Hebdomeros A Novel:

Hebdomeros: A Novel Giorgio de Chirico, 2025-05-13 This seminal 1929 surrealist novel by the painter Giorgio de Chirico merges the realms of dream and reality In the artist's only novel de Chirico invites the reader into a world where language time space and meaning are fluid highlighting themes of mystery myth and the uncanny Following the titular character Hebdomeros as he embarks on a series of philosophical musings and bizarre experiences divorced from a specific place or time Hebdomeros embraces ambiguity in a profound exploration of the subconscious mind Highly visual passages evoke the landscapes and compositions of de Chirico's metaphysical paintings and non sequiturs mirror the freedom that Surrealism allowed for in art of all categories An introduction by the scholar Fabio Benzi contextualizes de Chirico's work within a broader modernist framework highlighting its influence on surrealism and its resonance with the literary and artistic movements of the early twentieth century

Hebdomeros Giorgio de Chirico, 1966 *A History of the Surrealist Novel* Anna Watz, 2023-02-16 A History of the Surrealist Novel offers a rich long and elastic historiography of the surrealist novel taking into consideration an abundance of texts previously left out of critical accounts Its twenty thematically organized chapters examine surrealist prose texts written in French English Spanish German Greek and Japanese from the emergence of the surrealist movement in the 1920s and 1930s through the post war and postmodern periods and up to the contemporary moment This approach extends received narratives regarding surrealism's geographical locations and considers its transnational movement and modes of circulation Moreover it challenges critical biases that have defined surrealism in predominantly masculine terms and which tie the movement to the interwar or early post war years This book will appeal both to scholars and students of surrealism and its legacies modernist literature and the history of the novel

Consumerism, Waste, and Re-Use in Twentieth-Century Fiction Rachele Dini, 2016-10-21 This book examines manufactured waste and remaindered humans in literary critiques of capitalism by twentieth century writers associated with the historical avant garde and their descendants Building on recent work in new materialism and waste studies Rachele Dini reads waste as a process or phase amenable to interruption From an initial exploration of waste and re use in three Surrealist texts by Giorgio de Chirico Andr Breton and Mina Loy Dini traces the conceptualization of waste in the writing of Samuel Beckett Donald Barthelme J G Ballard William Gaddis and Don DeLillo In exploring the relationship between waste capitalism and literary experimentation this book shows that the legacy of the historical avant garde is bound up with an enduring faith in the radical potential of waste The first study to focus specifically on waste in the twentieth century imagination this is a valuable contribution to the expanding field of waste studies

Hebdomeros: a Novel; Translated from the French and with an Introduction by Margaret Crosland; with Drawings by the Author Giorgio De Chirico, 1964 John Ashbery and American Poetry David Herd, 2024-07-30 David Herd sets out to provide readers with a new critical language through which they can appreciate the beauty and complexity of Ashbery's writing Presenting the poet in all his forms avant

garde nostalgic sublime and camp the book argues that the perpetual inventiveness of Ashbery's work has always been underpinned by the poet's desire to write the poem fit to cope with its occasion Tracing Ashbery's development in the light of this idea and from its origins in the dazzling artistic environment of 1950's New York the book evaluates his poetry against the aesthetic literary and historical backgrounds that have informed it The story of a brilliant career and a history of the period in which that career has taken shape John Ashbery and American Poetry provides a compelling account of Ashbery's importance to Twentieth Century Literature Hebdomeros Giorgio De Chirico, 1968 *Untheories of Fiction* Mark Axelrod-Sokolov, 2021-01-20 This book takes a closer look at the diversity of fiction writing from Diderot to Markson and by so doing call into question the notion of a singular theory of fiction especially in relation to the novel Unlike Forster's approach to Aspects of the Novel which implied there is only one kind of novel to which there may be an aspect this book deconstructs how one approach to studying something as protean as the novel cannot be accomplished To that end the text uses Diderot's This Is Not A Story 1772 and David Markson's This Is Not A Novel 2016 as a frame and imbedded within are essays on De Maistre's Voyage Around My Room 1829 Machado de Assis's Posthumous Memoirs Of Braz Cubas 1881 Andr Breton's Nadja 1928 and Elizabeth Smart's By Grand Central Station I Sat Down And Wept 1945 **Hebdomeros** Giorgio De Chirico, 1992 Set in the tense and uncertain years before the Second World War when America was still largely conflicted about entering the war on either side Andrew Rosenheim's thriller Fear Itself offers a rich depiction of history as it was and as it might have been Jimmy Nessheim a young Special Agent in the fledgling FBI is assigned to infiltrate a new German American organization known as the Bund Ardently pro Nazi the Bund is conspiring to sabotage American efforts against Adolf Hitler But as Nessheim's investigation takes him into the very heart of the Bund it becomes increasingly clear that something far more sinister is at work something that seems to lead directly to the White House Drawn into the center of Washington's high society Nessheim finds himself caught up in a web of political intrigue and secret lives But as he moves closer to the truth an even more lethal plot emerges one that could rewrite history With sharp wit and a keen eye for period details Rosenheim fully immerses the reader in Depression era America He seamlessly weaves into the narrative larger than life figures such as J Edgar Hoover Clyde Tolson and Lucy Mercer Rutherford as well as historical events like the 1939 pro Nazi rally held at New York City's Madison Square Garden The first in a series chronicling Agent Nessheim's adventures throughout the war Fear Itself establishes Andrew Rosenheim as a spectacular new talent *The Case of Giorgio de Chirico* Jerry Caruana, 2007 A scholarly and well researched text presenting two essays intended to clarify de Chirico's life and its many ups and downs Filled with thoughtful analysis and thought provoking sentiments The Case of Giorgio de Chirico will provide art lovers with new insights and answers on this enigmatic artist and his career **Selected Prose** John Ashbery, 2005 Fifty years of writing on literature film and art by one of the most influential poets and critics of our time *The Screen in Surrealist Art and Thought* Haim Finkelstein, 2017-07-05 An interrogation of the notion of space in

