Christie, 2015-11-25 It has been argued that the first presidential campaign of Michelle Bachelet in Chile and Cristina Fern ndez de Kirchner in Argentina used a rhetoric of newness Some political observers have said that as the first women to successfully run for the highest office in these countries they were presented as the new faces of democracy These observers argued that gender was not a determining factor in their electoral success but the focus on this first women frame did generate heavily gendered criticisms of these two candidates Negotiating Gendered Discourses addresses these views by asking how the gender factor is negotiated when women from the Southern Cone of Latin America run for high political office In particular Jane L Christie examines how Bachelet and Fern ndez positioned themselves in relation to the numerous women led social movements and in doing so reveals points of intersection between these contemporary political discourses and existing sources of female authority when negotiating complicated ideological debates about human rights the economy and women s rights **Elena Garro sin censura** Patricia Rosas Lopátegui, 2024-06-13 La posici n cr tica de Elena Garro 1916 1998 hacia el gobierno y sus colaboradores as como su enfrentamiento con la sociedad patriarcal no le permitieron publicar y en ocasiones concluir algunas de sus obras Elena Garro sin censura re ne creaciones in ditas de la autora elaboradas desde la d cada de los 50 hasta los 90 Las complementan un ap ndice que consta de un diario desconocido de los a os 30 y un amplio epistolario por la intertextualidad que existe entre la vivencia y la ficci n Su compromiso con la palabra art stica abre la posibilidad de descubrir en el presente milenio lo que estuvo oculto en sus fant sticos ba les esos guardianes de una memoria que no pudo ser calcinada por los facinerosos que intentaron aniquilar su pluma Como un

Human Rights Movement and Discourse. Mercedes Barros,2018-03-06 This book accounts for the process of emergence and constitution of the human rights movement and discourse during the last military dictatorship in Argentina 1976 1983 Central to this account is the contention that the movement s emergence and constitution should not be understood as a necessary or as a natural response to the atrocities carried out by the last military regime but instead as the result of a contingent process of political articulation and as a response which could have failed in its constitution and success Thus the appearance of the human rights movement and discourse in the country can only be understood in its full complexity if attention is given to this very process of popular mobilisation and political articulation that took place during 1976 1982

Principles in Power Vanessa Walker,2020-12-15 Vanessa Walker s *Principles in Power* explores the relationship between policy makers and nongovernment advocates in Latin America and the United States government in order to explain the rise of anti interventionist human rights policies uniquely critical of U S power during the Cold War Walker shows that the new human rights policies of the 1970s were based on a complex dynamic of domestic and foreign considerations that was rife with tensions between the seats of power in the United States and Latin America and the growing activist movement that sought

to reform them By addressing the development of U S diplomacy and politics alongside that of activist networks especially in Chile and Argentina Walker shows that Latin America was central to the policy assumptions that shaped the Carter administration s foreign policy agenda The coup that ousted the socialist president of Chile Salvador Allende sparked new human rights advocacy as a direct result of U S policies that supported authoritarian regimes in the name of Cold War security interests From 1973 onward the attention of Washington and capitals around the globe turned to Latin America as the testing ground for the viability of a new paradigm for U S power This approach oriented around human rights required collaboration among activists and state officials in places as diverse as Buenos Aires Santiago and Washington DC Principles in Power tells the complicated story of the potentials and limits of partnership between government and nongovernment actors Analyzing how different groups deployed human rights language to reform domestic and international power Walker explores the multiple and often conflicting purposes of U S human rights policy **Plano americano** Leila

Each cuadro is structured around a universal theme such as *El arte*, *La fantasía*, *El humorismo*, *El indio*. For example, in *La mujer*, students reflect on the influence of women in today's society. Each cuadro includes four major sections: *Para preparar la escena* provides background material to introduce the unit theme; *Para presentar la lectura* focuses on the literary content and authors and directs the students' approach to the selection by means of pre-reading activities; *Para entablar conversación* contains questions that promote conversation and relate personal experience to the readings; and *cuadro theme*. *Selección* contains a rich variety of authors and literary genres including short stories, plays, songs, excerpts from novels, plays, and poetry. *Para continuar conversando* improves students' communicative skills by generating discussion topics related to the central themes of the readings.

Que digan dónde están Luciano Alonso, 2024-05-25. Desde mediados de la década de 1970 se constituyó en Argentina un movimiento de derechos humanos que asumió una identidad separada de otros agentes políticos y sociales. En su despliegue temporal se erigió en ejemplo de resistencia contra el terrorismo estatal y de reclamo por la memoria, verdad y justicia respecto de los crímenes de lesa humanidad. Pero lejos de ser homogéneo, su desarrollo registró secuencias sincopadas, diferentes grados de integración simbólica y profundas variaciones regionales. *Que digan dónde están* es una historia de los derechos humanos en Argentina que ofrece una interpretación de la emergencia y del auge de este movimiento proponiendo alternativas teóricas conceptuales que permitan atender tanto a los contextos globales como a las cambiantes relaciones con agrupamientos sociales, partidos políticos y agencias estatales. Así propone una historia de las luchas por los derechos humanos en localizaciones del interior y del exterior del país que atiendan a sus distintos orígenes, formas de acción y culturas políticas. Luciano Alonso es Doctor en Historia. Está a cargo de cátedras de historia social y teoría sociológica en la Universidad Nacional del Litoral, Santa Fe, Argentina, y desarrolla estudios sobre temas de historia del presente. Ha publicado libros y artículos sobre los procesos represivos latinoamericanos, la articulación entre cultura y política desde los gobiernos autoritarios a la globalización neoliberal y la movilización por los derechos humanos en diversas localizaciones de Argentina, Uruguay y España.
