era Also included are essays by C H Hanumantha Rao C Rangarajan and Narendra Jadhav Raja Chelliah Sudipto Mundle and M Govinda Rao Jyoti and Kirit Parikh Pravin Visaria T S Papola Pranab Bardhan and Kaushik Basu In his revised Introduction Bimal Jalan assesses the country s economic progress since 1991 examines crucial events and their relative significance Exploring diverse aspects of the Indian economy as well as the political institutional and legal implications of economic reforms these insightful and revelatory essays will be of enormous interest to experts and the general reader alike **Hunger** James Vernon,2009-06-30 Rigorously researched Hunger A Modern History draws together social cultural and political history to show us how we came to have a moral political and social responsibility toward the hungry Vernon forcefully reminds us how many perished from hunger in the empire and reveals how their history was intricately connected with the precarious achievements of the welfare state in Britain as well as with the development of international institutions committed to the conquest of world hunger A Local History of Global Capital Tariq Omar Ali,2018-05-15 Before the advent of synthetic fibers and cargo containers jute sacks were the preferred packaging material of global trade transporting the world s grain cotton sugar tobacco coffee wool guano and bacon Jute was the second most widely consumed fiber in the world after cotton While the sack circulated globally the plant was cultivated almost exclusively by peasant smallholders in a small corner of the world the Bengal delta This book examines how jute fibers entangled the delta s peasantry in the rhythms and vicissitudes of global capital Taking readers from the nineteenth century high noon of the British Raj to the early years of post partition Pakistan in the mid twentieth century Tariq Omar Ali traces how the global connections wrought by jute transformed every facet of peasant life practices of work leisure domesticity and sociality ideas and discourses of justice ethics piety and religiosity and political commitments and actions Ali examines how peasant life was structured and restructured with oscillations in global commodity markets as the nineteenth century period of peasant consumerism and prosperity gave way to debt and poverty in the twentieth century