Surrealist theory and philosophy this study analyzes the manifestations of space in the paintings and writings done in the framework of the Surrealist Movement Haim Finkelstein introduces the screen as an important spatial paradigm that clarifies and extends the understanding of Surrealism as it unfolds in the 1920s exploring the screen and layered depth as fundamental structuring principles associated with the representation of the mental space and of the internal processes that eventually came to be linked with the Surrealist concept of psychic automatism Extending the discussion of the concepts at stake for Surrealist visual art into the context of film literature and criticism this study sheds new light on the way film thinking permeates Surrealist thought and aesthetics In early chapters Finkelstein looks at the concept of the screen as emblematic of a strand of spatial apprehension that informs the work of young writers in the 1920s such as Robert Desnos and Louis Aragon He goes on to explore the way the spatial character of the serial films of Louis Feuillade intimated to the Surrealists a related mode of vision associated with perception of the mystery and the Marvelous lurking behind the surfaces of quotidian reality The dialectics informing Surrealist thought with regard to the surfaces of the real with walls doors and windows as controlling images are shown to be at the basis of Andr   Breton's notion of the picture as a window Contrary to the traditional sense of this metaphor Breton's window is informed by the screen paradigm with its surface serving as a locus of a dialectics of transparency and opacity permeability and reflectivity The main aesthetic and conceptual issues that come up in the consideration of Breton's window metaphor lay the groundwork for an analysis of the work of Giorgio de Chirico Ren   Magritte Max Ernst Andr   Breton and Joan Mir he concluding chapter considers J.G. Ballard ,2016-07-18 An innovative volume of interdisciplinary essays on the significant British writer J G Ballard 1930 2009 exploring the physical cultural and intertextual landscapes in several key novels with a central focus on The Atrocity Exhibition 1970 one of the most challenging texts in contemporary literature Contributors include established critics of Ballard alongside newcomers Different spatial concepts underpin the essays from the landscapes of Ballard's youth in Shanghai and his life in suburban London to nuclear testing spaces and outer space exploration Figurative locations typical of Ballard's work are explored including the beach the motorway the high rise and the shopping mall Textual spaces are explored through Ballard's affiliation with modernist literary forms including surrealist prose writing and collage and poetic romanticism **The Rise of Surrealism** Willard Bohn,2012-02-01 In The Rise of Surrealism Willard Bohn examines the various literary and artistic developments that prepared the way for the international Surrealist movement including Cubism Metaphysical Art and Dada as well as the triumph of Surrealism itself In an analysis that spans the first two thirds of the twentieth century Bohn surveys writers and artists from France Italy Germany Spain Argentina Mexico Chile and the United States examining both their aversion to mimesis and the solutions they devised to replace it Much of the book is concerned with competing artistic models and with different strategies for creating avant garde works and focuses on such figures as Guillaume Apollinaire Max Weber Marius de Zayas Francis Picabia Giorgio de Chirico Andr   Breton J V Foix and Joan Mir The dynamics of the imagery that painters and

poets chose to employ and the new roles this imagery assumed in their compositions are also discussed

