Zeitlin,2020-10-26 Speaking about Chinese writing entails thinking about how writing speaks through various media In the guises of the written character and its imprints traces or ruins writing is more than textuality The goal of this volume is to consider the relationship of writing to materiality in China s literary history and to ponder the physical aspects of the production and circulation of writing To speak of the thing ness of writing is to understand it as a thing in constant motion transported from one place or time to another one genre or medium to another one person or public to another Thinking

about writing as the material product of a culture shifts the emphasis from the author as the creator and ultimate arbiter of a text's meaning to the editors/publishers/collectors and readers through whose hands a text is reshaped, disseminated and given new meanings. By yoking writing and materiality, the contributors to this volume aim to bypass the tendency to oppose form and content, words and things, documents and artifacts, to rethink key issues in the interpretation of Chinese literary and visual culture.
