Heavenly Serbia From Myth To Genocide:

Heavenly Serbia Branimir Anzulovic, 1999-03 As violence and turmoil continue to define the former Yugoslavia basic questions remain unanswered What are the forces behind the Serbian expansionist drive that has brought death and destruction to Croatia Bosnia and Herzegovina and Kosovo How did the Serbs rationalize and rally support for this genocidal activity Heavenly Serbia traces Serbia's nationalist and expansionist impulses to the legendary battle of Kosovo in 1389 Anzulovic shows how the myth of Heavenly Serbia developed to help the Serbs endure foreign domination explaining their military defeat and the loss of their medieval state by emphasizing their own moral superiority over military victory Heavenly Serbia shows how this myth resulted in an aggressive nationalist ideology which has triumphed in the late twentieth century and marginalized those Serbs who strive for the establishment of a civil society Modern Serbian nationalism and its contradictory connections have been sources of considerable scholarly interest Branimir Anzulovic's compendium is a good example of the genre made all the more useful by Anzulovic's excellent command of the literature Ivo Banac History of Religions Author interview with CNN http://www.cnn.com/chat/transcripts/branimir_chat.html Denial: The Final Stage of Genocide? John Cox, Amal Khoury, Sarah Minslow, 2021-09-21 Genocide denial not only abuses history and insults the victims but paves the way for future atrocities Yet few if any books have offered a comparative overview and analysis of this problem Denial The Final Stage of Genocide is a resource for understanding and countering denial Denial spans a broad geographic and thematic range in its explorations of varied forms of denial which is embedded in each stage of genocide Ranging far beyond the most well known cases of denial this book offers original pathbreaking arguments and contributions regarding competition over commemoration and public memory in Ukraine and elsewhere transitional justice in post conflict societies global violence against transgender people which genocide scholars have not adequately confronted music as a means to recapture history and combat denial public education's role in erasing Indigenous history and promoting settler colonial ideology in the United States triumphalism as a new variant of denial following the Bosnian Genocide denial vis vis Rwanda and neighboring Congo DRC With contributions from leading genocide experts as well as emerging scholars this book will be of interest to scholars and students of history genocide studies anthropology political science international law gender studies and human rights *Why the Nations Rage* Christopher Catherwood, 2002 This thoughtful book explores much of the background to the strife the globe faces today In particular Christopher Catherwood shows how religion and national pride which are supposed to be positive forces can become perverted ideologies that arouse hatred slaughter and war

Annihilation Mark Levene, 2013-12-19 From the years leading up to the First World War to the aftermath of the Second Europe experienced an era of genocide As well as the Holocaust this period also witnessed the Armenian genocide in 1915 mass killings in Bolshevik and Stalinist Russia and a host of further ethnic cleansings in Anatolia the Balkans and Eastern Europe Crisis of Genocide seeks to integrate these genocidal events into a single coherent history Over two volumes Mark

Levene demonstrates how the relationship between geography nation and power came to play a key role in the emergence of genocide in a collapsed or collapsing European imperial zone the Rimlands and how the continuing geopolitical contest for control of these Eastern European or near European regions destabilised relationships between diverse and multifaceted ethnic communities who traditionally had lived side by side An emergent pattern of toxicity can also be seen in the struggles for regional dominance as pursued by post imperial states nation states and would be states Volume II Annihilation covers the period from 1939 to 1953 particularly focussing on the Second World War and its aftermath the Holocaust and its lasting impact and the latter part of the Stalinist regime Levene demonstrates that while the attempted Nazi mass murder of the entirety of European Jewry represents the most thoroughgoing and extreme consequence of efforts aimed at political and social reformulation of the Rimlands arena in particular the accumulation and concentration of genocidal violence against many minority groups would suggest that anti Semitism or racism alone is insufficient to provide a comprehensive explanation for genocide

