Imagining the Self Constructing the Past celebrates the various ways in which the Middle Ages and the Renaissance are adapted recollected and represented in our own day and age Most of the chapters fit broadly into one of three categories namely the representation of the self in medieval and early modern history and literature the recollection and utilization of the past in the Middle Ages and the Renaissance and the role of the medieval and the early modern in our own society Overall the contributions to this volume bear witness to the importance of representation to our understanding of ourselves each other and our shared past **The Religious Figural Imagery of Byzantine Lead Seals I** John A.

Cotsonis, 2020-03-17 The articles republished in this volume are ground breaking studies that employ a large body of religious figural imagery of Byzantine lead seals ranging from the 6th to the 15th century A number of the studies present tables charts and graphs in their analysis of iconographic trends and changing popularity of saintly figures over time And since many of the seals bear inscriptions that include the names titles or offices of their owners information often not given for the patrons of sacred images in other media these diminutive objects permit an investigation into the social use of sacred imagery through the various sectors of Byzantine culture the civil ecclesiastical and military administrations The religious figural imagery of the lead seals accompanied by their owners identifying inscriptions offers a means of investigating both the broader visual piety of the Byzantine world and the intimate realm of their owners personal devotions Other studies in this volume are devoted to rare or previously unknown sacred images that demonstrate the value of the iconography of Byzantine lead seals for Byzantine studies in general This volume includes studies dedicated to the image of Christ primarily found on imperial seals various images of the Virgin and narrative or Christological scenes A companion volume presents various articles focusing on sphragistic images of saints and on the religious imagery of Byzantine seals as a means of investigating the personal piety of seal owners as well as the wider realm of the visual piety and religious devotions of Byzantine culture at all levels CS1085 The Byzantine Neighbourhood Fotini Kondyli, Benjamin Anderson, 2021-10-28 The Byzantine Neighbourhood contributes to a new narrative regarding Byzantine cities through the adoption of a neighbourhood perspective It offers a multi disciplinary investigation of the spatial and social practices that produced Byzantine concepts of neighbourhood and afforded dynamic interactions between different actors elite and non elite Authors further consider

neighbourhoods as political entities examining how varieties of collectivity formed in Byzantine neighbourhoods translated into political action By both acknowledging the unique position of Constantinople and giving serious attention to the varieties of provincial experience the contributors consider regional factors social economic and political that formed the ties of local communities to the state and illuminate the mechanisms of empire Beyond its Byzantine focus this volume contributes to broader discussions of premodern urbanism by drawing attention to the spatial dimension of social life and highlighting the involvement of multiple agents in city making *Dionysius the Areopagite between Orthodoxy and Heresy* Filip

Ivanović,2011-09-22 *Dionysius the Areopagite between Orthodoxy and Heresy* aims to explore the thought of one of the most controversial characters of Christian history Dionysius the Areopagite and put it in a correct context between pagan namely Neoplatonic philosophy on the one side and Christian theology on the other In significant part the book examines Dionysius Neoplatonic sources but it also offers insights into the original points of his philosophy and theology thus showing how he managed to achieve a masterful integration of pagan thought and newly revealed faith The chapters of the book taken together try to offer a broad insight into the Areopagite s thought through examining not just his intellectual background and milieu but also some of the crucial features of his work such as notions of hierarchy deification apophatic and cataphatic theologies icon and others This work is of a multidisciplinary character since Dionysius thought has been studied from different points of view so the contributions range from philosophy and theology to history and art history *Dionysius the Areopagite between Orthodoxy and Heresy* is intended for both specialists and non specialists Apart from being a collection of specific studies it can also serve as an introduction to the Areopagite s thought and will be useful to all those interested in late antique and early Christian philosophy and theology patristics and cultural studies in general **God and**

**Enchantment of Place** David Brown,2004-10-14 David Brown argues for the importance of experience of God as mediated through place in all its variety He explores the various ways in which such experiences once formed an essential element in making religion integral to human life and argues for their reinstatement at the centre of theological discussions about the existence of God In effect the discussion continues the theme of Brown s two much praised earlier volumes *Tradition and Imagination* and *Discipleship and Imagination* in its advocacy of the need for Christian theology to take much more seriously its relationship with the various wider cultures in which it has been set In its challenge to conventional philosophy of religion the book will be of interest to theologians and philosophers and also to historians of art and culture generally Religious

Gschwandtner, 2019-10-01 What does it mean to experience and engage in religious ritual How does liturgy structure time and space How do our bodies move within liturgy and what impact does it have on our senses How does the experience of ritual affect us and shape our emotions or dispositions How is liturgy experienced as a communal event and how does it form the identity of those who participate in it *Welcoming Finitude* explores these broader questions about religious experience by focusing on the manifestation of liturgical experience in the Eastern Christian tradition Drawing on the methodological tools of contemporary phenomenology and on insights from liturgical theology the book constitutes a philosophical exploration of Orthodox liturgical experience

*Images, Iconoclasm, and the Carolingians* Thomas F. X. Noble, 2012-02-25 In the year 726 C E the Byzantine emperor Leo III issued an edict declaring images to be idols forbidden by Exodus and ordering all such images in churches to be destroyed Thus commenced the first wave of Byzantine iconoclasm which ran its violent course until 787 when the underlying issues were temporarily resolved at the Second Council of Nicaea In 815 a second great wave of iconoclasm was set off only to end in 842 when the icons were restored to the churches of the East and the iconoclasts excommunicated The iconoclast controversies have long been understood as marking major fissures between the Western and Eastern churches Thomas F X Noble reveals that the lines of division were not so clear It is traditionally maintained that the Carolingians in the 790s did not understand the basic issues involved in the Byzantine dispute Noble contends that there was in fact a significant Carolingian controversy about visual art and if its ties to Byzantine iconoclasm were tenuous they were also complex and deeply rooted in central concerns of the Carolingian court Furthermore he asserts that the