Ariosto in the Machine Age Alessandro Giammei, 2023-11-01 Ariosto in the Machine Age reveals how the most influential poet of the Renaissance was conjured or appropriated to shape Magical Realism avant garde painting Fascist cultural propaganda and cinema in modern Italy between the birth of Futurism and the end of the Second World War Based on substantial archival findings bold iconographic hypotheses and novel interpretations of literary texts the book proposes a new account of Italy's twentieth century culture through a unique take on Ludovico Ariosto's early modern poetics and legacy Starting from the unexpected passivism of Futurists visiting Ferrara on the eve of the First World War it rereads the development of Giorgio de Chirico's Metaphysical art and Massimo Bontempelli's Realismo Magico The book reconstructs the multimedia archive of the Fascist initiatives for the 1933 centennial anniversary of Ariosto's death and then focuses on the passage between Fascist cinema and the birth of neorealism unearthing unfinished adaptations of the Orlando Furioso by Luchino Visconti and Alessandro Blasetti Questioning the very concept of reception this radically interdisciplinary book warns twenty first century readers about the risks of monumentalizing the great authors of the past

Psychoanalytic Perspectives on Art, V. 3 Mary M. Gedo, 2013-05-13 This new hardcover annual offers a unique scholarly format an interdisciplinary dialogue that it is hoped will foster the development of a sound useful methodology for applying psychoanalytic insight to art and artists The series provides a medium for those who study art those who interpret it and occasionally those who create it formally to explore the meaning of an artistic work as the direct reflection of the inner world of its creator Within each volume individual topics are addressed by either an art historian or a psychoanalyst with a response frequently tendered by an expert from the other field Reviews of important books of cross disciplinary interest are treated in a similar manner and include rebuttals by the authors themselves It is precisely this exchange of ideas among scholars with difference perspectives on the meaning of a work of art that sets PPA apart from the standard art history publication Its depth of scholarship coupled with its innovative format make it a fascinating addition to the burgeoning field of psychoanalytic studies of art history

Revisiting Loss Wojciech Drąg, 2014-07-03 Loss is the core experience which determines the identity of Kazuo Ishiguro's narrators and shapes their subsequent lives Whether a traumatic ordeal an act of social degradation a failed relationship or a loss of home the painful event serves as a sharp dividing line between the earlier meaningful past and the period afterwards which is infused with a sense of lack dissatisfaction and nostalgia Ishiguro's narrators have been unable to confine their loss to the past and remain preoccupied by its legacy which ranges from suppressed guilt to a keen sense of failure or disappointment Their immersion in the past finds expression in the narratives which they weave in order to articulate justify or merely understand their experiences Their reconstructions of the past are interpreted as exercises in misremembering and self deception which enable them to sustain their illusions and save them from despair *Revisiting Loss* is the first book length study of memory encompassing

Ishiguro's entire novelistic output. It adopts a highly interdisciplinary approach combining a selection of philosophical (Jacques Derrida, Paul Ricoeur and Jean Starobinski) and psychological perspectives (Sigmund Freud, Frederic Bartlett, Jacques Lacan and Daniel L. Schacter). The book offers a thoroughly researched critical survey drawing on all published critical monographs and collections of academic articles on Ishiguro's work.

The Palgrave Encyclopedia of Urban Literary Studies by Jeremy Tambling, 2022-10-29. This encyclopaedia will be an indispensable resource and recourse for all who are thinking about cities and the urban and the relation of cities to literature and to ways of writing about cities. Covering a vast terrain, this work will include entries on theorists, individual writers, individual cities, countries, cities in relation to the arts, film and music, urban space, pre-early and modern cities, concepts and movements and definitions amongst others. Written by an international team of contributors, this will be the first resource of its kind to pull together such a comprehensive overview of the field.

Greece and the Balkans Δημήτρης Τζιόβας, 2003. *Greece and the Balkans* explores the cultural relationships between Greece and other Balkan countries in the domains of language, literature, thought, translation and music and examines issues of identity and perception among the Balkan peoples themselves. The essays bring together scholars from across a range of disciplines: historians, anthropologists, linguists and musicologists with specialists on literature, translation, the history of ideas and religion. By raising issues of cultural hybridity and nationalist or pre-nationalist interpretations of culture and history, it lays claim to a place in the context of studies on nationalism and post-colonialism. *Greece and the Balkans* also contributes to a recognition of the Balkans as a site like some postcolonial ones where identities have become fused, orientalism and eurocentrism blurred and where religion and modernity clashed and co-existed. By approaching cultural encounters between Greece and the Balkans from a fresh and informed perspective, it makes a substantial contribution to the study of a rather neglected aspect in the history of a region which has suffered in the past from narrow-minded nationalistic arguments.
