Practice, Vol. 1 Thomas Boston, *Postsecular Poetics* Rebekah Cumpsty, 2022-08-11 This book is the first full length study of the postsecular in African literatures Religion secularism and the intricate negotiations between the two codified in recent criticism as postsecularism are fundamental conditions of globalized modernity These concerns have been addressed in social science disciplines but they have largely been neglected in postcolonial and literary studies To remedy this oversight this monograph draws together four areas of study it brings debates in religious and postsecular studies to bear on African literatures and postcolonial studies The focus of this interdisciplinary study is to understand how postsecular negotiations manifest in postcolonial African settings and how they are represented and registered in fiction Through this focus this book

reveals how African and African diasporic authors radically disrupt the epistemological and ontological modalities of globalized literary production often characterized as secular and imagine alternatives which incorporate the sacred into a postsecular world