Carolingians made distinctive and original contributions to the whole debate over religious art Images Iconoclasm and the Carolingians is the first book to provide a comprehensive study of the Western response to Byzantine iconoclasm By comparing art texts with laws letters poems and other sources Noble reveals the power and magnitude of the key discourses of the Carolingian world during its most dynamic and creative decades *Making Senses of the Past* Jo Day,2013-03-19 Since the nineteenth century museums have kept their artifacts in glass cases to better preserve them and drawings and photographs have become standard ways of presenting the past These practices have led to an archaeology dominated by visual description even though human interaction with the surrounding world involves the whole body and all of its senses In the past few years sensory archaeology has become more prominent and *Making Senses of the Past* is one of the first collected volumes on this subject This book presents cutting edge research on new theoretical issues The essays presented here take readers on a multisensory journey around the world and across time In ancient Peru a site provides sensory surprises as voices resound beneath the ground and hidden carvings slowly reveal their secrets In Canada and New Zealand the flicker of reflected light from a lake dances on the faces of painted rocks and may have influenced when and why the pigment was applied In Mesopotamia vessels for foodstuffs build a picture of a past cuisine that encompasses taste and social activity in the building of communities While perfume and flowers are examined in various cultures in the chamber tombs of ancient Roman Palestine we are reminded that not all smells are pleasant *Making Senses of the Past* explores alternative ways to perceive past societies and offers a new way of wiring archaeology that incorporates the senses **"Architecture and Pilgrimage, 1000-1500"** Deborah Howard,2017-07-05 Although there is an obvious association between pilgrimage and place relatively little research has centred directly on the role of architecture *Architecture and Pilgrimage 1000-1500* Southern Europe and Beyond synthesizes the work of a distinguished international group of scholars It takes a broad view of architecture to include cities routes ritual topographies and human interaction with the natural environment as well as specific buildings and shrines and considers how these were perceived represented and remembered The essays explore both the ways in which the physical embodiment of pilgrimage cultures is shared and what we can learn from the differences The chosen period reflects the flowering of medieval and early modern pilgrimage The perspective is that of the pilgrim journeying within or embarking from Southern Europe with a particular emphasis on Italy The book pursues the connections between pilgrimage and architecture through the investigation of such issues as theology liturgy patronage miracles and healing relics and individual and communal memory Moreover it explores how pilgrimage may be regarded on various levels from a physical journey towards a holy site to a more symbolic and internalized idea of pilgrimage of the soul *Objects in Context, Objects in Use* Luke Lavan, Ellen Swift, Toon Putzeys,2008-03-31 This book promotes the study of material spatiality in late antiquity not just the study of buildings but of the people dress and objects used within them drawing on all available source material It seeks to explore the material world as it was lived in late antiquity in an interpretative inquiry rather than

simply describing the evidence that has survived until today The volume presents a series of comprehensive bibliographic essays which provide an overview of relevant literature along with discussions of the nature of the sources of relevant approaches and field methods The main section of the book explores domestic space vessels in context dress shops and workshops religious space and military space Synthetic papers drawing on a wide range of archaeological art historical and textual sources are complemented by case studies of context rich late antique sites in the East Mediterranean and elsewhere including Pella Dura Europos Scythopolis and Sagalassos

**Manipulating Theophany** Vladimir Ivanovici, 2016-07-25 Using light as fil rouge reuniting theology and ritual with the architecture decoration and iconography of cultic spaces the present study argues that the mise en scene of fifth century baptism and sixth century episcopal liturgy was meant to reproduce the luminous atmosphere of heaven Analysing the material culture of the two sacraments against common ritual expectations and Christian theology we evince the manner in which the luminous effect was reached through a combination of constructive techniques and perceptual manipulation One nocturnal and one diurnal the two ceremonials represented different scenarios testifying to the capacity of church builders and willingness of Late Antique bishops to stage the ritual experience in order to offer God to the senses

**Images of the Byzantine World** Angeliki Lymberopoulou, 2016-12-05 The main themes of this volume are the identification of visions messages and meanings in various facets of Byzantine culture and the possible differences in the perception of these visions messages and meanings as seen by their original audience and by modern scholars The volume addresses the methodological question of how far interpretations should go whether there is a tendency to read too much into too little or whether not enough attention is paid to apparent minutiae that may have been important in their historical context As the essays span a wide chronological era they also present a means of assessing the relative degrees of continuity and change in Byzantine visions messages and meanings over time Thus as highlighted in the concluding section the book discusses the validity of existing notions regarding the fluidity of Byzantine culture when continuity was a matter of a rigid adherence to traditional values and when a manifestation of the ability to adapt old conventions to new circumstances and it shows that in some respects Byzantine cultural history may have been less fragmented than is usually assumed Similarly by reflecting not just on new interpretations but also on the process of interpreting itself the contributors demonstrate how research within Byzantine studies has evolved over the past thirty years from a set of narrowly defined individual disciplines into a broader exploration of interconnected cultural phenomena