Savagery in the Heart of Europe Raphael Israeli, Albert Benabou, 2013 One of the most tragic and cruel periods in modern European history unfolded in the early 1990s as we watched the

rampages committed by all parties in the Bosnian War The Serbs who were in control of the destiny of Yugoslavia and were the mainstay of the Yugoslav army gradually lost their grip as international intervention favored the independence of Bosnia The flames of war pitting the three populations against each other brought about the deaths of hundreds of thousands and ended with the imposed Dayton Accords with which the parties were not entirely content The war showed not only that old enmities never die for all parties saw this war as a continuation of World War II horrors when the Croats and their Bosnian partners collaborated with the Nazis but also as a heritage of the old Balkan wars where outside intervention notably Muslim American NATO and UN was necessary to bring the conflict to an end for now Born in Fes Morocco Raphael Israeli teaches Islamic Chinese and Middle Eastern history at Hebrew University Jerusalem He is a graduate of Hebrew University in history and Arabic literature and has a Ph D in Chinese and Islamic history from the University of California Berkeley

have marched on Rome after his momentous victory at Cannae whether the United States was justified in using the atomic bomb in Japan whether Adolf Hitler was primarily responsible for the Holocaust and whether torturing prisoners during the War on Terror is warranted among many other historical military debates *The Walls Came Tumbling Down* Gale Stokes, 2012 Gale Stokes *The Walls Came Tumbling Down* offered one of the most respected interpretations of the East European revolutions of 1989 for many years It provides a sweeping yet vivid narrative of the two decades of developments that led from the Prague Spring of 1968 to the collapse of communism in 1989 Highlights of that narrative include among other things discussions of Solidarity and civil society in Poland Charter 77 and the Velvet Revolution in Czechoslovakia and the bizarre regime of Romania's Nicolae Ceaușescu and his violent downfall In this second edition now appropriately subtitled *Collapse and Rebirth in Eastern Europe* Stokes not only has revised these portions of the book in the light of recent scholarship but has added three new chapters covering the post communist period including analyses of the unification of Germany and the collapse of the Soviet Union narratives of the admission of many of the countries of the region to the European Union and discussion of the unfortunate outcomes of the Wars of Yugoslav Succession in the Western Balkans

Identity, Ontological Security and Europeanisation in Republika Srpska Faris Kočan, 2023-11-15 This book discusses the impact of the process of accession to the European Union EU i.e. Europeanisation on the formulation of the ethnic identity of Bosnian Serbs and the political identity of Republika Srpska RS in Bosnia and Herzegovina BiH The centrepiece of the book is an examination of how it is possible that the expected effect of Europeanisation on ethnic identities in a post conflict environment a transformation of ethnic identities through desecuritisation does not materialise in the case of BiH and the RS The book starts from the assumption that the political elite in the RS uses Europeanisation as a context for the securitization

of two sources of threats the internal and external Other This prevents the transformation of ethnic identities in BiH and as a result also the desecuritisation of antagonisms among the ethnic groups of BiH The results show that any attempt at a more active engagement by the EU and international community was interpreted by the RS political elite as Bosniak agenda aimed against the RS In this respect the book demonstrates that BiH s EU accession process or a clearer EU perspective alone in scrutinized critical junctures did not outweigh the potential costs for the RS political elite if reforms aimed at creating a more functional BiH were to succeed In all three analysed critical junctures the political elite in RS presented motions for a more functional BiH as attempts to centralise the country and framed them as the beginning of the end for the RS as a political entity

The Modern Origins of the Early Middle Ages Ian Wood, 2013-09-27 The Early Middle Ages which marked the end of the Roman Empire and the creation of the kingdoms of Western Europe was a period central to the formation of modern Europe This period has often been drawn into a series of discourses that are more concerned with the eighteenth nineteenth and twentieth centuries than with the distant past In *The Modern Origins of the Early Middle Ages* Ian Wood explores how Western Europeans have looked back to the Middle Ages to discover their origins and the origins of their society Using historical records and writings about the Fall of Rome and the Early Middle Ages Wood reveals how these influenced modern Europe and the way in which the continent thought about itself He asks and answers the important question why is early medieval history or indeed any pre modern history important This volume promises to add to the debate on the significance of medieval history in the modern world

The ^AMilosevic Trial Timothy William Waters, 2013-12-09 The international trial of Slobodan Milo evi who presided over the violent collapse of Yugoslavia was already among the longest war crimes trials when Milo evi died in 2006 Yet precisely because it ended without judgment its significance and legacy are specially contested The contributors to this volume including trial participants area specialists and international law scholars bring a variety of perspectives as they examine the meaning of the trial s termination and its implications for post conflict justice The book s approach is intensively cross disciplinary weighing the implications for law politics and society that modern war crimes trials create

Realm of the Black Mountain Elizabeth Roberts, 2024-10-24 Montenegro was admitted to the UN as its 192nd member in June 2006 thus recovering the independence it had lost nearly ninety years earlier at the Versailles Peace Conference This is the first full length history of the country in English for a century tracing the history of the tiny Balkan state from its earliest roots in the medieval empire of Zeta through its consistently ambiguous and frequently problematic relationship with its larger neighbour Serbia the emergence of a priest warrior ruler in the shape of the Vladika and its emergence from Ottoman suzerainty at the Congress of Berlin In more recent history the book focuses on Montenegro s troubled twentieth century its prominent role in the Balkan wars its unique deletion from world maps as an independent state despite being on the winning side in the Great War its ignominious role in the wars leading to the disintegration of Yugoslavia and its final reemergence as a member of the international community on the anniversary of the

Battle of Kosovo in 2006 Since independence Montenegro has grappled with the question of Euro Atlantic integration including membership of NATO achieved and the EU applicant Even as it has fought to define its identity it has gone from being one of the poorest nations in the Western Balkans to having the highest per capita income of the region It successfully navigated democratic transition in 2020

Clausewitz's Timeless Trinity Colin M. Fleming, 2016-05-23 This is the first book to apply the Clausewitzian Trinity of passion chance and reason to the experience of real war It explores the depth and validity of the concept against the conflicts of former Yugoslavia wars thought to epitomise a post Clausewitzian age In doing so it demonstrates the timeless message of the Trinity but also ties the Trinitarian idea back into Clausewitz's political argument Intended to build on the existing corpus of scholarship this book differs from the existing literature in two ways By applying the Trinity to the wars of former Yugoslavia 1991-1995 it explores war at its micro foundations assessing the complex cause and effect nexus of reciprocity produced by actions between belligerents embroiled in dynamic competition perpetuated by their own interaction Providing valuable insights into the complexities of real war fuelled by passion undermined by chance and shaped by reason it is the first study to bridge the Clausewitzian world of theory with real experience Examining each part of the triad separately the book explores the multiple manifestations of hostility and chance before then assessing the influence of these elements on the policies of the belligerents as the war evolved

The Unknown Europe James R. Payton, 2021-11-03 The fascinating history of Eastern Europe includes highs of soaring cultural achievement and lows of almost unimaginable repression But we in the West don't know much about Eastern Europe or its history this book helps us see why We got interested when the region became a threat during the Cold War but what we learned focused on the Communist period after World War II not Eastern Europe itself or its deep history a history that continues to live in the hearts of its peoples James Payton offers an accessible treatment of the history of the region an opportunity to learn about Eastern Europeans as they are He overviews that story from pre history to the present examining eleven turning points that profoundly shaped Eastern European history His treatment considers the backgrounds to the turning points the events and the long lasting impacts they had for the various Eastern European nations This helps us understand how Eastern Europeans themselves see their history the long haul over the centuries with the influence and impact of events of the sometimes distant past shaping how they see themselves their neighbors and their place in the world
